

Capability Statement

Akira Corporation is a construction cost estimation company; who provides expert planning and management skills all over the United States. Our main goal is to safely and reliably identify project costs and potential pitfalls to help customers have a clear understanding of their project budget. By strengthening our communities and promoting economic growth we pride our self on ensuring the safety and health of our citizens and environment. Having an expert consult on your side opens new possibilities that will help your company flourish. Akira Corp uses a 5-step process to provide a full break down and understanding of all factors that affect our client's budgets. In addition, we provide; management seminars, electronic cost databases/software, reference books, and enterprise solutions so you can make an informed cost-effective business plan for your projects.
