INTRODUCTION: Today's Democratic Party

Today's Democratic Party differs from the 1960s Civil Rights Party, which our parents, grandparents, and great-grandparents voted for. There were once more moderate or even more conservative Democrats back then. However, the radical left wing controls today's Democratic Party. Joe Biden, once a more moderate Democrat, has been controlled by the left wing of today's party.

Today's party has been infiltrated by socialists, communists, LGBTQ activists, atheists, Muslims, Palestinians, Black Lives Matter, abortionists, radical feminists, and other anti-Christ radical activist groups and organizations. This is why the party has moved to a more anti-Christ, anti-God, anti-family party. The name God has even been blotted out from their party platform. During the 2024 Democratic Convention, God's name was not even mentioned, and there were no prayers in Jesus' name.

How can black Christians, who claim they love the Lord, know where Democrats stand on the issues, yet still enter the voting booth and choose Democrat? President Lyndon Johnson, the 36th President of the United States, succeeded President John F. Kennedy. He gave us the 1964 Civil Rights Act and the War on Poverty. These policies decimated the African American community. Why?

Several of Johnson's allies and associates shared his real purpose for initiating these two legislation items. Johnson supposedly talked about how "uppity" black people were becoming in trying to force their rights. Johnson understood the value of this one big black block vote and knew the Democrats needed to keep it.

Lyndon B. Johnson

Before Johnson, Kennedy also understood the political benefits of the black vote in winning an election. Dr. Martin Luther King, Jr. was arrested in 1960, the year of Kennedy's election against President Nixon. In a strategic move, Kennedy made one call to the Alabama jail where King was incarcerated and had him released from prison. Dr. King, Sr. spread the word to the black community nationwide about what Kennedy had done for his son. The word went out, "*Kennedy is our man.*" This one act gave Kennedy the edge in the election. Before this event, black Americans had voted Republican, dating back to the days of slavery and Abraham Lincoln's Emancipation Proclamation. Of course, many blacks also switched over to the Democratic Party under Franklin Roosevelt's economic programs.

In light of Kennedy's securing the black vote for his election, in 1964, President Johnson said to his associates, "*To control black people, you got to give them something. I'll have them niggas voting Democrat for the next 200 years.*" The Democrats use this same strategy today because it works. "*As long as you can make blacks think you are helping them, they will eat out of your hand for a lifetime.*" Today, black people measure their benefactors by what they do for them. Give poor black people a turkey or a cell phone during election season, and they will hit the polls in droves and vote Democrat. They don't care about the issues or even what God says about how we should decide about these issues. It is ingrained in African Americans that Democrats are their hope and their saviors.

Generations of black people have been taught at their dinner tables that they should only vote Democrat because the Democrats care about the poor and black people. The Republicans are rich, racist, and prejudiced and don't care about black people.

Malcolm X

Malcolm X once stated that both white liberals and white conservatives sought to use blacks for power. However, Malcolm said the following about white Democratic liberals:

“That white person you see calling himself a liberal is the most dangerous person in the entire universe. He is the most deceitful and is like a fox. The fox is always more dangerous in a forest than a wolf. You can always see the wolf coming. You know what he’s up to, but the fox will fool you. He comes at you with his mouth shaped in such a way that even though you see his teeth, you think he is smiling. The white liberal differs from the conservative in only one way. The white liberal is more deceitful and more hypocritical than the white conservative. Both want power, but the white liberal has perfected the art of posing as the negro’s friend and benefactor. By winning the friendship and support of the negro, the white liberal is able to use the negro as a pawn or a weapon in this political football game that is constantly raging between the white liberals and the white conservatives. The American negro is nothing but a political football, and the white liberals control this ball through tricks or tokenism, false promises of integration, and civil rights. In this game of deceiving and using the American negro, the white liberals have complete cooperation of the negro Civil Rights leaders, who sell our people out for a few crumbs of token recognition.

If you will study the structure of the Negro community economically, politically, civically, psychologically, and otherwise, it is controlled by the white liberals, who usually pose as the friend of the Negro...they benefit from the voting efforts of negroes.

Many of the negro leaders who are in office are puppets who have been put in front of the negro community by white liberals. These are parrots that have been put in front of the negro community by white liberals.”

From YouTube: *Shocking! Malcolm X Told You So. Democrats Aren’t Your Friends!!!*

Democratic-Elected Officials

When Democratic liberals put up blacks to run for office, it is nothing but symbolism. It looks like Democrats love our people and want to see us progress. In other words, “give them something,” as Johnson said. However, most black Democratic elected officials on the local, state, and federal levels are owned by white liberals behind the scenes who are promised power, benefits, money, or campaign donations. Now, they are beholden, not to their people, but to those who benefit them personally.

Barack Obama and Kamala Harris are only mixed, light-skinned pawns. They never select pure blacks because they need blacks whom whites can be comfortable with. Their job is to secure black voters who will only vote for someone with whom they identify. It is most ignorant to believe that, just because a person is black or perceived to be black, they will look after black people’s interests.

This is why nothing is ever done for our people. They give us tokens or symbols of black success, but they never give our people any substantive policies that will empower our communities. Need proof? Name one policy from Obama that benefitted black people nationwide.

White liberals selected both Barack Obama and Kamala Harris to handle the affairs of “gay” white liberals. Obama saw the Supreme Court’s same-sex marriage decision as his greatest achievement, so much so that he put the rainbow on the White House. He did not feature the black, red, and green flag, symbolizing black people. No, he put up the LGBTQ colors on the White House.

The first thing Kamala Harris did when she was named the Democratic nominee for President was to make a promo video with gays, lesbians, and drag queens. This should indicate the interests she will promote first because they sign the checks behind the scenes.

And worse, even when these black elected officials do wrong or do nothing for us at all, we will give them a pass just because they are black. There is a quiet, hidden code that says, *"We don't mess with our own, even if they are wrong."* It seems like one big black fraternal organization, such as Freemasonry. We protect our brothers even if they are wrong.

