

VTEMS District 6 Executive Committee Meeting
Board Room, CVMC
August 13, 2019 @ 1815

Called to order at 1830 by Mark. Present: Mark Podgwaite, Jared Blum, Laurie Beth Putnam, Chris LaMonda, LT Rutter; Matt Romei, Scott Bagg arrived at 1840.

1. Full scale MCI exercise in District 6. Received \$27,000 grant for this. It will take place on March 6, 2020. CVMC will be using this as their annual MCI drill and will be fully participating. BOR will be utilized. How do we ensure this will be successful and have enough players? What do we want there? Jared said he felt every D6 agency needs to participate in some way. Recommends making it required that every service supplies at least a 2 person crew to participate. This sounds reasonable. Will recommend at Board Meeting.
2. Future AEMT courses – Mark reported that by 2025 AEMT courses may need to be credentialed. How this is to be done is unknown. Maybe portfolio type training similar to paramedic. Scott reported that he doesn't know what the state knows about this. Question whether NREMT will go in this direction. Wait and see.
3. State Training Coordinator – Candidate and State couldn't come to agreement on terms of position. Back to square one!
4. EMS required to do evidentiary blood draws for DUI. Take stance as District that our EMS providers will be deferring this to CVMC. Jared said our stance could be we can't do it as our services don't have the necessary equipment available to do them.
5. Adjourned meeting 1900.

Respectfully submitted;

Sheila Brown, Secretary
