A Fictional Thriller Inspired by Real History

A Run to Hell is a work of fiction inspired by historical events, public figures, and long-discussed mysteries. Drawing upon the author's professional legal experience, family connections, and years of historical research, the novel imagines one possible interpretation of events while weaving an original story filled with suspense, danger, and emotional depth.

Growing up connected to Philadelphia's East Falls neighborhood, Schofield's family shared lifelong ties with Princess Grace Kelly and her family. Combined with his years as a criminal defense attorney and firsthand exposure to organized crime cases, these experiences helped shape the novel's richly authentic atmosphere and unforgettable characters.

Rather than presenting historical speculation as established fact, *A Run to Hell* blends documented history with imaginative storytelling to create an unforgettable reading experience.

An International Thriller Filled with Suspense

At the heart of the novel are FBI Special Agent Jaime and criminal defense attorney Lee, two deeply flawed but determined protagonists whose troubled pasts drive them toward a dangerous investigation spanning multiple countries.

Jaime remains haunted by the death of her uncle, Dr. Hugo Spadafora, while Lee struggles with personal memories connected to Princess Grace Kelly's family. As their investigation unfolds, they confront organized crime figures, international conspiracies, ruthless political power, and the dangerous world surrounding Panamanian dictator Manuel Noriega.

As alliances shift and danger closes in, readers are drawn into a fast-paced thriller where every decision carries life-or-death consequences and nothing is ever quite as it seems.

Perfect for Fans of Historical Thrillers and Crime Fiction

Readers who enjoy historical thrillers, crime fiction, espionage novels, organized crime stories, legal thrillers, political suspense, and international adventures will find *A Run to Hell* an unforgettable experience.
