

Bearing Technology

An endurance runner at Higher temperatures

Universal plain bearings for use in the area of food and pharmaceutical industries

- For temperatures up to +350 °F
- FDA compliant
- For medium to high loads
- Suitable for both oscillating and rotating applications
- Fulfills the fire prevention requirements of the Federal Aviation Administration of the USA (FAA) for aircraft interiors
- Self-lubricating and maintenance-free

At GS Engineering Group we aim to solve challenging sealing applications and design products for industries such as:

Automotive Aerospace Industrial

Oil and Gas Medical Food and Beverage
