

POLY BAGS

MULCH BAGS

THE BASICS

Mulch Bags are infused with a one-year UVI additive and Low-Slip. These are designed to contain various landscaping materials and exhibit additional puncture and UV resistance. All bags are heat sealable and feature a side weld construction. Available in a clear or white film with the option to add registered print in up to eight colors on one side. Packaged in cases.

USE & APPLICATION

Designed to contain a variety of landscaping materials, these bags exhibit additional puncture and UV resistance to withstand the effects of weathering and rough handling.

Materials that typically go in a mulch bag:

- ▶ Wood pellets
- ▶ Nursery blends
- ▶ Straws
- ▶ Soil
- ▶ Vermiculite
- ▶ Bark Mulch

PRODUCT FEATURES

- ▶ Six of the most popular sizes and constructions
- ▶ Clear or white film
- ▶ Strong 3.5 mil LDPE with Low-Slip for increased puncture resistance to withstand weathering and rough handling
- ▶ One year UVI prevents damage that could be incurred from the sun's harmful UV rays
- ▶ Standardized venting patterns are available to prevent moisture buildup and mold
- ▶ 100% recyclable at your local drop off center
