UPTOWN STERILE PROCESSING

LEAD INSTRUCTOR- JAMAR MOFIELD B.A., A.S., CRCST.

TEXTBOOK- CERTRAL SERVICE TECHNICAL MANUAL, 8TH EDITION BY HSPA

Uptown Sterile Processing is a certification training course that prepares students to take the nationally recognized HSPA CRCST certification exam and prepares those students by hands on instrument training and decontamination training. Through this training course students are eligible to do their externship placement at some of the areas leading healthcare facilities.

Students must complete 400 hours of the externship placement to complete their certification. Students who already pass the certification examination must complete their 400-hour externship within six months of attainment, or their passing test score will be voided.

All students are required to have a **70%** average to successfully complete the course.