Many African Americans have not had or grown up with prosperity or privilege. When that opportunity comes through politics, and our people are elected to office, it is tough for them to turn down financial benefits, bribes, or other privileges and opportunities. Not every black elected official does this, but many compromise and sell their people out. So, they usually speak for and represent the interests of those behind the scenes who pay them. This means they will no longer use their office or influence to help their people. Instead, they commit treason against their own communities.

Black elected officials will then use race to deflect attention away from their failures and avoid taking responsibility for how they are running their systems. Why? They know black people are ready to defend them because they, too, have endured past racial hurts themselves. And blacks usually give these elected officials a pass. *"White folks coming after another brother."* They will re-elect the same people just because they are black, and they perceive the issues in their communities to be the white man's fault. This is why nothing changes in the hood. They use the people for their votes, while the black elected officials get the benefits.

The Crime Problem

The crime problem may never change in our communities because majority-black community districts will usually only vote Democrat, and typically black Democrats. Today's liberal criminal justice reform states that young black criminals should not be arrested or detained. The ideology says we must move beyond a day where we use jail and punishment. Therefore, liberal district attorneys in major urban cities across the nation now allow criminals to return to the streets right after police make arrests.

This means that most black Democrat elected officials go along with this because they do not want to oppose the policies of their party, nor do they want to be seen agreeing with having their people detained and prosecuted. So, they do nothing. Let's face it: most of the crime is committed by black people. This means that because of race, black elected officials often will not do what is right, which makes Democrats soft on crime.

If white Republicans with tough-on-crime policies are elected as district attorneys, and they arrest, detain, and prosecute a black criminal, blacks will holler, *"Racism!"* So, the people end up voting for soft-on-crime Democrats again.

This book has been written specifically for the African American community that is unaware of the issues determining whether our communities will continue to fail or prosper.

African Americans do not see this because they often prioritize race. They do not see the ideologies and policies they vote for that decimate their communities.

Today's Democratic policies do not benefit African American families. I pray this book opens the eyes of our people so we can finally leave the enslaving Democratic plantation.

CHAPTER 1: Liberal Policies and America's Decline

And God is able to make all grace [every favor and earthly blessing] come in abundance to you, so that you may always [under all circumstances, regardless of the need] have complete sufficiency in everything [being completely self-sufficient in Him], and have an abundance for every good work and act of charity
(2 Corinthians 9:8 AMP).

There was a time when America was like a shining city on a hill. She seemed to be invincible and unconquerable. Her prosperity was evident and known throughout the world. America is the greatest nation on the face of the earth. What made America so great? It boasted and promoted principles of freedom that enabled people to improve their lives. Those principles of a free society have shaped my life and countless millions of others.

Unfortunately, the fundamental concepts of God, family, dignity, respect, hard work, equality before the law, and personal freedom are under attack by the nation's own government and its leaders.

There has been a steep decline in self-reliance, defined as reliance on one's own powers and resources rather than those of others. Of course, our resolve for the poor and needy should always be to help provide a bridge from poverty to their provision and prosperity.

This nation was founded on principles of honor and hard work. In the early years of our nation's history, after achieving independence, the state and federal governments moved out of the way and allowed businesses and communities to grow without interference. If people failed, there was no safety net. They were forced to get out, pick themselves up, and start over again. This caused people to gain strength of character they would not have possessed otherwise. This was called self-preservation with a belief and faith in God.

When many people attempt to stay on government assistance, they lose their dignity, destiny, and strength of character. Why? Many of them have to lie, connive, cheat, and fornicate to stay on welfare. These sins then pass down a generational curse of poverty and victimization to the next generation.

Yet, it is true that African slaves were forced into this land with nothing. When freed from slavery, they had nothing. They were free but still in bondage to the white man's plantation because they had nowhere to go.

Yes, we must be balanced and sensitive to the needs of the less privileged to help them. However, people cannot become dependent on the welfare system without eventually wanting to become independent and self-reliant.

The foundations of America's growth and power have a code of conduct based upon honest labor and neighboring charity. There was a time when we looked out for each other but did not tolerate cowardice, laziness, and narcissism.

Judeo-Christian or biblical values and principles once dominated the public sphere: religion, family, business, education, government, media, and entertainment.

However, in the late 1960s, the nation began to change. The Vietnam War divided the country. No longer did many American citizens view America as a noble nation. The war changed America and ushered in drugs, sexual freedom, and an attitude of, *"If it feels good, do it!"* Everyone was encouraged to do their own thing, regardless of the consequences.

The nation has since been divided into two social mindsets. One mindset states that the country was built on the premise that, through freedom, hard work, and equal opportunity for prosperity and success, we could experience the American Dream. Self-reliance was the key component to economic success.

The other mindset states, *“Those who do not compete freely have the right to use the government as their crutch.”* The collapse of the institution of family has caused a massive sense of entitlement and spending on single mothers and their children. This belief has also led to the federal government being morally obligated to provide for the deprived. Their struggle to meet this obligation has led to overwhelming debt. The economy has weakened, and America’s power has eroded, hence its decline.

America will be unable to maintain the tax burden imposed upon it, which means we are in trouble. How can we maintain a strong, thriving military with all the necessary artillery to defend America from outside threats?

This nation must return to the values that made it great, specifically a philosophy of self-reliance instead of a nanny state. We will not remain dominant in the world unless this is accomplished.

So, will the federal government be able to discipline itself? Will it train its dependents to experience the American Dream through hard work? Or will we continue to decline as a nation, creating citizens’ continued dependency on the government? Democrat policies will perpetuate that dependency.

