**About Your Care**

There are three phases of care that Chiropractic patients often go through. The first is **Initial Intensive Care** which corrects the most recent layer of Spinal and Neurological damage (**VSC Vertebral Subluxation Complex**). This care often reduces or eliminates the symptoms. Then begins **Reconstructive Care** which corrects the years of damage that occurred when there were few symptoms. And finally, Chiropractic offers a genuine approach to **Wellness Care**. All of these options will be explained giving you the tools to begin a course of care that fits your goals.
