Re: Your Non-Roster Player List

Here is your copy of the non-roster players.

At the beginning of the season we have always had trouble getting every team in before darkness sets in. In order for the starter to maintain control, each team captain is required to do the following:

1. Regardless of your tee time, be there on time and inform the starter as soon as all your players are present and ready to tee off. He may be able to start your match early.
2. If you can't score on any hole, pick up your ball and move to the next hole. The rules cover this, and must be enforced.
3. We will marshal the course as best we can to help with rules questions and ensure speed of play.

Let's have the best season ever, observe the rules, and show courtesy to all on the course by keeping up your speed of play!