CHAPTER 2:

The Ungodly, Unbiblical Agenda of the Democratic Party

1. Democrats tried to vote **God's name** out of its party platform in 2012 (*Psalm 9:17*).
2. Democrats are **anti-Christian** (*1 John 4:3*).
3. Democrats are against the **Ten Commandments** (*Exodus 20:3-17*).
4. Democrats embrace **atheism** (*Psalm 14:1; Romans 1:18-32*).
5. Democrats block **religious freedom** (*1 Peter 2:16; Acts 17:26-27*).
6. Democrats support **defunding the police** and lawlessness (*Romans 13:1-6; Matthew 7:23*).
7. Democrats support **socialism**, which is government control of every area of our lives (*Exodus 20:15; Deuteronomy 5:19*).
8. Democrats oppose **capitalism or wealth** (*Ecclesiastes 5:19; Deuteronomy 8:18*).
9. Democrats oppose **private property** rights because, as socialists, they believe all property should be shared (*Deuteronomy 5:19; Exodus 20:15*).
10. Democrats support long-term or **permanent welfare** because it promotes dependency and not self-sufficiency through the Lord (*2 Corinthians 9:8; 2 Thessalonians 3:10-13; Leviticus 19:9-10; Leviticus 23:22*).
11. Democrats support Black Lives Matter (BLM). Democrat mayors **permit violence** and their cities to be burned down (*Luke 3:14; Acts 17:5; Acts 19:23-41*).
12. Democrats believe in **higher taxes** for the rich. However, these costs will ultimately be passed down to the poor (*1 Kings 12:1-14; Luke 2:12-13*).
13. Democrats and Kamala promise **price fixing or price controls**. When the government controls business prices, they cannot profit or pay their staff and will probably have to shut down (*Proverbs 29:2; Isaiah 10:1; Isaiah 5:20; Micah 7:3*).
14. Democrats support all **LGBTQ rights** (*Leviticus 18:22; 2 Peter 2:6; Jude 7*).
15. Democrats support the **Equality Act**, which labels any opposition to the gay lifestyle as discrimination (*Genesis 19; Leviticus 18:22; Isaiah 3:8-11; 2 Peter 2:6; Jude 7*).
16. Democrats push for all **transgender rights**, such as puberty blockers, government-funded transgender surgeries, permitting trans into girls' locker rooms, restrooms, and sports participation (*Deuteronomy 22:5; Leviticus 18:22; Romans 1:22-30*).
17. Democrats **spread LGBTQ** rights in Africa. Obama attempted to force African nations to accept LGBTQ policies or risk cutting off aid to countries like Nigeria (*Genesis 19; 2 Peter 2:6; Jude 7*).
18. Democrats promote **drag queens** teaching our children in schools (*Deuteronomy 22:5; Romans 1:22-30*).
19. Democrats promote gays in **the military** (*Romans 1:22-30; Genesis 19; 1 Kings 15:12; 2 Kings 23:7*).
20. Democrats now promote **pedophilia** (*Genesis 19:1-7; Romans 1:23-30; Jude 4*).
21. Democrats seek to indoctrinate and **sexualize our children** in school (*2 Timothy 3:14-17; Ephesians 6:4*).

22. Democrats seek to limit **parental rights** and authority over their own children (*Proverbs 22:6; Deuteronomy 6:1-9; Isaiah 54:13*).
23. Democrats support **same-sex marriage** (*Genesis 1:27; Matthew 19:4*).
24. Democrats want to redefine the **nuclear family** as God ordained it (*1 Corinthians 11:3; Ephesians 6:1-4*). Today's Democratic Party, because it endorses LGBTQ policies, promotes all forms of gay lifestyle alternatives such as two women, two men, three women, four men, and one woman, all in the presence of children.
25. Democrats support **abortion** up to the ninth month (*Ruth 4:13; Psalm 139:13-16; Jeremiah 1:5; Leviticus 20:2-5; Leviticus 18:21*).
26. Democrats support **Islam** over Christianity (*John 14:6; 2 Timothy 4:3-4; 1 John 4:1-3*).
27. Democrats advocate an ungodly **radical feminism** that promotes lesbianism and abortion on demand. They want no distinction in pronoun language (ex, chairperson instead of chairman). They seek to overthrow male headship (*Leviticus 20:2-5; Romans 1:24-28; Colossians 3:18*).
28. Democrats want unrestricted entrance of **migrants** into the United States with no border control. More migrant crimes are being committed in America now because of this free access. We are called to love and care for those who enter our nation, but the laws of our land should also be respected (*Acts 17:26-27; Leviticus 19:33-34; Deuteronomy 19:14; Romans 13:1-2*).
29. Democrats are even supported by **witches**. If witches are comfortable supporting Democrats, it means there is an evil or demonic operation within that party (*Exodus 22:18; Galatians 5:19-21; 2 Chronicles 33:6; Micah 5:10-12*).
30. Democrats push for **gun control** for law-abiding citizens. The first thing a tyrannical government must do to take control of a nation is remove its ability to protect itself (*Exodus 22:2-3; Exodus 2:11-12; Luke 22:35-38*).
31. Democrats push **racial hatred and division** in our schools. They use Critical Race Theory (CRT), which states that all blacks are oppressed, and all whites are oppressors. However, God says He is no respecter of persons because of their race, and neither should we be (*Acts 10:34-35; James 2:1-2, 9; Galatians 3:28*).
32. Democrats favor and use **cancel culture**. In cancel culture, if a person speaks or acts in a manner deemed unacceptable to Democrats, they ostracize, boycott, shun, fire, or assault them. Their business, reputation, finances, and social media are attacked because they were not politically correct. It suppresses free speech by silencing people who may oppose a Democratic position (*Acts 18:9-10; Ecclesiastes 3:7; Ephesians 5:11*).
33. Democratic **liberal district attorneys** (DAs or prosecutors) around the country will not prosecute crimes and instead put criminals back out on the streets. They believe in a distorted view of criminal justice that says, "*Young black boys have been oppressed. Therefore, they should not be arrested or prosecuted for their crimes.*" Now, criminals have become emboldened because they do not expect to be arrested. This policy has increased the crime rate in all major urban cities (*Romans 13:1-7*).
34. Democrats use regulations to **stop businesses** from prospering. Socialism, also called Marxism, hates business and prefers more government control. Businesses cannot progress or succeed with too many regulations (*Proverbs 10:4; Joshua 1:8; Psalm 1:1-3; Deuteronomy 8:18*).
35. Democrats want government control of our **healthcare**. They promote a single-payer system.

Private insurance will be abolished, which means we lose the freedom of choice to control our healthcare along with our doctors. The government will determine who receives the surgery. Many have died in nations with government-managed healthcare because they could not undergo life-saving surgeries right away. God's Word states that people are to live free (*John 8:31-36; 2 Corinthians 3:17; Galatians 5:1*).

