Happy ThanksLiving

"How important it is to not only give our thanks, but also to live our thanks! To take our energy of thanksgiving and turn it into a way of living. The energy of gratitude is at the heart of every part of our lives; our relationships, the health of our bodies, and even our finances. It is a creative force in harmony with the Universe. Above all, it is the joyful realization that we have, by virtue of our divinity, all that we will ever need.

To turn this Thanksgiving season into a life of ThanksLiving for ourselves is a powerful spiritual practice that will change us and our lives. When we are grateful, we naturally increase our good. In the Bible, we read of the transformative power of gratitude. I Thessalonians 5: 18 says, "In everything give thanks; for this is the will of God in Christ Jesus for you." The deeper meaning of this Bible verse is that giving thanks is a creative energy and is the natural response to the givingness of God. When we express gratitude throughout our day or "in all things," it increases the good in our lives because we are feeling, thinking, and acting in harmony with our inner being, the Spirit of God and Its will of well-being for us."
