

Privacy Statement

Portable Information Solutions has created this privacy policy to protect the privacy of our customers and end users. The term “we” in this document is used to refer to those involved with our website and software development and maintenance.

If you wish to purchase our software, you will be asked to provide contact information. This information will facilitate proper completion of a transaction and also allow us to send you an email notification regarding an update to an application you may have purchased. Our web site will also track certain anonymous technical data associated with a visit. Examples of this datum are web sites that may have referred a visitor and the country from which a visitor’s internet connection originates. We also track data related to the number of hits to the website as a whole and to certain pages on the website. This data helps us modify our website to better serve our customers. This technical data, once again, is anonymous and is in no way related to the customer’s contact data.

Please be assured that we will not share or sell your contact information with any third party and that this information is kept in strict confidentiality within Portable Information Solutions and is very tightly guarded. However, this contact information could be acquired by a third party in the unlikely event that the assets of Portable Information Solutions are acquired by another corporation or if this information is demanded under order of law.

Our site has links to other websites. We are not responsible for the content, safety, or privacy policies of those web sites.

The commerce portion of our web site uses industry standard SSL encryption. An SSL enabled browser must be used to make a purchase on our site. This encryption protects your information during a transaction.

Portable Information Solutions reserves the right to change this privacy statement. Any existing customers will be notified of this change via an email message and by a posting of said notice on our website.