36. Democrats **weaponize the justice system** to punish their enemies. This happens in all socialist or communist nations. They use the government's power to take down their political opponents. They will first try to destroy a person's character. They will use the legal system to file bogus charges if they cannot succeed in ruining their reputation. If all else fails, then they will try to kill them. The left has tried all three tactics with Trump and failed (*Isaiah 54:17; Psalm 17:7-12; Psalm 138:7*).
37. Democrats want to **destroy our Constitution**, the document that gives us our Bill of Rights and keeps us free. The day we lose our Constitution, the government can do anything it wants to the people. It will no longer be a government for the people. It will no longer be We the People. Instead, it will be We the Government (*Galatians 5:1; 2 Corinthians 3:17; John 8:31-36*).
38. Democrats **persecuted** and punished churches and pastors during the pandemic. Churches in states like California, who followed the COVID protocols set up by the CDC, were fined. One pastor was arrested for worshipping anyway (*Matthew 16:18*).
39. Democrats support **euthanasia**, or assisted suicide, where a doctor is allowed to take someone's life by the patient's choice or for other reasons. How can Democrats play God and try to determine when a person should die? (*Psalm 118:17*).
40. Democrat **lockdowns during COVID** hurt the nation. Schools, businesses, and churches were all forced to be on lockdown. Students suffer in school because they cannot associate with other children. Many companies shut down for good and never reopened. People died, and their families could not be with them. Many churches were unable to survive. People were mandated to be vaccinated, and some people died as a result of taking the vaccines. Many people lost jobs because of Democratic governors who enforced these mandates.

CHAPTER 3:

Which Party Supports Civil Rights? Democrat or Republican Party?

Do you know your history? Which political party champions Civil Rights? It's not who most African Americans think it is. The following videos provide shocking proof of each party's stance on this issue. Black America is waking up!

Although I am a conservative and proud of it, I am not here to tell you who to vote for. My purpose in these videos is to open your eyes to the truth hidden from us as a people for decades. We have put our trust in one party to be our savior and made an idol out of it. The media has brainwashed us into believing that the other party is the one that hates us, and that is just not true. So, I intend to help you make an informed decision. After that, you are on your own as to how you decide to vote. You will never be able to say that you did not know.

[YouTube: The Inconvenient Truth About the Democratic Party – HERE'S THE TRUTH!](#)

[YouTube: The Inconvenient Truth about the Democratic Party – 5 Minute Video – PragerU](#)

This is the Prager U video used in the other clips above, with no other commentary.

How My Eyes Were Opened

I started researching more information about the two parties in 1992. I have been off the plantation ever since. I had to learn to read and study for myself and not be hoodwinked and bamboozled by the media and the people around me who only believed what others told them. My commitment to Christ compels me to vote in alignment with my values. I know it is hard for people to understand because it is etched in our minds that Republicans are racists and want to hold us back. This is just not true.

The Spirit of the Democratic Party

Today's Democrat Party operates in the same spirit as they did historically. They work to control black people at all costs, keep them enslaved mentally, and keep them on the plantation. However, they are achieving this in a new way that blacks cannot see. They gave us welfare, programs, cell phones, turkeys, and other goodies, but they never do anything for our people on an ongoing basis. They make promises and stop by our neighborhoods every four years for our votes. Democrats don't love black people. They love black votes. They discuss reparations every four years, knowing we will never get them. Yet, we give them credit for speaking up for us and then blame Republicans for it not happening. They have no plans or vision with substance for the hood.

They don't have to because they know we are not going anywhere. They know we fear the other party, and they work to keep us fearing Republicans all because they are considered to be majority white. They keep us angry and afraid of whites, so we will not look in that direction. Then they use our black political and elected officials to influence us on TV or at race rallies to stay on the plantation because "*Y'all can't trust them white folks.*" They are called house negroes, designed to keep the field negroes in check for the slave master. They are the ones who receive the benefits, and for some reason, monies never get to the people who need them most to benefit and change our communities. OPEN YOUR EYES, BLACK AMERICA!!!

The spirit of the party is still the same today as it was hundreds of years ago. Only now, it operates under the guise of giving us something to make it look like they are helping us. Just like they were the party of lynching and hangings back in the 1950s and 1960s, they are still the party of killing our black babies today through abortion. They have kept our women dependent on long-term welfare, knowing that they will continue depending on that rather than getting up and doing for themselves.

Their policies have destroyed our black men and kept them from being fathers. Democratic-supported groups like Black Lives Matter (BLM) purposely support the removal of the father from the nuclear family. These policies have made young savages out of our children because they gave the father reason not to be there. Now, our communities are riddled with crime and are no longer safe because of these policies.

It's the same racist spirit, with a different twist because they recognize the power of our block vote, just as Pres. Johnson said, *"I will keep them nigras voting Democrat for the next 200 years, but you got to give 'em something."* This has indeed turned out to be true. History continues to repeat itself.

The Democratic Party's Racist History

Since its inception in 1829, Democrats have fought against every civil rights initiative. The party has a long history of discrimination. They:

- Defended slavery.
- Started the Civil War.
- Opposed Reconstruction.
- Founded the Ku Klux Klan (KKK).
- Imposed segregation.
- Perpetrated lynchings.
- Fought Civil Rights Acts in the 1950s and 1960s.

In the 1857 Dred Scott case, the Supreme Court ruled that slaves were property, not citizens. The seven justices who voted in favor of slavery were all Democrats. The two justices who dissented were both Republicans. (*Fact check: Viral post on Supreme Court's Dred Scott ruling includes inaccuracies by Ken Serrano*)

Democrats opposed abolishing slavery in the 13th Amendment of 1865.

Democrats opposed the 14th Amendment of 1866, which gave blacks citizenship.

Democrats opposed voting rights for blacks in 1869.

Democrats were the party of white supremacy. They established black codes – laws that restricted the ability of blacks to own property and run businesses.

Democrats imposed poll taxes and literacy tests used to subvert black citizens' right to vote.

Democrats founded the Ku Klux Klan to use terror to enforce these codes against blacks. It served the interests of the Democratic Party.

