About Us

Allscape Creations is a family-run business with over 25 years of combined experience in the playground and construction industries.

We're licensed builders who take pride in delivering high-quality work every time. A director of the business is always on site to ensure each project meets our standards of safety, quality, and care. From equipment to surfacing, we're here to help bring your playscape vision to life.

Recent Projects

St Paul's Lutheran Primary School & Kindergarten

We transformed an outdoor green zone into an interactive playscape with natural elements, laying the foundation for discovery and adventure.

Little World Early Learning Worongary

Complete outdoor renovation including water play elements, several slides, rubber soft fall install, landscaping and more.

Playscapes Elements

Yarning Circles

Yarning circles have been a fun and meaningful part of Aboriginal and Torres Strait Islander culture for many years, where people sit together, chat, and share stories. It's a great way for kids to learn about listening, understanding others, and working together — all while having a good time!

Playscapes Elements

Mud Play

Mud pits and mud kitchens are great for hands on messy play for children. Mud play is about fun, it engages all the senses, and should be a normal part of outdoor play.

Teepees

Teepees are a fantastic addition to any natural playscape, encouraging outdoor, open-ended play. They create a central hub for creativity and imagination, making playtime even more enriching.

Surfacing

We offer a variety of playground surfacing from soft fall rubber to synthetic turf; low maintenance and fresh looking all year round.

Water Play

Misting stations and water play are a great playscape element to add to outdoor areas at early learning centres and schools. Kids love water play, it adds an interactive and fun water element to play areas and is a great way to cool off in the warmer months.
