

Where Do You Go?

Sitting next to you
We're going for a ride
Heading downtown
Cruising on the Red Line

I'm talking like I do
Going on and on and on
But you're not really there
And I see you drifting off

Where do you go?
When you're staring out the window
Where do you go?
You always seem so far away
Where do you go?
When your hand is touching my hand
Really want to know
Where do you go?

Where do you go?
Where do you go?
Really want to know
Where do you go?

Where do you go?
Where do you go?
Just got to know
Where do you go?

Don't mean to be a fuss
I don't want be a bother
You like to keep things close
I know you're really guarded

And I know we're pretty close
I know we're pretty bonded
But I want to know you more
Just want get inside you

Where do you go?
When you're staring out the window
Where do you go?
You always seem so far away
Where do you go?
When your hand touching my hand
Really want know
Where do you go?

Where do you go?
When you're staring out the window
Where do you go?
You always seem so far away
Where do you go?
When your hand is touching my hand
Really want know
Where do you go?

Where do you go?
Where do you go?
Really want to know
Where do you go?

Where do you go?
Where do you go?
Just got to know
Where do you go?

Really need to know
Where do you go?
I just have to know
Where do you go?
