

America Manifesto Engagements

Defense of America and Encourage an Enduring America

Propositions to further our aims, tactics, and strategic goals:

1. In Protection of our Unalienable Rights of Life, Liberties and Pursuit of Happiness guaranteed by our foundational Constitution and Declaration of Independence.
 - a. **CONFRONT AND REFUSE** the false logic and legalism promoted by the Judiciary, whereas the Judiciary falsely believes our Liberties are limited and are not protected against private corporations or institutions.
 - b. Acknowledge the judiciary, legislation and federal **GOVERNMENT ARE SUBORDINATE TO WE-THE-PEOPLE**. Individuals require no intermediary to read or define our Declaration of Independence or Constitution... these founding documents are OURS and we reject any notions that a government may limit these individual rights.
 - c. Promote the understand that the **GOVERNMENT EXISTS ONLY TO SERVE THE PEOPLE AND PROTECT** individuals' rights guaranteed by our values, privileges, and liberties.
 - d. Any entity, group, or business that refuses to honor such liberties **MUST BE BOYCOTTED** in the same veracity as the Colonies' Continental Association of 1774. Identify and share these abhorring entities with others to thereby extremely limit or altogether boycott their products and services.
 - e. Any confrontation, debate, act, or boycott must be **PEACEFUL, WITHOUT MALICE** yet persistent, consistent to America's values and moral code.
2. Support initiatives to Defend our Country's principles, values, and enduring freedoms.
 - a. Highlight our strength over weakness. Rally around core values and agreement, **OUR STRENGTH**, rather than areas of sincere disagreements.
 - b. **FOCUS AND STAY ON COURSE**. Refuse to be distracted, nor devolve into logical fallacies, false dilemma, and strawman argument. Shift on positive vision versus defending superficial arguments.
 - c. **ACTIVELY IDENTIFY AND PROMOTE** candidates and ballot petitions that furthers our aims. We must identify in sufficient time to search out the best possible candidates, to ensure the issue or candidate viability and visibility, to communicate to the public and counter the opposition.
3. Support initiatives to strengthen Our Center of Gravity (COG) and weaken the opposition's monopoly against our COG. Today, liberals and enemies of America dominate Communications to the Public, both the television and print media. Consider, but not limited to:
 - a. **EMPLOY OUR OWN 'BRAIN' FILTERS** to ascertain the truth and refuse to follow social media narratives used by the mainstream press. Use many means to **CONFIRM THE FACTS BEFORE** drawing premature conclusions, minimize any further propagating false information.
 - b. **SELECTIVELY RESTRICT** our use or sponsorship of liberal-bias television reporting and propaganda-driven television sitcoms and dramas.
 - c. **PROMOTE AND SHARE CHANNELS**, programming and articles that support American values.
 - d. Support and **PRAY THAT CONSERVATIVES PURCHASES** or builds influence to confront the big three networks and print media conglomerates. Recognize to achieve a limited, accountable Government, we must have means to **COMMUNICATE OUR OPTIMISTIC AND POSITIVE VISON** for America against the Goebbels's type propagand machinery.
4. Engage at the local and state level. Anything of value is never obtained easily, rapidly, or with minimalist effort. We must **BUILD AT THE GRASSROOTS**... at local, at county and at districts across this land. Continuing to apply accountability in local and state legislations. Ensure state government awareness that they serve the citizenry of the state and not the mechanisms of large Government and Washington DC.
5. **KNOW WHAT THE LOCAL SCHOOLS AND COLLEGES ARE TEACHING** our children and grandchildren. Ensure the next generation knows our Declaration of Independence, U.S. Constitution, and our values. And as possible, as necessary, and when opportunities arise, confront false information, revisionist history, and unresponsive school boards.

6. Advocate and **SUPPORT PETITIONS TO ENABLE SCHOOL CHOICE** and hold failing schools accountable and insist improvements.
7. **STOP ELECTING INCUMBENTS UNDER OLD PREMISE** that they 'know the system and can get things done'. Make any incumbent earn every term, as well as hold them accountable. Write and engage your representatives frequently so they cannot ignore their constituents.
8. **SEARCH AND SHARE**. Collaborate and awareness of initiatives featuring similar values, limited Government, and efforts to reign in an unaccountable Government. Be knowledgeable of efforts such as Mark Levin's Liberty Amendments, Convention of States explicitly stated three proposed amendments, Repeal of the 17th Amendment, Scrap and replace current tax codes, and strengthen the 10th Amendment. Understand these propositions to restrain Federal overreach and counter arguments against limiting Government and accountability.
