LP® SmartSide® Trim & Siding is Carbon Negative

99% of wood fiber is used in the finished product or in the heating process | **LP products are made with 100% sustainably sourced fiber**

Stores more carbon than the total greenhouse gas emissions released throughout its life cycle

54% Less GREENHOUSE GAS

emissions during production from LP SmartSide products than fiber cement-based products

10x
MORE CARBON STORED

in LP SmartSide products than fiber cement-based products

Industry Recognized

Green Builder Media's 2022 Most Sustainable Siding Supplier
