

Independent Behavioral Health Quality, PREA Readiness & Workforce Resilience

A psychologist-led professional-services partnership for correctional quality, compliance readiness and workforce performance, without adding direct-care staffing.

PREPARED FOR Purchasing and Executive Sponsors	PROPOSED ENTRY One-site, eight-week paid pilot
PREPARED BY Brittany A. Fenwick, PhD Founder & CEO	DELIVERY Remote-first; onsite by agreement

Executive Value Proposition

PsychElite Health helps correctional leaders identify actionable gaps in behavioral-health controls, PREA-related clinical practices and workforce-support systems. The result is a decision-ready improvement roadmap—not another staffing model, provider network or theoretical report.

Three Purchase-Ready Pilot Options

PILOT	PRIMARY BUSINESS QUESTION	CORE OUTPUT	INVESTMENT
Behavioral Health Quality Review	Where are access, escalation, documentation, supervision or governance controls weakest?	Prioritized control-improvement map	\$15,000
PREA Clinical Readiness Review	Are medical and mental-health practices ready for scrutiny under applicable PREA requirements?	Clinical-readiness matrix and corrective-action roadmap	\$18,000
Occupational Wellness Review	How are trauma exposure, burnout, critical incidents and support pathways affecting staff performance?	Workforce-resilience strategy and leadership plan	\$15,000

What Your Organization Receives

• Independent diagnostic review. Structured analysis of agreed policies, workflows, training evidence and aggregate information. • Executive findings matrix. Clear strengths, gaps, urgency, effort and responsible-owner recommendations. • 90-day implementation roadmap. Sequenced actions, milestones, KPIs and decision gates.	• Leadership readout. A 90-minute executive session focused on decisions—not data dumping. • Site-proof framework. Baseline and post-implementation process measures for responsible expansion decisions. • Protected scope. No PHI required for initial design; privacy and access boundaries agreed before review.
---	---

Eight-Week Delivery Model

PHASE	TIMING	ACTIVITY	DECISION-READY OUTPUT
1	Week 1	Confirm sponsor, site, scope, standards, access and privacy boundaries.	Signed pilot charter
2	Weeks 2–3	Review agreed policies, workflows, aggregate data, training evidence and de-identified materials.	Evidence matrix
3	Weeks 3–5	Conduct structured interviews and assess strengths, gaps, control maturity and dependencies.	Priority findings matrix
4	Weeks 6–8	Build recommendations, KPIs and implementation roadmap; facilitate executive readout.	90-day decision package

Why PsychElite Health

RELEVANT EXECUTIVE EXPERIENCE • Direct correctional psychology and operations experience • Former federal law-enforcement officer • Headquarters-level psychology leadership within DHS • DOJ/BOP and complex public-system experience	CLINICAL & ORGANIZATIONAL CAPABILITY • Licensed psychologist in Texas and Alabama; PsyPACT authorized • Trauma, suicide-risk, clinical-quality and program-evaluation expertise • Independent, psychologist-led analysis with executive translation • Remote-first delivery with onsite work by agreement
--	---

Success Measures

- **Control clarity.** Defined ownership, escalation, documentation and review expectations.
- **Readiness.** Evidence-backed understanding of applicable clinical-practice strengths and gaps.
- **Implementation.** Completion of approved near-term actions with leadership monitoring.
- **Workforce performance.** Improved awareness, consistency and use of approved support pathways.

Engagement Boundaries

PsychElite Health provides organizational consulting—not direct inmate treatment, clinical staffing, provider-network participation, legal advice or an official PREA compliance audit. PREA services are internal clinical-readiness reviews and do not replace the federal audit methodology or a DOJ-certified PREA auditor. No Protected Health Information (PHI) is required for the initial design phase, which helps bypass institutional data-privacy hurdles and accelerates the review process.

RECOMMENDED NEXT STEP

A 30-minute sponsor and scope conversation to select one pilot, one site and three success measures.