Democratic president Woodrow Wilson shared views with the Klan. He re-segregated many federal agencies.

A Democratic majority voted against the 1964 Civil Rights Act, which was passed with the support of 80% of Republicans.

When all Democratic efforts failed to keep blacks enslaved and prevent them from voting, Democrats came up with another strategy: *"If black people are going to vote, we might as well make them vote for us."*

Democratic President Lyndon Johnson reportedly said, *"I'll have them n----- voting Democrat for 200 years, but we got to give them something first."*

The Democratic Party now prospers on the votes of the very people it has spent much of its history oppressing. They provide a few benefits such as welfare, government programs, food stamps, and money for newborn babies.

Massive government welfare has decimated the black family. It removed the father from the home. Women had no husbands. Children had no fathers. These cycles continue generation after generation.

Democratic labor unions rule our schools. They keep our children enslaved and trapped in failing schools because parents do not have a choice. Now, children are being sexualized in these indoctrination educational systems.

The Lie That Democrats Went to the Republican Party

Now, the liberal media and academia use lies to keep blacks angry and in fear. They say that all racist Democrats moved to the Republican Party in the 1960s during the Nixon campaign. This is a lie.

Of the 21 Democratic senators who opposed the 1964 Civil Rights Act, only one became a Republican. The other 20 continued to be elected as Democrats.

If the Democrats all went to the Republican Party, as is told, keep in mind:

- Republican Richard Nixon lost the Deep South in 1968.
- Democrat Jimmy Carter swept the South in 1976.
- Democrat Bill Clinton won most southern states in the 1992 election.
- Republicans did not hold most southern congressional seats until 1994, 30 years after the Civil Rights Act.

Although it seems like Democrats are helping our people, they have found another means of control. Notice that the hood continues to remain the same, despite all their party's black elected leaders, political figures, their rhetoric, and promises about hope, change, and help.

Yes, slavery is over, but the Democratic Party's strategy and the spirit of the party are the same: keep blacks dependent, enslaved (mentally), and on the Democratic plantation for their votes. Democrats do not love black people. They love black votes.

CHAPTER 4: The Democratic Party Is Not Loyal to the Black Community

Elijah Cummings

Elijah Cummings, the late Congressman from Baltimore, Maryland, attacked President Trump in 2019 over the border issue. Trump hit back at Cummings, criticizing his majority-black Baltimore district as being a disgusting rat and rodent-infested mess where no human being would want to live.

Trump stated that Cummings had been a brutal bully, shouting and screaming at the great men and women of the Border Patrol about conditions at the southern border. Trump further stated that Cummings' Baltimore district was far worse and more dangerous. His district was even considered the worst in the United States.

The President's attack hit a nerve. Black people in Baltimore then began to ask where all the allocated money was going for his district. Cummings passed away soon after that. He had suffered from cancer for a while. Black people must hold their elected officials accountable. Otherwise, things will remain the same.

Black people must understand that if their communities start prospering, these black elected officials will no longer have jobs. They need black people to stay poor so they can continually depend on them. They do not want black people to be empowered and become independent. Why? Government resources come through their hands. The black elected officials get to determine how the resources are distributed. They usually give the funds to family members, friends, and political cronies, but the money never gets to where it is needed most. This is why nothing changes in the hood.

ESPN's Stephen A. Smith

I remember an interview with ESPN commentator Stephen A. Smith, where he shared his political views. One reporter asked him about blacks and their loyalty to the Democratic Party. Smith said,

"I definitely believe the black vote has been taken for granted, and primarily the black community is at fault, in my estimation, simply because, on one hand, we're giving one party our vote because they have successfully gone about the business of convincing our community that the other party, the Republican Party, is completely against the interests of the black community...We look at the Republican Party as...the enemy...we look at the Democratic Party as our support base...therefore, they have a license to take us for granted. The Republican Party has a license to dismiss us because they believe they will never get our vote anyway. Then we find ourselves devoid of any representation whatsoever because nobody is really competing to garner our vote and our support."

Smith also said, ***"Every black person should vote Republican for at least one election."*** When I first heard this, I thought he was crazy. However, after I thought about it, I began to see that he was right. If the black vote went Republican just one time, we would shake up American politics forever. Republicans would clamor to meet the needs of African Americans to keep our vote. Democrats would apologize and ask what they could do to get us back. People's political careers are based on our black votes. The black community could change politics forever. Unfortunately, we are not united under one leader who galvanizes our community as we were in the 1960s.

Our politics are about to change anyway because the Democrats have found themselves a new set of *"niggras."* Black Americans are no longer a priority to the Democratic Party. Migrants are now first. Why? Democrats are courting them for their vote after giving them immediate citizenship. They think this will give them power forever.

CHAPTER 5:

How Democrats Destroyed the African American Family

In order to “*give blacks something*,” Lyndon Johnson signed the 1964 Civil Rights Act and the War on Poverty. This was Johnson’s Great Society’s domestic program. His administration announced sweeping social welfare legislation that sought to help end poverty in the United States. New federal programs were created, and welfare was formed from federal dollars.

Destroyed Marriages and Fatherhood

However, as good as this program sounded, it took black fathers out of the home. Women could not receive welfare checks if they were married with a husband in the house. If they did, social workers would immediately stop the checks.

This destroyed marriage because women felt they could achieve better security from the government than their irresponsible husbands. Men no longer had to be committed husbands and fathers. The children grew up without a mother and father as an example of marriage. No father was present to give children fatherly guidance, which means young men do not know what true, responsible manhood looks like. Young women never see an example of a real, responsible, loving man as an example of a husband. All they see is a man occasionally sneaking in and out of their home to have sex with their mom, eat their food, and then walk right back out the door again before the social worker shows up. Sometimes, they would hide the man somewhere to ensure their checks kept coming in.

Boys are now seeking strong males to guide them. The gang leader says, “*I’ll be your father and give you a job. Take this gun and sell these drugs*.” The boy now begins a life of crime. Because he did not see a committed marriage, he now treats women like sex objects with no sense of commitment.

