

Kitchen & Bathroom

by *Silestone*

A product designed by Cosentino®

*Silestone Loft Series,
a purely urban collection.*

Welcome to a new era

2020 will be remembered as a time of profound social change. Changes that we have experienced in recent years have cultivated a hyper-connected world; a more condensed yet increasingly individualistic society. At the heart of everything, is a search for the bare necessities. Senses are no longer just digital but are becoming the best tool in this new era. We are enjoying contact again, in our relationships with others and with objects. We are rediscovering authentic experiences

that touch every aspect of our lives. Cities in this new reality continue to offer the latest trends, whilst striving to meet everyday demands of life. Streets are alive and make us experience colors, textures, smells. Silestone® Loft has managed to extract the essence from 5 iconic places worldwide. Unique places which offer a special kind of industrial beauty in their streets, buildings and urban areas, an essence then brought to homes through a new purely urban collection. Homes

become extensions of the neighborhood, places where we are in constant contact with source materials. In this relationship, both receive and convey emotions and feelings. This guide was created with the aim of showing all the possibilities of Silestone Loft, and of encouraging you to travel with us to these unique corners of the world.

5 ICONIC DISTRICTS
5 UNIQUE COLORS

① *Exposed brick wall*

The contrast between the exposed wall and Loft Seaport really highlight the texture of the brick.

② *Two stories*

Two stories provide attractive and visually-rich spacious areas.

③ *Exposed features*

Respecting the integrity of the material is on trend. To achieve this, a great option is to use exposed features in living spaces.

④ *Marine features*

The sea plays its part in the design thanks to decor accessories such as illustrations, photos, oars and anchors.

Get an Industrial Navy look

Seaport recreates a dark cement color with a worn charm. It invites you to explore different atmospheres with its hazy white shade which makes it a unique proposition. Seaport is ready to satisfy the most demanding preferences.

5 *Integrated kitchens*

Seaport creates an intimate feeling perfect for cooking and enjoying day-to-day life with your loved ones.

6 *Cosy fabrics*

Designer upholstery, unique prints and smoked glass are all great options for your design.

7 *Wooden accessories and plants*

Seaport combines with all kinds of wood and materials reminiscent of worn leather.

8 *Vivid and bright colors*

Seaport works perfectly with ochre and blue tones reminiscent of the sea and times of old.

SILESTONE[®]

HYBRIQ⁺

TECHNOLOGY[®]

Introducing the new Silestone
Loft Series with HybriQ Technology[®]

More Beauty. More Sustainable. Less Impact.

Silestone® HybriQ Technology®

**100%
Renewable
energy**

We are committed to the use of circular energy and sustainable products. That is why we defend the use of renewable energies.

**98%
Recycled
water**

We use 98% of recycled water in our production process, thus reducing the ecological impact.

**Made with
Recycled Glass
& Minerals**

A generation of innovative surfaces with a hybrid formula made with minerals and recycled glass.

SILESTONE®

Applications

Thanks to its remarkable characteristics, Silestone is the ideal surface choice for unlimited applications.

Kitchen Countertops

Silestone is the only quartz surface with a 25 year transferable warranty. It also offers a wide range of colors and textures to transform your kitchen into a unique space.

Silestone can be used in a variety of applications, including countertops, flooring, cladding and backsplashes or even furniture.

Silestone® Lyra

“The Kitchen is the heart of the Home”

Silestone® Bianco Calacatta

Kitchens for every style: which one is yours?

*Trends and styles change all the time.
It's time to choose which one goes best with your kitchen.*

Modern Style

If you like functional rooms, formal simplicity, straight lines and units without handles, you should go for a modern kitchen. In these minimalistic looking kitchens, panelled appliances are common, creating a clean and uniform area.

Avant-garde Style

This trend is reminiscent of almost futuristic aesthetics. For ergonomic reasons, kitchens often feature curved and sinuous designs with no handles in sight. But the key factor that makes the difference in an avant-garde kitchen is its high technological performance.

Rustic Style

Its timeless lines are always a success in kitchen interiors. This style is characterized by units with a textured surface and ornamental handles, and worktops with a natural marble effect.

New Rustic Style

This style provides a very cosy atmosphere by using wooden units with softer lines than the classic rustic style. Natural textures and colors, such as shades of sand, terracotta and green, are best suited to this style.

Nordic Style

Wood is the most popular material in Nordic kitchens and it is almost always combined with light colors to enhance the brightness of the room. This is possible thanks to the use of units with refined straight lines, which provide warm atmospheres, especially when combined with other items with soft curves and natural lines.

Industrial Style

Its austere appearance calls for the use of materials that have a factory finish, such as units with metal fronts, exposed brick walls and microcement worktops. Exposed installations are a must in order to give authenticity and character to the room.

SILESTONE®

Benefits

Silestone® is made out of Natural Quartz created to provide color and texture for bath and kitchen surfaces. Thanks to its physical and chemical properties, a result of years of investigation, it guarantees maximum safety and hygiene.

Resistance to Stains

Silestone® is a non-porous surface which is highly resistant to stains from coffee, wine, lemon juice, oil, vinegar, make-up and many other daily-use products.

Resistant to Scratching

Quartz is one of the hardest minerals that exists. This makes our products very durable, with a high level of resistance to external damage.

Resistant to Impacts

Silestone® high level of resistance to impacts allows very hard objects (pots, trays, etc.) to be handled with total ease.

Feel the *Mediterranean warmth*

Poblenou offers a warm, smooth, shade of grey, with very subtle veins on its surface. It is the ideal tone to use in a day-to-day family atmosphere.

① *Ceiling moldings*

Elements of other decor styles are combined here, creating rich contrasts.

② *Natural Elements*

Poblenou integrates natural beauty into any interior design.

③ *Wooden flooring and walls*

Soft wood plays a key role in the design thanks to its harmonious and understated tones, perfect for reflecting natural light.

4

Paintings and art

Art is a safe bet to create attractive combinations.

5

Classic design pieces

Classic design pieces stand out and shine thanks to the warmth of Loft Poblenu.

6

Crafts and soft tones

Objects made from fibers and handmade fabric are perfect for this warm tone.

7

Living nature

Poblenu represents Mediterranean nature: feel free to combine it with plants, both decorative and aromatic.

Integrity, the Silestone® Kitchen Sink

*Seamless Integration
More than 90% Quartz
and 100% Innovation*

Designed especially for those who want the best in their kitchen, integrating all the benefits of Silestone® into a revolutionary new product: the Integrity kitchen sink.

Thanks to the "one piece" effect, it looks uniform and smooth. Countertop and sink are united from the very first steps of the design process and are perfectly combined so that there is no break between spaces.

Helping to Rebuild Lives with “Homes for our Troops”

Silestone is proud to announce a three-year National Partnership with “Home For our Troops”.

The partnership will include Silestone surfacing for an estimated 90 homes, contributing both to the home’s design, as well as the Veterans’ ease of living. Cosentino joins the ranks of fellow best-in-class

brands like Kohler, Whirlpool and Armstrong Flooring that also support Homes For Our Troops. Known for its strength and resilience, Silestone will help make everyday life for Veterans and their families a little easier.

New

Silestone® Eternal Collection

*featuring
Eternal Noir*

The Silestone® Eternal Collection is a series of new colors inspired by some of the most desired exotic stones with a reputation for being beautiful and timeless.

Today, marble-looks are making a statement not only in the world of architecture and design with surfacing, but also in industries such as fashion and home accessories.
