### **Introduction**

As Salaam Alay'kum ! May the Love, Peace and Mercy of ALLAH (SWT) be upon you, your families and your friends forever...AMEEN!

My name is Brother Rashad Ishmael Shabazz. I am the founder, creator and owner of SHABAZZ L.A.B.S. LLC.

SHABAZZ L.A.B.S. LLC is designed to be the parent company of divers businesses that are focused and dedicated to meeting and exceeding the needs, wants and desires of all Muslims and Muslim communities throughout North America, the Caribbean and Pacific Isles.

My goal here is to first and foremost be pleasing to ALLAH (SWT) by being the best human being I possibly can be in the way of worship, moral excellence, culture, refinement, honesty, reliability, education, protection of the valuable property of the believers and growing daily into an embodiment of the attributes of ALLAH (SWT) by practically and rationally applying the spirit of the express and implied language of the Holy Quran and example of the Prophet Muhammad to my total life.

"Narrated Abu Hurairah (RA): The prophet (saw) said: ALLAH (SWT) has 99 names, 100 less 1, and he who memorizes them all by heart will enter paradise." (SAHIH AL-BUKHARI vol. 9 #489)

Memorizing the most Beautiful names of ALLAH (SWT) is to believe in those qualities of ALLAH (SWT) that are derived from those names and accompanying that belief with the good deeds that those names inspire us to do.

The prophet Muhammad (saw) once said : " whoever knows and lives by the 99 names of ALLAH (SWT) will go to Heaven."

As Muslims who struggle the world over with the trials of life we sometimes lose our way, our focus on the straight path and ultimately our strong faith in the advertised promise for following the straight way of Islam.

We love our LORD and our Prophet but "haste", being an express component of our creation (70:19), makes us impatient and naturally burdens us beyond our ability to bear.

---

So today we find Muslims who Pray, Fast, Give Charity and complete Hajj who are also drunk, high, incarcerated, unlearned in the sciences and processes of the Holy Quran and Sunnah...poor, homeless, starved, naked, ignorant, superstitious, and dogmatic...among other things.

Our efforts to comingle ourselves in the economies, cultures and educational systems of our unislamic peers have put us in a perilously servile, unwanted, unappreciated and disrespected position.

Our Muslim children are suffering self-esteem issues...we are losing them to cultures that are satanically controlled. They are being torn to pieces and destroyed by an internal war between Nafs Ammara and Nafs Lawwama as they travel, work, study and play in a world that appeals only to their lower desires.

They find no pleasure or peace in Salat, study of the roots of the creations of ALLAH (SWT) or the manipulation of those creations to produce something new, good and progressively life changing for the people of the world.

Our wives and daughters are being seduced away from the humility of Islam into a belief that true beauty is in immodest clothing, hair styles and socializing.

Our men and sons suffer the same while also being hypocritically sexist towards the Muslima forcing them sometimes to live an unseen, unheard and abusive existence after ALLAH (SWT) has freed them to be intelligent, educated business owners, teachers, wives, mothers etc...

Here in America we suffer it all. Our attempts to protect our diverse cultural and linguistic identities has made us divide ourselves away from each other.

After Salat-ul-Jummuah we go our separate racial, nationalistic and linguistic ways until the next Salat day after day, week after week, month after month and year after year...

This dark and dreary picture that I just painted is not born of my own imagination dear family- you and I know that this is the sad reality for the large majority of "American" Muslims regardless to whether you call yourself Sunni, Shiite, Suffi, just Muslim

---

etc...regardless to whether you are Palestinian, Egyptian, Nation of Islam, Saudi Arabian etc...We and our loved ones suffer the same externally imposed or self-imposed realities.

I, as a man deeply in love with ALLAH (SWT) and the Prophet Muhammad (saw), a student/follower of the Most Honorable Elijah Muhammad, student/helper of the Honorable Louis Farrakhan and brother to all Muslims wherever they are...whoever they are, have decided to develop people, businesses and properties across America, Caribbean and the Pacific where the Muslim diaspora have have a place of refuge, places of principled wholesome fun and good living. Businesses that bring what is required to facilitate our worship of our LORD wherever we are and knowledge that brings unity of the Islamic peoples rather than division.

What follows are descriptions of what SHABAZZ L.A.B.S. is currently developing for you to invest in for yourselves...Help yourselves by cooperating through the SHABAZZ L.A.B.S LLC medium to build and supply what you need in ways that are HALAL.

I pray to ALLAH (SWT) that you will truly accept this opportunity to be self-sufficient and independent of those things and people that have harmed us in the past. Feel free to comment and contact us with your intention.

May ALLAH (SWT) reward you and we who are moving forward in HIS path...AMEEN
