

CELL PHONE SETUP

1. Please download and install smart Meye or smart Meye PRO from google play or iTunes on you cell phone or tablet.
2. The first time you open smart Meye you will be prompted to setup your NVR
3. Enter you IP address or you .holmesccv.net address
4. Enter your password and leave all other setting default.
5. Smart Meye will test the connection after you tap the enter button it the top right corner of the screen.
6. Refer to the smart Meye instruction for further information.

Smart Meye will allow you to view live video streams and playback video from your NVR. (your internet speed will determine quality and reliability)
