### Literacy Initiatives

Lakeview Area Public Library is proud to support Basic Literacy by offering programs and services that help children, teens, and adults grow as readers. From storytimes and summer reading to book clubs, ASL support, and family literacy activities, we provide opportunities for learners of all ages to build confidence, strengthen skills, and find joy in reading.

In addition, we strive to provide programming, materials, and resources that support the other four PA Forward literacy areas: Information Literacy, Civic and Social Literacy, Health Literacy, and Financial Literacy.

Use our online reading program to track minutes, complete activities, leave reviews, and join reading challenges for all ages, including Summer Reading and 1,000 Books Before Kindergarten.
