

Design for your Future

Rubys Design Synergy

Elegant, personalized outdoor spaces realized through immersive 2D and 3D design. Through high-resolution, lifelike visualizations, every detail is revealed before construction begins.

Spatial flow, material selection, and structural elements are carefully considered to create harmony throughout the entire property.

Every design is guided by intention — where beauty and function work seamlessly together. See your future landscape with clarity.

Our Mission

To create exceptional outdoor spaces through innovative 2D and 3D design—where beauty, function, and vision come together.

Design Consulting

Our design consultation service refines and elevates your outdoor space through expert guidance and creative direction. We collaborate closely with you — and alongside your landscapers or contractors — to develop personalized plans that enhance both beauty and functionality. From curated plant selections to spatial layout refinement, every detail is thoughtfully crafted to ensure a cohesive and professionally executed landscape vision.

Full Plan Design allows for Phase Out Work or Full Construction

Our Packages

Basic Package

Our Basic 3D Landscape Design package focuses on a defined project area within your property — such as the front, side, or rear yard. This package highlights key outdoor spaces and focal features, delivering a clear, functional design plan supported by professional 3D visualization.

Full Package

Comprehensive 3D landscape design featuring immersive renderings and cinematic walkthroughs, allowing you to see and feel your outdoor space before installation begins.

Trade Package

Professional-grade 3D designs for landscapers, masons, general contractors, and construction teams — delivering clear layouts and impactful visualizations to enhance planning and presentations.

Where is your happy place

Our Services

We specialize in advanced 3D landscape design using industry-leading software to deliver immersive, lifelike visualizations of your future outdoor space. Each design is thoughtfully crafted to reflect your style while ensuring structure, flow, and functionality. Our design-only approach provides the detailed renderings needed to seamlessly collaborate with your contractor or construction team.
