## MASTERMIND YOUR CANCER

SWISS HOSPITALS TOUR ON BIKE

presenting at  
**25** SWISS HOSPITALS  
during  
**30** DAYS  
cycling  
**1.375** KM

START  
MAY 2026

THANK YOU FOR ALLOWING ME  
TO VISIT AND PRESENT ALSO  
AT YOUR HOSPITAL

# MYC - MASTERMIND YOUR CANCER TOUR

## WHY SHOULD YOU INVITE ME ?

Dear Hospital,

I live in Geneva and I am a Stage 4 Head & Neck (with 18 lung metastasis) cancer survivor and author of the book “Mastermind Your Cancer” (MYC). In May 2026 I will be performing a bicycle tour visiting circa 25 oncological hospitals within the Swiss confederation and cycling 1.350 Kilometers. I would like to clarify immediately that:

1. **There is absolutely NO COMMERCIAL INTENT behind this tour.**
2. **My time, Activities and any material provided (e.g. MYC book) will be completely FREE OF CHARGE.**
3. **The sole purpose is to try to directly HELP AND SUPPORT CANCER PATIENTS by increasing the awareness of the MYC methodology among the patients and also among the oncological medical staff.**

The **Foundation of the Hôpital de La Tour** in Geneve is fully supporting and patronizing my initiative ([see attachment](#)) and several Swiss hospitals have already provided their availability to welcome me at their hospital. It would be an honor for me to visit and present MYC also at your hospital and via the attached leaflet you will find more information about the Tour. Below is a summary of what would be expected from your hospital in case you would agree to support:

- Officially become a hospital participating and supporting this initiative by identifying together a date in May 2026 for my visit;
- Provide a small area (circa 2x4 meters) for the duration of 1 day (at the hospital entrance or the oncological department) to expose my bike and promotional caravan;
- Deliver a presentation (circa 45 min) of my story and the MYC methodology to the oncological patients and medical staff of your hospital :
- In collaboration with your communication department use your communication channels (e.g. social networks) and maybe invite your local press contacts for a joint press meeting.

Thank you for allowing me to visit and present also at  
your Hospital

*this event is patronized by*

# MYC - MASTERMIND YOUR CANCER TOUR

## HOW IS THE TOUR SET UP?

presenting MYC at  
**>25** SWISS HOSPITALS

during  
**30** DAYS

cycling  
**1.375** KM

The tour will consist of making a 30 days bicycle tour of circa 1.375 Kilometer through Switzerland, visiting circa 25 Hospitals where I will present the MYC methodology to cancer patients and to the oncology / radio-oncology medical teams. Currently the departure of the tour is planned in May 2026.

An e-Bike capable to tow a self-made bicycle caravan will be used to promote the tour.

It will transport the necessary promotional material and to function also as my mobile sleeping place for 30 days.

## TENTATIVE LIST OF PARTICIPATING SWISS HOSPITALS

as of 05.01.2026
