

Moving turtles found along roads

If you find a turtle along the road and you want to move it to safety - here are some key recommendations to keep you and the turtle safe.

Keep gloves in your car

Ensure they are clean and preferably single-use disposable gloves

Have a Hi-Vis vest handy

We highly recommend having a hi-vis vest in your car and wearing it when moving the turtle

Use hand sanitiser

Use hand sanitiser before and after moving the turtle

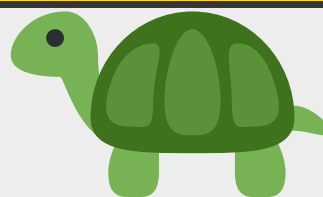

Wear gloves

Ensure that you are wearing gloves at all times when moving the turtle

Do not move the turtle far

Avoid moving the turtle to a different or a location far from where they were spotted

Dispose used gloves responsibly

Please do not reuse the gloves and dispose them responsibly

VERY IMPORTANT: Stop only when safe

Your safety on road is of utmost importance. Only stop when you can do so safely.

THANK YOU FOR GIVING OUR TURTLES A HELPING HAND!
FROM THE 1 MILLION TURTLES PROGRAM TEAM

Don't forget to record your sighting on TurtleSAT.
