

Trainer: Dr. Ting Liu
ICEEFT Certified Emotionally Focused
Therapy Trainer, Supervisor and Therapist

Emotionally Focused Couple Therapy (EFCT) Externship In-Person | Singapore 29 Oct – 1 Nov 2025 (Wed-Sat)

An Externship in Emotionally Focused Couples Therapy® is an immersive four-day (24-hour) training experience, foundational for therapists aiming to specialize in EFCT. Led by certified trainers, it offers a comprehensive introduction to the EFCT model, focusing on the science of attachment and the systematic approach to couple therapy. This training is crucial for therapists because it equips them with the necessary skills to foster secure, resilient relationships in therapy. It's the first step in formal EFCT training, opening the door to advanced practice and certification, enhancing therapists' efficacy and confidence in their clinical work with couples.

FEEDBACK FROM PREVIOUS PARTICIPANTS:

- This is hands down the best training I have done since becoming a counsellor. Dr Liu is an amazing trainer, and I will remember so many of the examples she shared. I am very keen to continue with the training.
- Thank you for a superlative experience, I am inspired!
- Dr Liu was very inspiring! Really appreciate her sharing of her experiences!
- Very clear in providing of information and giving examples to link to key concepts.
- Case study & role plays were helpful.
- Explanations of the concepts were supported with very good case examples.
- Rationales about the intervention was also explained very clearly with theory that helped with deepening the learning.