Now, the girls who have never felt a daddy’s love start looking for the love of a man. They go from one sexual relationship to the next, trying to find love. After a while, she realizes she cannot find true love in a man, so many girls decide to pursue another woman who looks and acts like a man.

The mother, who could not have a husband in the home, ultimately breaks up with the husband for good and then moves from one relationship to another. Kids have to watch this. Our community ends up producing gigolos and whores.

Since the government gives her free money, the mother has idle time to lounge around all day doing nothing, with no incentive to work, find purpose, or pursue a dream for her life. This happens when Democrats only want to throw money into a situation. This cycle of poverty repeats generation after generation.

So which one is better? A man who is given fish or a man who is taught how to fish? The idle, lazy person would probably say, “*Give me the fish*.” Guess what? From then on, he will expect someone to give him a fish for a lifetime. He now becomes dependent.

However, if you teach a man to fish, he will fish for himself and his family for a lifetime. Black people need to be incentivized to be empowered. Our people need empowerment to learn a trade, vocation, career, or start a business. Here lies the difference between Democrats and Republicans.

Democrats want long-term or forever welfare, which creates dependency. This will lead to generational cycles of poverty forever. As I stated earlier, Democrats need people to stay dependent to keep their power. So, when money comes down the pike to help their districts, they often allocate these resources to their family, friends, cronies, pet projects, and political favors, but the funds never reach those who need them.

Republicans, however, believe in temporary welfare. For example, they may give a person three years to go to school, learn a trade, and/or find a job to care for themselves. This is empowerment, teaching people how to fish for themselves and remain free from government control and dependency.

At the time of this writing, 60 years have passed since the War on Poverty began. Yet, look at the harvest: generational poverty, increased crime, increased school dropout rates, closed businesses, dilapidated houses, vacant buildings, and poor-performing schools. With all the money allocated to urban centers, where is the money, and where has it gone?

African Americans often make this mistake when voting for elected officials. They think, "If I vote for a black person, he will understand my pain because he has endured the same experience I have. He will look out for his other black brothers and sisters." However, this is not always the case. Only a small percentage of African American elected officials think this way. Many, however, want these positions for power and their own personal benefit. And once a white liberal reaches them with benefits or money, the hood will no longer have representation for their neighborhood.

One only needs to look at what is happening in Chicago today. Black people elected black mayor Brandon Johnson to office in 2022. Yet, they have watched Mayor Johnson sell his black constituents up the river in favor of migrants. Resources that should have been given to tax-paying black people are now going to migrants instead. For more information, go to YouTube and search for "*Chicago Migrant Crisis*."

Democrats Do Not Care About Black Families

The Democratic agenda does not support biblical family order. One key to leading a successful, prosperous life and avoiding poverty is growing up in a strong family headed by a married couple with one husband and one wife.

1. History shows that Democrat shareholders and plantation owners divided our families during slavery, so couples could not have official marriages.
2. Men were used to breed various women. If he were considered to be a "big, strong buck," as they called him, slave owners would force him to mate with several slave girls to give birth to more strong slaves. Now, he has several children on the plantation with several women. Look at the many children today without their fathers. As a result, a gigolo generational spirit plagues our communities, and we still see this spirit in operation today.
3. Slave owners would separate one boy child from his mother at an early age, then bring the boy back when he grew up to breed with his own mother. Once black mothers realized what was happening, they started branding or marking their children in some way. The mother would look for the mark if their children separated from them and were brought back to breed. If she saw the mark, she would tell the child, "*I am your mother*." Sadly, this is where the profanity word "*motherf-----*" originated.
4. Democrats and the passage of the 1964 Civil Rights Act took black fathers out of the home and replaced them with welfare checks.
5. Democrats today support the Black Lives Matter (BLM) organization. Its objectives involve removing the father from the nuclear family. They see this family structure as a white, racist construct. Three black lesbians headed BLM.
6. More than 75% of black children today are born out of wedlock.
7. Abortions destroy the future of the African American race.

This ideology has kept black families in poverty and Democrats in power. Democrats do not care for the African American family. They do not want you out of poverty.

Johnson's War on Poverty has issued 22 trillion dollars since 1964, and we are asking for reparations. Democrats have promised our people the world, but they have only given our people concrete jungles and food stamp allotments.

Trump has his issues and shortcomings, but he has a vision to create a growing economy that produces jobs and businesses instead of developing dependence. He wants to empower African Americans to learn how to fish for themselves and be empowered for life. This will provide many black people with an escape from poverty. As entertainer James Brown once sang, our attitude should be, *"I don't want nobody to give me nothing. Open up the door. I'll get it myself."*

How much longer will we cry over the thousands of young men, young women, and children who are being shot every weekend in our urban cities in street violence and crime? I'm tired of seeing children without fathers in neighborhoods with dilapidated buildings and nasty streets where businesses are closing because they are being robbed and losing inventory. I'm tired of seeing liberal DAs purposely destroy our communities by putting criminals back out on the streets. These Democratic leaders, both black and white, say racism is the issue. Yet, this is how we know racism is not the problem.

Democrats Are Behind the Cause of the Increased Crime Problem

After George Floyd died in 2020, all the riots happened in liberal-run cities across the country. These cities imploded because they were the ones who hollered, "DEFUND THE POLICE!" If soft-on-crime, liberal policies continue in our major urban cities, they will continue to collapse. As stated earlier, one major problem is liberal district attorneys who will not sentence criminals after they are arrested. Instead, they return offenders to the streets. This now encourages criminals because they know nothing will happen to them, and they will not be punished.

Many of us African Americans have been erroneously taught that racism is the source of all our problems, including crime. However, research of major urban cities, all led by black or majority Democratic-elected officials, reveals a surprising trend. Black elected officials have led most urban cities for over 20-50 years. Why? As community demographics change and become predominantly African American, most black constituents, of course, only vote for Democrats.

Remember that the mayors of these cities are black or white liberals. The majority of city councils are black. The police chiefs are black. The district attorneys are black or white liberals. The state legislators, city attorneys, county commissioners, and school superintendents are black or Democrat. So where is the racism? Racism cannot be the main issue when most elected officials in these cities are African American. This means they call the shots for their constituents. The problem is that the weak liberal policies they push do not effectively protect our communities.

