

OXXiTAN®

ORGANIC DRY GIN

Languedoc is world famous for its Mediterranean Art of Life and its magnificent sunny landscapes. Languedoc lovers now have their own gin: OXXiTAN.

OXXiTAN is an exceptional organic dry gin from a French brand, with subtle garrigue flavors from the South.

At the base of the OXXiTAN dry gin is the passion that its creator has for Languedoc, its light and its terroirs. Fine amateur of gin (legendary spirits in full rediscovery throughout the world), François called on an internationally renowned master distiller, Philippe Defleur, who found the perfect alchemy between the **precious botanicals, distilled 6 times**, to offer you a fresh and tasty **London Dry Gin**, a traditional method of production and a guarantee of quality.

OXXiTAN dry gin is made from its own inimitably **sweet wheat alcohol**, juniper berries, and 10 other delicious plants and spices that grow in Languedoc. Among them, the immortelle flower is the bewitching and undisputed star of the original recipe : “Les Remparts”.

To this original edition was added another one, just as organic and unique: “Littoral”. Based on the same plants as the original dry gin, OXXiTAN Littoral adds here lemon and orange peels which give the new secret formula citrus notes that smell good of summer and the seaside.

Limited gin editions may be offered depending on the season to offer you new sensations... So stay tuned for OXXiTAN news and follow them here: <https://oxxitan.com>

WHY OXXiTAN ?

- Unique Organic Dry Gin for lovers of Languedoc.
- First Organic Dry Gin dedicated to the aromatic heritage of Languedoc.
- New for 2023.
- Fine selection of the 11 best botanicals by a shepherdess, hand picker of garrigue plants.
- Emphasis on immortelle flower, prized for its complex and bewitching fragrance.
- Distillation in 6 steps, according to the strict method of a London Dry Gin ; assembly by typicity.
- Gin produced by a master distiller with worldwide successes; recipe recognized by the profession.
- A gin that will please both connoisseurs with its complexity and finesse and novices with its fresh and gourmet aromas (simply divine as an aperitif with a neutral tonic, a slice of lemon and ice cubes).
- Identifying and sophisticated packaging. Elegant bottles (lacquered, screen-printed, over-corked).
- Booming organic gin market. Certified by Ecocert France.
- Two premium editions available:

- **Edition « Les Remparts »**, a tribute to the famous historical heritage of Occitania, its roots; our Original Dry Gin.

- **Edition « Littoral »**, which stands for the Mediterranean spirit and conviviality of the Languedoc seaside ; our Citrus Dry Gin.

The Organic Dry Gin OXXiTAN was born from the **passion for Languedoc** and its Mediterranean way of life. Its creator is also and above all a lover of the scents and flavors of scrubland, shaped by the sun and the wind.

The idea germinated to sublimate the aromatic heritage of Languedoc through an organic « **haute couture » gin**, produced according to the rules of the art by a two-century-old distillery.

OXXiTAN's "Les Remparts" and "Littoral" recipes reveal the best **fresh and gourmet aromas** of Languedoc. A round and smooth alcohol on the palate, an expressive nose with vegetal and floral notes, enhanced with a kick of citrus for Littoral.

To be enjoyed pure, in gin and tonic accompanied by a slice of lemon and ice cubes, or in varied and inspired cocktails.

Immediate departure for an airing, lulled by the sun and the wind of Languedoc.
