

**3 MAPPING TOOL**  
Learn about the Turtle Nest Predictor Mapping Tool and predict potential turtle nesting sites at your local wetland.

**4 APPLICATION OF SKILLS**  
Students will demonstrate their skills as a citizen scientist and apply their skills to instigate social change that supports freshwater turtle conservation

**2 COLLABORATION WITH FIRST NATIONS PEOPLE**  
Recognise the importance of collaboration when developing and implementing conservation actions

**1 FRESHWATER TURTLE NESTING**  
Learn about freshwater turtle nesting, including time of year, nesting behaviour and the egg chamber.

**5 TURTLE MONTH**  
Students will facilitate their own "Turtle Patrol" around their local wetland and implement turtle nest protection.
