

She Got Depth

Descended from a daisy
Giving her love
Living like a sunflower
Sharing her sun

Always in bloom
But never showing off
Can't even try
To hide her pollen

She got depth
And don't need much
All it takes is love
To fill her cup

Yeah, she got depth
Don't care where you been
Likes to look closer
Under the skin

But you got to be sweet
You got to be kind
Don't worry about the shell
Only what's inside

She got
She got depth
She got so much
She got so much depth

She got
She got depth
She got so much
She got so much depth

Can tell when there's a problem
She really wants to know
Always reaches out
Listens to your woes

Call her day or night
She's an angel there for you
Gentle, sweet, and pure
Her heart is just so true

She got depth
And don't need much
All it takes is love
To fill her cup

Yeah, she got depth
Don't care where you been
Likes to look deeper
Under the skin

But you got to be sweet
And you got to be kind
Don't matter about the shell
Only what's inside

She got
She got depth
There's so much inside

She got
She got depth
There's so much inside

Descended from a daisy
Giving her love
And living like a sunflower
Sharing her sun

Descended from a daisy
Giving her love
And living like a sunflower
Sharing her sun

We need more daisies in the world
We need more daisies in the world
We need more daisies in the world
We need more daisies in the world

Wish there were more daisies in the world
Wish there were more daisies in the world
Wish there were more daisies in the world
Wish there wore more daisies in the world

She got
She got depth
She got
She got depth

Yeah, she got depth
She's got so much depth
