Present

The Advanced Medical Life Support – Basic Class (AMLS-B)

June 22-23, 2019 at MRVAS

The Advanced Life Support Institute (ALSI) is eager to present this two day program to providers at the Basic and Advanced EMT level.

Advanced Medical Life Support (AMLS) is the gold standard of education for emergency medical assessment and treatment. Endorsed by the National Association of EMS Physicians, AMLS emphasizes the use of the AMLS Assessment Pathway, a systematic tool for assessing and managing common medical conditions with urgent accuracy.

Students learn to recognize and manage common medical crises through realistic case-based scenarios that challenge students to apply their knowledge to highly critical patients. The course emphasizes the use of scene size-up, history, interactive group discussion on potential treatment strategies, and physical exam to systematically rule out and consider possibilities and probabilities in treating patients' medical crises.

All participants will be involved in classroom presentations and scenarios. Each participant will receive the latest edition of the textbook and upon successful completion (attendance and a passing score on written exam) a NAEMT Certificate that can be used toward National Registry National Core Competency Requirements for recertification. We will use our high-fidelity human patient simulator for scenarios as well as programmed patients.

Cost: \$350.00 per person. Does not include meals or lodging.

Books will be provided in advance with a deposit of \$75.00 per person.

Register with Advanced Life Support Institute at alsi@myfairpoint.net and/or with MRVAS.

Also can register on NAEMT website, www.naemt.org. Course # AM-19-05228-19

Any questions please feel free to contact ALSI at 603-447-4249.
