IB recruiting can be overwhelming, but when you have Jason in your corner showing you exactly what to study and spending hours with you late at night doing mock interviews to perfect your answers, you become 100x more confident.

Hi Jason/Eva,

Absolutely, I can share my experiences that helped me get into Investment Banking at Scotia for this coming Winter. The path I took was very untraditional starting out in my first year here at UOttawa as I was never apart of any investment fund at the school which meant that I did not get connected with anyone that was in investment banking.
