

1 MILLION TURTLES: BIOHAVEN FLOATING ISLAND PACKAGES

NATURE-POSITIVE SOLUTIONS FOR WETLANDS, WILDLIFE, AND COMMUNITY SCIENCE.

For Councils, Landholders & Agencies

Why choose our Biohaven packages?

-  Boost Biodiversity – Habitat for turtles, birds, and aquatic life
-  Improve Water Quality – Reduce nutrients and pollutants
-  Engage Communities – Signage, citizen science, field days
-  Data-Driven Tools – eDNA, GIS reports, nest predictor mapping
-  Award-Winning Innovation – Eureka Prize-winning initiative
-  Nature Repair Market Ready. Earn Money for investing in biodiversity

Turtles in Schools: Connecting Biohaven Islands to the Classroom

-  Raise Hatchlings – Students care for turtle eggs and release them into safe habitats.
-  STEM in Action – eDNA testing, water quality, and mapping meet science curriculum
-  Curriculum Aligned – Designed for Years 5 & 6, supporting inquiry-based learning.
-  Community Connection – Partner with councils, landholders, and experts.
-  Tangible Impact – Students log data into TurtleSAT, helping track and protect turtles.

“Biohaven Islands deliver measurable biodiversity outcomes, engage the community in real science, and create scalable opportunities for councils, landholders, and schools to invest in nature.”

— Professor Ricky Spencer, 1 Million Turtles