My Survey of Major Urban Cities

A few years ago, I surveyed the racial makeup of high-level elected officials in urban cities that are all black or Democratic. Of course, we African Americans often see Republicans as racist. The results below show the year when these cities last elected a white Republican mayor.

- **Minneapolis, Minnesota** – The last Republican mayor was elected in 1973.
- **Chicago, Illinois** – The last Republican mayor was elected in 1931.
- **Portland, Oregon** – The last Republican mayor was elected in 1979.
- **Seattle, Washington** – The last Republican mayor was elected in 1969.
- **Washington, D.C.** – No Republican has ever been elected mayor since the District of Columbia home rule began in 1975.
- **Baltimore, Maryland** – The last Republican mayor was elected in 1967.
- **Atlanta, Georgia** - The last Republican mayor was elected in 1879.

- **Denver, Colorado** – The last Republican mayor was elected in 1963.
- **New York, New York** – The last Republican mayor was elected in 2001.
- **Philadelphia, Pennsylvania** – The last Republican mayor was elected in 1952.
- **Austin, Texas** – The last Republican mayor was elected in 1991.
- **Oakland, California** – The last Republican mayor was elected in 1967.
- **Los Angeles, California** – The last Republican mayor was elected in 2001.
- **Detroit, Michigan** – The last Republican mayor was elected in 1987.
- **Memphis, Tennessee** – The last Republican mayor was elected in 1967.

Google the city names and last Republican mayor. Why have our cities become so bad without white Republican leadership in the previous 20-50 years or more? Liberal policies have brought dilapidated houses, failing schools, high crime, dangerous city transit or transportation, homelessness, poverty, and loss of businesses and jobs. Why? As demographics have changed in these cities, and blacks have become the majority, of course, most of them vote Democratic. They vote for both black and white Democrats with their liberal policies. Yet, these policies are destroying our cities.

As African Americans, we tend to think with our emotions, fears, and anger over racism. We do not always think about the real issues, who we vote for, and what the candidates stand for. Even before the 2020 George Floyd riots started, most cities were already collapsing because of corruption, fiscal mismanagement, bankruptcy, high crime rates, homelessness, blighted buildings, and high taxation. For example, when we increase taxes on businesses, factories, and manufacturing plants, they cannot thrive, so they often leave these cities for pro-business cities. When that happens, jobs leave, poverty increases, and buildings are empty.

I have discovered that these issues do not occur in cities with conservative policies. Research reveals that these cities are safer and more prosperous than cities run by liberal policies. The facts and numbers don't lie. We cannot say that there is systematic racism in urban cities when the majority of the leaders in these cities are black and liberal/Democratic. Therefore, we cannot blame racism for the crime and poor conditions we see in our urban cities. This is not about race but about policies.

We must demand that our elected officials become tough on crime. If not, they must go! We must challenge our elected officials to change policies that will protect the public. If not, we must search for political candidates who will run on a platform that will be tough on crime. If not, none of us are safe because young black criminals do not care what color their victims are.

Criminals Face No Consequences

Those who commit the crime must do the time. Scripture even states in Romans 13:1- 6 that those who commit crimes are to be punished. Of course, we all want justice to be fair and law enforcement tactics to be respectable and honorable to all criminals. However, if there are no consequences, things will only escalate. Some criminals will require hard, aggressive tactics to control them.

If we do not do something soon, we will lose the freedom to enjoy life and go where we want. The DA needs to hear from the community to urge him to protect the people of our community, which is the job of the DA.

Police Have Lost Motivation to Arrest Criminals

Police officers have stated that they arrest the criminals, but they are immediately released back into the streets. One officer said on the news one night that he and his team had arrested some of the same guys at least ten times. The criminals boldly boasted and told him they would "return to the streets that evening or the next day." This is a problem, not just in Memphis but in most of our large, urban cities.

Once again, it stems from local district attorneys (DAs) or attorney generals who will not prosecute these young criminals. This socialistic, so-called progressive criminal justice reform ideology is destroying our cities and our nation as a whole.

Not Enough Police Officers Are on the Street

Since the death of George Floyd in May 2020 and since the subsequent persecution of police officers across America, many good, quality officers have left the police force to pursue other careers. Many officers fear media scrutiny, possible lawsuits, and potential accusations of racism and policies that will not allow them to do their jobs. Tyre Nichols' beating and death here in Memphis have also been detrimental to the police force in our city, as many officers have since resigned. One police officer I know personally told me that they, at one time, had only seven (7) officers that covered all of Hickory Hill, Cordova, and Oakhaven. Seven! Then, those seven are pulled from these areas to cover Beale Street on the weekends, leaving our communities unprotected. Police Chief C.J. Davis recently mentioned that police cannot protect citizens if they are not allowed to do their jobs. The City Council is legislating policies that make it difficult for police to arrest criminals. As a result, many good officers have left the force, and lower-quality officers are now being hired. The community must also approach the City Council to force them to protect us.

Emboldened Criminals

Today's criminals are emboldened. They know the law and the police's limitations. They know the police will not touch them. If arrested, they will only be released on the streets the same day or the next day. This opens the door for repeat crimes from the same individuals. An environment of lawlessness now permeates our communities. Criminals now do not expect consequences. In many places around the nation, young criminals are entering businesses and taking whatever they want in the presence of employees in broad daylight. They expect no consequences. This will not bode well for us as citizens because the next step will be criminals boldly entering our homes without fear. Criminals must feel the consequences of law enforcement, or they will own our streets.

CHAPTER 6:

Democrats – The Party of Death

The Democratic Party's policies, dating back to slavery, do not support life but instead reflect an agenda of death. Left-wing radicals have used their power to corrupt our law and politics to abolish our fundamental right to life.

The Bible says in John 10:10 that the thief (Satan) comes to steal, kill, and destroy. This is his job description. One only has to review a party's agenda to know which kingdom influences them. The kingdom of God always promotes life. The kingdom of darkness always promotes death and destruction.

