ESSAY:

When DTS Ministries was founded in 2015, the following purpose was established: to provide young people with hope and direction in a community center that would minister to their needs. Our objective then and now remains: to provide youth in the community with opportunities to build character and skills needed to succeed in life with little to no cost associated with such activity.

As you embark on formal post-secondary education or trade school, think back upon a time or experience during which your character development began. Who influenced you most? How did you walk away changed? What new resolve were you left with and how will that resolve manifest itself in your adult years? What will paying it forward look like for you as you move into adulthood? (Essay should be attached as a separate document. Ensure that your name and email address are included.)
