

Dear Selene

Dear Selene
Remember we used to dance
All night long
Round and round we went

Habibi, oh
The way you held my hands
Dear selene
Remember we used to dance

Dear selene
I'm having a bit of a time
Lost my way
Drinking too much wine

And oh, I know
Know I let you down
God, I need you here
Need you now

But I'm never going to see you again
Never going to hold you again
This bitterness will last forever
I hate the last day of December

We're never going to talk again
We're never going to dance again
This madness will last forever
Fuck the last day of December

Dear Selene
Remember we used to dance
All night long
Round and round we went

Habibi, oh
The way you held my hands
Dear Selene
Remember we used to dance

Dear Selene
There's no one quite like you
I should've said something
Wish I would've told you

But I never even said so
Never said it out loud
Wish I would've told you
And It's all too late now

Because I'm never going to see you again
Never going to hold you again
This bitterness will last forever
I hate the last day of December

We're never going to talk again
We're never going to dance again
This madness will last forever
Fuck the last day of December

Never going to dance again
We're never going to dance again

Never going to dance again
We're never going to dance again

Never going to dance again
Never going to dance again

Dear Selene
Remember we used to dance
