WAR WHOOOP

March - April 1990

PORSCHE *Club* OF AMERICA

On the Cover

For several years the Porsche factory has supplied an engineer as our principal guest speaker for War Bonnet Tech. This year Heinz Stehle Chief of Powertrain Development at Porsche AG was our special guest.

Mr. Stehle is demonstrating how the transmission parts actually fit together. The lucky few who participated in the "Weissach" contest had five min. to assemble the parts. See pages 3, 5 & 7 for further details.

Tech 90

Tech 90 was a great success. We had two visitors travel all the way from Australia. They received the long distance award. They spent more time in a airplane than the other attendees spent in a car to get to Oklahoma City. They promised to bring more Australians with them next year.

Mr. Brian Bowler, President of Porsche Cars North America was a special speaker at the banquet dinner Saturday night. He announced the new 911 Turbo. 3.3 liter (201 cu. in.) 320 bhp (DIN) at 5750 rpm and 332 ft. lbs. Torque at 4500 rpm. Five speed transmission, 0-62 mph in 5.0 seconds, top speed of 168 mph.

We "roasted" Bob Jones of Jones Autowerks. Bob has been a valued speaker at Tech for many years. This year we thanked him in the War Bonnet Tech method, public embarrassment. Bob was presented "the bird" in honor of his meritorious service. The chicken is getting old and incontinent, so it has a diaper now. Thanks Bob, Nobody does it better.

PERFECT WAX

Proud to have been a part of
Tech 90
