

Vehicles

Cars are often shared among family members or used for ridesharing services, the risk of spreading germs and pathogens is a concern.

Resysten's ability to inhibit the growth of bacteria, viruses and fungi on car interior surfaces can help reduce the transmission of illnesses and enhance passenger safety.

In a recent test against MRSA, UK university professors stated that:

"Resysten system is one of the most active protective coatings that we have tested in over 20 years of university research."

Dr. Patrick Dunlop, University Ulster UK

The invisible disinfectant protective coating

By using Resysten™ hygienic protective coating technology, you ensure an uninhabitable environment for biological contaminants on any treated surface, preventing their survival.

**Guaranteed
fully effective
for 12 months!**

- + Continuous disinfection
- + Reduces labour costs
- + Ensures employee efficiency
- + Prevents chemical waste
- + Provides sustainable work practices
- + UV stable

Lab tested and client proven results

- + Third-party broad-spectrum testing
- + GLP labs tested
- + SGS/EUROFINS Lab tested
- + University lab tested
- + EU Biocidal Products Regulation compliant

ANTI-VIRAL

Proven to kill (GLP lab tested) SARS CoV1, SARS CoV2, Ebola, HBV, HCV, MERS, HIV, MVA, PRV

ANTI-FUNGI, ANTI-MOLD

Prevents (GLP Lab tested) moulds and fungi such *Candida albicans*, and *Aspergillus brasiliensis* from growing.

ANTI-MICROBIAL

Proven to kill (GLP lab tested) hospital superbugs, MRSA, *Clostridium difficile*, and deadly bacteria *Listeria monocytogenes*, *Escherichia coli*, *Salmonella*, *Pseudomonas aeruginosa*, *Enterococcus hirae*, *Staphylococcus aureus*.

ANTI-ODOR

Resysten has a direct impact on the odors omitted from public toilets, paints, building materials, cosmetics, smoking, fabrics and more.

With Resysten you can...

...LOWER THE RISK OF INFECTION

Antimicrobial coatings can inhibit the growth of bacteria, viruses, fungi, and other microorganisms on surfaces within the cars.

...MAINTAIN HYGIENE IN THE MOST CHALLENGING AREAS

Provide an additional layer of protection against germs, especially on frequent touched surfaces such as door handles, steering wheels, and gear shifts.

...ALWAYS BE PREPARED

Ultimate 24/7 line of critical defense against nosocomial infection

...ODOR CONTROL

Antimicrobial coatings have properties that can help reduce unpleasant odors caused by microbial growth. These coatings can contribute to a fresher and more pleasant atmosphere within the car.

...BE COST EFFECTIVE

One time application, up to 12 months effectiveness.

...BE MORE SUSTAINABLE

Less chemicals sprayed, less CO₂ due to less shipping, less plastic container usage.

Added Protection!

Resysten™ provides a highly effective solution for vehicles by offering a combination of anti-bacterial, anti-odor, and anti-mould properties. The coating inhibits the growth and spread of bacteria, ensuring a cleaner and more hygienic environment within the car. The anti-odor feature effectively eliminates unpleasant smells, keeping the interior fresh and inviting. The anti-mould characteristic prevents the formation of mould and mildew, safeguarding both the health of the occupants and the longevity of the car. With Resysten™ private car owners can enjoy a cleaner, healthier, and more comfortable driving experience.
