

# PharmaLabs

## Full Time Pharmacist

### Job Description:

PharmaLabs is a fast growing sterile and non-sterile compounding pharmacy that specializes in men's health/urology and expanding into integrative therapies. We are seeking a pharmacist to primarily focus on verification of orders for dispensing in addition to responsibilities outlined below and perform other duties as assigned. Compounding experience is not required.

As business needs demand and your personal aptitude allow, we will work to enhance your skills by exposing you to additional compounding activities.

### Job Responsibilities:

- Final pharmacist verification of prescription prior to dispensing in a rapid and accurate manner.
- Ability to tune out distractions and focus on verifications to get orders correct and shipped.
- Taking verbal orders from prescribers.
- Counseling patients on orders.
- The ability to direct technicians to correct a detected error caught during verification is required.
- Verify compounding formulas and update lot and beyond use dates.
- Follow all state and federal applicable laws.
- Assist with technician duties in various departments including: data entry; dispensing; compounding labs.
- Obtain and maintain additional state licenses required by the pharmacy.
- Demonstrates leadership by example in projecting a positive attitude.
- Other pharmacist responsibilities as needed.

### Skills:

- Motivated work ethic
- Attention to detail
- Time Management
- Team Player
- Leadership and management skills
- Excellent communication and interpersonal skills
- Excellent organization
- Decision making
- Knowledge and understanding of regulations
- Experience using Microsoft Word, Excel and Google Docs, Sheets

### Requirements:

- Must have a valid Florida pharmacist license in good standing
- Must be open to flexible hours on occasion as the pharmacy needs
