Black Sheep Brothers Song Book

Among Giants

Never let them tear you down
That's the way they want to seal your heart away.
There's only one thing I can say.
Stand up and do it my way, never gonna pay.

Raise my head; I'm among Giants.
Never settle for second best.

You tried to keep me underground
Towering over the tree-tops; listen to the sound.
All the nonsense fades away.
Here I come again; listen to what I say.

Raise my head; I'm among Giants.
Never settle for second best.
Raise my head; I'm among Giants.
Never settle; no regrets.

(Bridge)

Raise my head; I'm among Giants.
Never settle; no regrets.
Raise my head; I'm among Giants.
Never settle for second best.
Raise my head; I'm among Giants.
Never settle; no regrets.

Midnight Madness

Oh Yea.

Chasing midnight madness on two wheels.
Flying down the highway dressed to kill.

Ride the red-line all the way.
The road in mine; get out of the way.
'Till the morning light.
Engines roar; radio on
DJ playin' my favorite song
Rock until the dawn.

I just have to see her once again.
And I know she wants to see me too.

It's finally Friday night
I'm feeling' out of sight
I finally got it right.
Take the bridge across the bay.
Try'n to think of what to say
When I see her.

There's one thing on my mind.
I gotta let her know.
Tonight the rockiness fine.
We're goin' to the show.
The music's in the air.
I'm lookin' for a sign.
Will she take me there?
Yea!

Tonight is the night; let the music take you
there.
Can you feel the magic, floating in the air
Come on give me a sign; you gotta let me
know!

Yea!

Guitar Solo...

I just have to see her once again.
And I know she wants to see me too.

It's finally Friday night
I'm feeling' out of sight
I finally got it right.
Take the bridge across the bay.
Try'n to think of what to say

Yea!

Chasing midnight madness on two wheels.
Flying down the highway dressed to kill.
Bury your head in the sand. Tell 'em life was
grand...today.
I have to be on my way. Wish that I could
say...
Another night!
Yea! Yea!

Naked Ape

Gather 'round let us bend your ear in a brand new way.
The world is getting so weird these days; there's not much we can say.

Everyone's offended by this.
Everyone's offended by that.
I'm just gonna speak my mind.
And you can deal with that.

Deep down in the sea; there's a mystery unfolding.
That's where I wanna be; in the middle of it all.

There's a mystery of everything thing that's about to unfold.
So much to learn and so little time that we'll never know...
What hit us. ((Coda))

Great unknown!
Never been shown.
Great escape!
End of the naked ape!
(Rinse and repeat)

(Coda) or (Last Chorus)
Great unknown!
Never been shown.
Great escape!
End of the naked ape!
Share his fate!
End of the naked ape!

Here We Are

Looking back on life
And all the things I thought I had to do
Seemed important at the time
The stars are out tonight
the rain has finally gone and here we are
The best is yet to come

And in the twilight of our day
There's so much I want to say

Here we are again
The summer sun is sparkling on the trees
And I'm alone with you
This life is so damn short
Too short to be the one who plays it cool
There's so much left to do

And in the twilight of our day
There's still so much I want to say

So here we are again
Hold you close and never let you go
Spend my life with you
Here you come again
to hold me close and never let me go
I'm so in love with you

And in the twilight of our lives
There's still so much I want to do

(solo)

And in the twilight of our day
There's still so much I want to say
In the twilight of our lives
There's still so much I want to do

Looking back on life
And all the things I thought I had to do
Seemed important at the time
The stars are out tonight
The rain has finally gone and here we are
The best is yet to come

Long Live Rock

Yeah...
Here we go...
Woo...

People try until me rock'n roll is dead
Can't hear what you're saying is ringing in my head
People saying crazy things all wrong today
I don't hear a word not a single word you say

Long live rock (2X)

Woo...
Here we go

They say the heyday is gone nothing new was good
But I don't know what to do cause it's running in my blood
Musics got the power 24 hours a day
Shake me to my soul when the boys begin to play

Long live rock (2X)

Who
Here we go
Well alright...

(Solo)

Long live rock (4X)

Wasted Years

It's been so long since I've seen your smile
It seems he years of done you well... so well
I still see that little girl in your eyes
I can't change the hand of time
I can give her this heart of mine

Some things never change
It's all just rearrange with time
Liked the winter brings the rain
I knew we'd meet again
My babe...
So many wasted years...

I went to school and working part-time job
So we could raise a family
I woke up one morning and you were gone
Why do you ever have to leave
You meant so much to me

Some things never change
It's all just rearrange what time
Like the river meets the sea
You belong to me
My babe...
So many wasted years...

(Solo)

I heard she died just the other night
I said goodbye in a prayer
I fell to my knees and asked the Lord why
Why'd you take her away from me
I love was meant to be

Some things never change
It's all just rearrange what time
Like the winner brings the rain
I thought would meet again
My babe...
So many ways two years

Wasted years...

