

I started taking PURE collagen due to a family history of osteoporosis without any expectations since I'd heard from the medical professional that orally-taken collagen doesn't work. However, for the first time, I am now able to polish my natural nails rather than applying acrylics. I am shocked. Also, my hair was growing slowly due to what I assumed was age. However, my hair is now growing again! I thought my skin was looking good due to the costly products I use, however, who knows? Could be PURE Collagen! I will know if my osteopenia has been put at bay with the help of PURE Collagen upon my next bone density test.

Collagen depletes with age; I am so glad I listened to my "collagen-depleted" gut and tried taking PURE orally mornings in my smoothie bowl!

I recently had a hip replacement surgery. My surgeon could not believe how fast and beautifully my 8-inch scar incision healed. I know it was the PURE collagen that helped me heal so quickly, both inside and out!

I highly recommend this product and will continue to take it on an ongoing basis for great skin, healthy joints, and strong bones. Thank you PURE!

PURE Collagen is an extraordinary product! I have tried several other popular collagen powders but suffered allergic reactions. Then a friend recommended PURE Collagen to me! PURE collagen has no fillers or additives; I know that's why it's working so well for me. I have had No allergic reactions. I love it !!!

I love how it blends so easily into my morning coffee and there is no strong taste. I'm definitely interested in continuing to use it!

I was skeptical about trying any more collagen products. My husband , a physician, said they do not do anything. But I was distressed about my post menopausal skin aging and aching joints. And thought, I have nothing to loose !! I was not expecting the results I have seen over the last 8 months ! My skin has taken on a new youthful glow, with less lines and pigmentation. I get up out of bed with less creak in my step, and move easily through my day! A bonus, my hair and nails are growing faster, more beautifully, and healthier. My husband noticed these changes in me and is now putting PURE in his morning espresso! PURE is a uniquely effective product.

I had extreme pain after a knee surgery and was desperate for some relief. I heard about PURE and decided to try it. Although I had been on many collagens and they had not helped, I was convinced to try it. I am so glad I did! Within a few weeks, my knee felt more comfortable and now, at 13 weeks, I am so impressed and so happy. My right knee (the bad one) is now almost as good as the left one (the good one.) I will continue using PURE forever! Never want another knee surgery and love being pain-free!

I rescued a feral cat that had been attacked by coyote about 6 years ago. The cat needed emergency leg and hip surgery. The cat is old now, my Vet thinks maybe 15 or 16 years old, and is suffering from osteoarthritis. Over the last few years, he had stopped jumping or grooming, sleeping almost non-stop. I considered putting TommyCat on a monthly osteo injection but learned they can have a negative affect on feline kidney function. A friend told me about PURE. I decided to try PURE first.

Wow !! TommyCat is self-grooming, scooting around the house, and can even jump up on my bed! I do not know what is happening in his body, but PURE has seemingly comforted his arthritic joints and bones. I recently started giving PURE to my two big dogs.. Using it preventatively, to avoid future pain, and vet bills. I wish I had known about PURE collagen when my aging horse was suffering from leg and back pain. I believe it would have provided him with a new quality of life.

A friend of mind suggested I try PURE to help with my morning stiffness. It has changed the way I wake up in the morning! Thank you PURE !

I did a shoulder injury pruning trees on a vineyard I own in Santa Ynez. It was a beautiful cool fall day-and I overdid it.. I went to two surgeons and was concerned about the process, and the outcome. I tried PURE. What a game changer! Shoulder has been healing beautifully. My whole body feels healthier. I feel like I can cut trees again.

Love it ! My skin is more hydrated and softer. I believe my hair is growing much faster. Even new hairs where there were none. This is my kind of collagen. I love that it's pure with no other ingredients.

I have only been on PURE Collagen for a few weeks but I already feel different. My joints aren't creaking so much when my wife and I do our morning walks. Will definitely keep taking it!

My husband and I started taking PURE about 6 months ago. He takes the Joint formula which he tells me has vastly improved his golf game! I take a custom blended bones, joints and skin formula. We could not be happier! My skin has taken on a new glow. Friends ask me, "Have you had work done?" I just smile. I don't believe a woman (or a man) should ever tell their age! With PURE in our lives, I think we'll be keeping our climbing numbers a secret for a very long time !

I have been on PURE for about 6 months. I am only in my twenties so I don't have any joint or bone issues. But I believe 100% in prevention. What I did find interesting is that when I stopped PURE for a week or so (I ran out), I noticed I did not have the same energy as I do when I am taking it. It's almost like PURE improves my mood. Kind of elevates me, makes me happier.

Maybe it has something to do with how collagen rebuilds the lining of the gutt? We now know our health and well-being are directly linked to gutt health.

I have arthritis and noticed about 3 weeks into taking PURE that my hands and fingers were gripping better and I had less pain. I have tried many collagens. This is a different kind of collagen. So glad to have found it.

I have bone on bone in both knees. My left knee is worse. Since I have been taking PURE collagen, I have not had knee pain. My knees feel more comfortable which lets me forget about them. I'm not really sure what's going on, but I'm going to keep taking it!! Thank you PURE!
