## Giving Opportunity

Our library is funded by our caring community in the form of donations from different sources, including donations from individuals who believe in the library and the community. These donations help us to operate the library and plan for future endeavors. Have you made a place for the library in your annual giving? Checks can be mailed to the address below or use the donation button on our website.

Consider giving a memorial gift to help remember someone special in your life. Memorial gifts help us to purchase not only books, but other supplies needed for programming, such as children's programs.

**NOTE: The Library will be closed Thanksgiving Day and November 25. We will reopen on November 26 at 10 AM.**
