Bidding Notice for MBE/WBE/VBE/DOBE

Company: **City of Indianapolis**

Bid **FB-19PHS-7**

Bid description: **Site Preparation for the City of Indianapolis Community Justice Campus 2900 & 2950 Prospect Street**

Description of Subcontractor Opportunities for MBE/WBE/VBE/DOBE

The Work consists of, but is not necessarily limited to the following:

Residual coal fines and unsuitable soils to be removed from the Citizens Prospect Avenue Site as part of the Site Prep project for construction of the new Community Justice Campus (CJC). The Work includes removal of approximately 55,000 cubic yards (c.y.) of residual coal fines to depths ranging between 6 inches and 8 feet, followed by removal of approximately 30,000 c.y. of unsuitable soils underlying the coal fines, with total depths not exceeding 8 feet. Confirmation of unsuitable soils will be made in the field after coal fines have been removed, as a result the volume of unsuitable soils may decrease during project implementation as the volume is a conservative estimate. Upon completion of the coal and unsuitable soils removal, the Site will be regraded to backfill any large holes and provide adequate Site drainage until the subsequent portion of the Project commences.

Bid Due date: Thursday, April 5, 2018
