Editor's Notes

Brian Miller - War Whoop Editor

This issue is the same size as the last issue. We have the usual War Bonnet Gourmet column and we also have another member article from Vince Howie and his 914 restoration project. We have the first three months of the calendar for 2021 complete but there is more details coming for some events so keep checking our website for updates.

Rick Cacini, Eric Costello and Bob Wilson are rolling off the board and I have the results of the election. Matt Porter has been elected to the board and Bob Wilson has been elected to a second term. JoAnn Wong has also been elected and will begin serving the term in January 2021. I would like to thank Rick Cacini and Eric Costello for serving on the board and Eric even

served two terms! We all look forward to working with the new board members in the upcoming years.

I hope all of you are looking forward to Christmas and I hope we all have a great and safe new year. By the time you get this issue we will probably be a week or two from Christmas. Be sure to get a small something for your Porsche. Some wax or maybe a good cleaning. Spring will be here soon! Hope to see all of you at an event soon.

President's Podium

Brian Swope - War Bonnet President

Ever since my first autocross when I joined War Bonnet in 2004, I have had a great passion for Porsche racing, the activities in our club and the friends I have made that share in the same feeling. To sign up and see things from a distance, to never participate is to never really enjoy all we have to offer. Running the autocross for several years was one way I tried to help contribute. Then I wrote articles, helped in many ways but it has been the last 2 years in which I have been able to make the largest impact. Although my time as your President has come to an end, I am happy to say that I will continue serving the Porsche community in a different way.

One of the ways I will continue working with PCA will be organizing track days. Although these will generally be beyond the scope of sanctioned club activities, any of you can contact me for further information. If you would like to take your car on a real race track with like-minded members in the safest environment possible, this will be for you. There are at least 5 tracks within half a day's drive from OKC. Staying the night before and having a track all to ourselves is an absolute dream that can be lived with me next year.

The activities we will have next year are going to be huge! We are planning

events and destinations that we haven't seen since I've been a member. If you have enjoyed our overnight trips, you won't want to miss what's cooking. I'll just say that some 2-night drives may be in our future.

How about some specialty drives just for 356, 914, 944, 911 and SUVs? I will be setting up some events calling out some special cars so when you see your number called upon, it will be your time to shine!

And I cannot forget the contacts who became customers who became friends. Without you, I really wouldn't have many friends so it's absolutely corny but true...It's not about the cars, it's the people.

As you can see, the extra activities I plan to be involved in will demand more of my time than I can rightfully commit to continue on as President. It has been one of my greatest privileges to serve you all. I'm looking forward to my next chapter and the things I hope several of you will join me in doing.

Until then...Thank you and Happy Motoring.

Utilizing this service for our events that require waiver such as autocross, club drives, or social dinners captures your e-signature and makes sure all waivers are signed and stored in our system with minimal to no hand to hand contact at event check in. This also gives us a head count for events that need seating or food accommodations.

We will provide direct links on our website and mailers so that you can go straight to the event you want to register for so that you do not have to search the site for your event.

914

Conversion

This is the conversion of my 1973 914 1.8L to a 2.2L GT clone. This has been a two year journey with myself and Brian Swope. It was really 95% Brian and 5% myself. It is really exciting to see the transformation and to put another Porsche on the road! It came from New Mexico where it was sitting in a garage with the a GT kit, 911 suspension, 2.2L with webbers, 911

dash and misc parts. We added 911 Faulks wheels, cut the fenders and installed the GT kit, new tan interior, new carpet, added the 911 dash and new paint. A special thanks to Brian Swope for doing such an outstanding job!! I still have a few things to do but look for it this spring at our events!

Thanks, Vince Howie
