INFORMATION

MASTERMIND YOUR CANCER

WHY SHOULD YOU SPONSOR ME ?

Well, that is a Tumor

These were the 5 words pronounced by the doctor. To be more precisely a malignant Stage 4 cancer nested on the basis of my tongue and 18 metastasis on both lungs.

When hearing those words, I realized that I didn't want to be just a patient or another statistic. I wanted to be a fighter ! Along my intense radio, chemo and immunotherapy treatments I started to explore and study the untapped power of the mind-body connection to find the right mindset to face cancer head-on in order to come-out victorious.

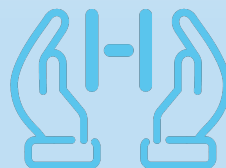

Along my cancer journey, **Mastermind Your Cancer** (MYC) was born, a blueprint explaining how to place the mind in the driver's seat when fighting cancer. An invaluable methodology that **complements** modern medical cancer treatments, like immunotherapy. The MYC book explains how to harness the same methodology that took me from a two-month initial life expectancy to more than 60 months past this prognosis...and still keeps me going strong.

So...don't hesitate. Please, support my challenge which has the soul goal to

- Help other cancer patients navigating their entire treatment cycle as smoothly as possible, improving their quality of life and by extending their life expectancy.
- Increase the awareness of the MYC methodology among the oncological staff and caregivers.
- Collect the necessary funds to finance the translation of the MYC book into the French, German, Italian and Spanish languages.

thank you, Maarten Sunier

MASTERMIND YOUR CANCER

HOW IS THE CHALLENGE SET UP?

presenting MYC at
>15 SWISS HOSPITALS

during
25 DAYS

cycling
1.375 KM

The challenge will consist of making a 25 days bicycle tour of 1.375 Kilometer through the city centers of Switzerland, visiting circa 15+ Hospitals where I will present the MYC methodology to cancer patients and to the oncology and radio-oncology medical teams. Currently the departure of the tour is planned for September 2025.

An e-Bike capable to tow a bicycle caravan will be used to promote the tour. It will also transport the necessary promotional material and to function as my mobile sleeping place for the period of the challenge.
