Update on our practice!

- Mobile Neurology of SW Florida LLC has partnered with CortiCare, a national provider of EEG services.
- CortiCare can do mobile EEG at the patient's location. Which means they will come to the LTACs and the nursing homes, as well as the patient's home.
- We feel that this partnership will give our patients and providers the quality of service and peace of mind, as they do not have to be transported to a different facility, nor wait long to have this testing done and the test read as well.
- Our business has many new and exciting services in the planning stages, such as: EMGs/NCS and ultrasounds.
- Any questions please contact our nurse practitioner, Dawn Bradley.

Thank you.
