Hazard	Possible Harm	Control Measure	Risk Rating	Further Action
Sleeping—Cold	Staff and Students	<ul style="list-style-type: none"> Make sure students have adequate sleeping bags. Provide ground mats for added insulation. Advise students to put on more layers if they get cold 	Low	
Sleeping—Hot	Staff and Students	<ul style="list-style-type: none"> Make sure students hydrate. Explain that they can unzip sleeping bags to allow cool air in. 	Low	
Severe Weather	Staff and Students	<ul style="list-style-type: none"> Keep a good watch on the weather reports. If extreme weather is expected make appropriate measures to evacuate safely. 	Low	
Campsite—Fire	Staff and students.	<ul style="list-style-type: none"> Make sure students have had a tour of the campsite, and understand the fire procedure, and where the meeting point is. Students not to spoke near any gas cylinders or have naked flames. 	Low	

Where possible obtain campsites own risk assessments for the individual site.

Use individual student risk assessments for issues regarding behaviour and being off site.
