

"Honesty - Integrity - Strong Community Leadership"

4 Focus Areas (priorities)

Support the Continued Economic Growth and Business Development in the City of Auburn Hills

It is very important that the city leaders continue to pursue economic growth in the city of Auburn Hills. If the residents are considered the backbone of a city, then economic growth and business development is the life blood. Having large corporations come to town to build buildings, develop real property, and provide jobs for the residents, is a wonderful thing. Another area of focus would be on the smaller shops, restaurants and "Mom and Pop" operations that tend to be family oriented and develop ties to the community.

Maintain a Clean, Safe and Secure Community for our Residents

One of the hallmarks of a "World Class" city is the safety and security of its residents. As a member of the Auburn Hills Public Safety Committee I can tell you from the Auburn Hills Fire Department, to the Auburn Hills Police Department both of departments continue to do an excellent job maintaining these issues as priorities, So I would like to see that continue for the residents.

Work to Maintain a Responsive and Resourceful City for all residents

All residents of the city should feel that the city is concerned and responsive to their needs, whether its our young adults or the seniors that have decided to age in place, all residents should feel as though the city is "Age Friendly" and offers many resources for them.

Attract & Retain Exceptional Talent to Live, Work and Play in Auburn Hills

Avondale High School is a top notch high school, and the 4 major colleges/universities located within our city, provides Auburn Hills a unique opportunity to have Exceptional Talent within our midst. I would like to be sure that we have a plan to Attract, Recruit and Retain this exceptional talent to want to Live, Work and Play here in Auburn Hills.
