

TERM 2

3 EXPERIMENT PREPARATION
Learn about the 3R's Principle and complete prerequisite training for the National Nest Predation Survey

2 CITIZEN SCIENCE
Learn about what it means to be a citizen scientist and create a conservation action plan for freshwater turtles.

1 THREATS TO FRESHWATER TURTLES
Learn about freshwater turtle declines in Australia and threats to our species.

4 TURTLESAT
Learn about TurtleSAT and the role of technology in scientific data collection

5 NATIONAL NEST PREDATION SURVEY
Implement the experimental design for the National Nest Predation Survey at your local wetland.

6 DATA COLLECTION
Students will record nest predation rates from the National Nest Predation Survey

7 DATA ANALYSIS
Students will upload data from the National Nest Predation Survey to TurtleSAT and analyse their findings