Black Sheep Brothers Song Book

Skull of the Jester

Here in the ocean of time
Swirling and drowning in our minds
Thinking we know who we are
The truth is so near yet so far

I know I am
I know we are

If you're looking to find me
you'll have to go out of your way
I know I'm I'm being misunderstood
That's all I have to say
And one day you will figure it out
And love who you are today
For tomorrow the skull of the jester
Will lie at your side in the grave

Riding this planet through the stars
Swirling and drowning and our minds
Sinking we know who we are
The truth is so near yet so far

I know I am
I know we are

If you're looking to find me
you'll have to go out of your way
I know I'm I'm being misunderstood
That's all I have to say
And one day you will figure it out
And love who you are today
For tomorrow the skull of the jester
Will lie at your side in the grave

Changes

Somewhere back in time
A long time ago
You must've lost yourself
Let yourself go
I see my reflection now
Time to let myself be

I've watched the years go by
Nothing ever changes
I watch the time pass by
Something is on the edge of my mind

Here's a chance to make it right
Don't be afraid of changes
Give it everything you've got
Don't let them slow you down

I've traveled so many miles
I'm taking my time
I'm keep in mind the road
See what I might find
Something deep in my soul
Is driving me on
I'm dripping to find myself
And where I belong

I've Watch the years passed me by
Everything changes
Try to remember who I am
Here's another chance from beginning

Anyway the wind might blow
My future is wide open
So the Dice and take my shot
Don't let them bring me down

(Solo)

Anyway the wind might blow
My future is wide open
Throw the dice and take my shot
Don't let them slow me down

(outro)

Black Sheep Brothers Song Book

Faith, Hope, Love

I close my eyes and wonder
Is this how the world supposed to be
Is it just a spell we're under
Will tomorrow hold the key

Across the rooftops heaven starlight lashes
Faith, Hope, Love

Do you ever take the time to wonder
What can a simple servant do
Offer a hand to those who stumble
Together we can turn the dark sky blue

A summer meadow
Heaven's sunlight splashes
Faith, Hope, Love

(Solo)

Faith, Hope, Love
Faith, Hope, Love
Faith, Hope, Love
Faith, Hope, Love

Black Sheep Brothers Song Book

Solar Wind

Solar wind...soul-shine daydream,
show me where you've been.
Circling stars of conflagration,
sing my spirit home again

The world is closin' in
And I don't know how much longer I can stay here

Music is my soul-salvation.
Sweet Melody, where you been?
Save me from this world's oppression.
Sing my spirit home again.

Ride the solar wind
Let it settle in
So you can make it
Let your love light shine again

(Solo)
Ride the solar wind
Ride the solar wind
Solar wind (improvisation)

Growing Pains

Yeah...

Yeah...

So much I didn't need to know
Places I didn't need to go
But I've climbed the highest mountain
I see the valley below

Fear is a wasted emotion
Worry is a waste of my time
No one can change what's behind us
Truth is sublime

Growing pains
Pain is gone

Yeah...

Yeah...

No need to fight over religion
And every damn politician tells lies
Here in the human condition
Everyone cries

Word is your love's gone and left you
Where did it all go wrong
Death comes to take us all
And the heavens reply

Growing pains
Pain is gone

Old school right here....(talking)

Black Sheep Brothers Song Book

Gabriel

Let me express to you
A vision of my mind
Just a little message
To all of mankind
I see the misery
Your bring upon yourself
So put your vices
Back upon the shelf

And watch the children of the night
In their existential fight

Do you remember the magic
Back in the dark days
In the age of reason
It never went away
Livin' without confession
In the cesspool of sin
Hope you're enjoying the ride
'Caus it's about to end

And watch the children of the night
In their existential fight

Skyscrapers stand like tombstones

Black Sheep Brothers Song Book

Sisyphus

I remember the day
Everything began to go wrong
Life was like a hurricane
Everything was here and gone
Now I'm back in the saddle again
Get that ego out of my way
Lookin' back I shoulda known better
This is all I gotta say

Yeah...I was just a rolling stone
Yeah...I'm a rolling stone
Yeah....Papa was a rolling stone
Yeah...I'm a rolling stone

Yeah...(4X)

Take a look around you
Everything that lives must die
See all the people in need
Wat'cha gonna do with your time
Now I'm back in the saddle again
Get that ego out of my way
Lookin' back I shoulda known better
This is all I gotta say

Yeah...I was just a rolling stone
Yeah...I'm a rolling stone
Yeah....Papa was a rolling stone

Yeah...I'm a rolling stone

Yeah...(4X)

Solo...

Let's appeal to reason.
How can we see through the lies?
Like the ignorant down in the cave,
Shadows to dazzle your eyes.
Take off the chains and ascend now
Out in the light of the day.
I have no use for the darkness;
This is a much better way.

Yeah...I was just a rolling stone
Yeah...I'm a rolling stone
Yeah....Papa was a rolling stone
Yeah...I'm a rolling stone

Yeah...(4X)

Yeah...I was just a rolling stone
Yeah...I'm a rolling stone
Yeah....Papa was a rolling stone
Yeah...I'm a rolling stone

Yeah...(4X)
