

Reminiscing Activity

What states have you lived in?

I put a little heart where I live. Do you see it? I have traveled and lived on the East Coast all my life. My husband, Travis, was born and raised in California. He traveled around the globe with the military for 20 years.

Have you visited other states?

Do you have any pictures from out of town? Maybe you are in the picture, or perhaps you took the picture. Do you have a favorite? For me, it is finding just one! It helps to have names, location, and date on the back.

What state do you live in now?

The answer to this question does not have to be your physical location on a map. What is more important in life is your state of mind. What brings you joy regularly where you live now? For example, I love creating these activities. The drawings are sketchy, and the grammar isn't perfect, but it's about fellowship and having fun. I hope you enjoy this type of participation as much as I do!
