OUR STORY

Monty's Natural Treats is a family run business with our main focus on providing high quality and eco-friendly natural treats at low affordable prices. Our passion for excellence has driven us from the beginning and continues to drive us into the future.

Our son Luke who manages the business is a qualified chef and has worked in the food industry for 15 years, too often when buying treats for Monty our Pomerpoop & Roxy the Bichon, he would come across poor quality imported products that are not produced to DEFRA standards and quite regularly mislabeled which made Roxy ill.

As a family we decided enough is enough and spent 6 long months of research, trials and then Monty's Natural Treats & Wholesale was born, we managed to find & create treats that are naturally air-dried, free from all the nasties and are made from human grade meats, organic fruit & vegetables with great health benefits.

When buying our treats you can have confidence that you are giving your dogs the best quality treats on sale in the UK.

Now over 7000 loyal customers!

We are not just another wholesale treat company, we pride ourselves in going above and beyond to help you grow your business & brand.

We offer a whole range of services to help you increase your profit margins, reduce wastage, provide you with extensive advice and knowledge and ensure your customers buy directly from you.
