MANAGE YOUR INVENTORY ONLINE, ANYWHERE, ANY TIME

Also, make your customers happier.

SAVE TIME – MANAGE ORDERS ONLINE

- Manage products you sell and products you grow.
- Track plant cycle.
- **Eliminate paperwork** and faxing.
- Real-Time inventory.

PLAYING NICE WITH OTHER SYSTEMS

- Bloomatory overlaps with most content management software.
- Tracks sales, purchase orders and deliveries.
- Integrate marketing efforts.

PROBLEMS SOLVED

- Up-to-date plant material inventory
- Ability to setup custom Portals giving your clients the convenience of managing orders.
- You can send push notifications updating order status.
- Reduce or eliminate overselling or leaving plants unsold.
- Knowledge of plant inventory can provide the basis for planning work schedules, labor needs, space requirements, and supplies.
- Utilize inventory data when planning production programs, calculating costs of production, and developing pricing strategies.
- Complete CRM and email management so you can turn up the heat on your marketing campaigns.