1. **SLAVERY** – The Democratic Party established a system of slavery in the South that killed and slaughtered many black slaves.
2. **JIM CROW** – More than 4400 African American men, women, and children were hung, burned alive, shot, drowned, or beaten to death by white mobs. Blacks who attempted to defy Jim Crow laws often faced arrests, fines, jail sentences, violence, and death. The Democratic Party was behind them.
3. **KU KLUX KLAN (KKK)** – Many blacks were hung and lynched as a symbol of white superiority. The KKK terrorized black communities during the Reconstruction era. After Abraham Lincoln died in 1865, black traumatization was spawned by President Andrew Johnson and the Democratic Party, who worked to stop black Americans from moving forward.
4. **ABORTION** – Since the passing of Roe v. Wade in 1973, 61.3 million babies have died by abortion in the United States. One in three black babies was aborted as a result of the Democratic Party's agenda to promote abortions. Today, Democrats allow abortion on demand, even up to the ninth month. They set up mobile clinics to offer free abortions during the 2024 Democratic National Convention (DNC).
5. **PLANNED PARENTHOOD** – In 1921, Margaret Sanger started the American Birth Control League, which later became the Planned Parenthood Federation of America. Sanger's total motivation and intention were to kill black babies because she and other white racists feared that blacks would one day outnumber them. Since then, Democratic policies have pushed for government funding for Planned Parenthood.
6. **CRIME** – Democratic district attorneys in liberal cities do not detain or prosecute young black criminals to hopefully change their lives. So, they are left on the streets to potentially die in gang warfare.
7. **EUTHANASIA** – Democrats support physician-assisted suicide for those who are suffering and want to die. In many hospitals, elderly patients are being killed, unknown to their family members. This is man playing God and determining when people should die. Democratic New York Governor Andrew Mark Cuomo placed many elderly patients and gave nursing homes directives that led to needless deaths during the 2020 pandemic.

The Democrats have left a trail of death and destruction because of their policies. The blood of millions of people will be on their hands when they stand before the God of life.

CHAPTER 7:

Democrats – The Party of Incarceration of Black People

The Violent Crime Control and Law Enforcement Act of 1994, commonly known as the Crime Bill, was sponsored by Joe Biden 30 years ago at the time of this writing. It is often blamed for extending crime policies that overly criminalized black Americans.

Biden's Crime Bill

This crime bill's harmful policies kept millions of blacks and other people in prison. It caused racial disparities in criminal justice involvement. The bill contributed to ongoing, rampant police misconduct and racial profiling by deploying hundreds of thousands of officers into neighborhoods of color, and it jeopardized reentry for returning people of color by eliminating their Pell Grant eligibility while in prison. The bill also expanded the use of the death penalty and imposed mandatory life sentences for individuals with three or more felony convictions. It also levied harsh new penalties for crimes involving youth. Many of these harmful provisions remain in effect today and continue to target and destabilize communities of color.

Kamala Harris' Record of Arresting Black Men and Women

During the 2020 Democratic presidential campaign, candidate Tulsi Gabbert shared candidate Kamala Harris' record as a San Francisco prosecutor. Harris put over 1500 people in jail for marijuana violations, then laughed about it when asked if she smoked marijuana herself. She had black single moms arrested for their children's truancy. She blocked evidence that would have freed an innocent black man from death row until the courts forced her to do so. She kept people in prison beyond their sentence to use them as cheap labor for the state of California. She fought to keep the cash bail system in place, which impacts poor people in the worst way. Harris could not nor did not deny Gabbert's comments. YouTube: *THROWBACK: Tulsi Gabbard ENDS Kamala Harris' Bid for President in 4 Minutes Flat*.

The party that black people trust is responsible for putting more people in jail than Republicans. Yet, during Donald Trump's presidency, his First Step Program released over 3,000 prisoners, primarily blacks. Once again, Democrats enslave our people while Republicans set them free.

CHAPTER 8:

Democrats – The Party of Sexual Perversion

How the Equality Act Will Impact Our Nation and the Church

The Equality Act is a bill that, if passed, will amend the Civil Rights Act of 1964 to prohibit discrimination based on sex, sexual orientation, and gender identity in employment, housing, public accommodations, education, federally funded programs, credit, and jury service.

In essence, this bill, if passed, will open the door to the government's acceptance of all LGBTQ lifestyles. It will impact all aspects of society (government, business, education, media, entertainment, family, and religion). Sexual orientation and gender identity will become protected classes.

The House of Representatives passed the bill in June 2023, but the Senate blocked it. Both President Joe Biden and Vice President Kamala Harris support the bill. Please see below.

1. Religious Freedoms

- The **EQUALITY ACT**, if passed, will threaten our fundamental rights, liberties, and ***freedoms***.
 - [YouTube: A Christian Perspective on the Equality Act: What's In It and How It Affects You-700 Club \(10:19\)](#)
 - [Google: Kamala Harris supported legislation that threatened religious freedom.](#)
 - [X: Kamala Harris Says, "Let's Send the Equality Act to President Biden's Desk"](#)
- The **EQUALITY ACT** will threaten ***free speech*** because people will be afraid to say what they believe and could be punished if they disagree or speak against gays ever again.
- The **EQUALITY ACT** will threaten ***religious freedom***. If LGBTQ persons are not accepted or disapproved of based on a person's or an organization's religious beliefs, they will cite discrimination.
- The **EQUALITY ACT** states that any disagreement with their lifestyle will be treated as discrimination or harassment.
- The **EQUALITY ACT** will undermine First Amendment religious freedom protection. It explicitly states that the ***Religious Freedom Restoration Act (RFRA)*** would not apply to the Equality Act and cannot be used as a shield against the government's imposition of its ideologies. In a dispute between religious freedom and discrimination, discrimination will probably always prevail over religious freedom in the world's courts because of the separation of church and state and this new law.
- The **EQUALITY ACT** does not protect ***religious freedoms***. It will give people of faith an ultimatum: either change their faith-based practices or face government punishment.

2. Women

- The **EQUALITY ACT** will jeopardize the equal treatment of **women** (transgender (men to women), which will make women secondary.
- The **EQUALITY ACT** will force **women** to share private spaces with men. Transgender persons (men to women) will have to be allowed in women's or girls' restrooms and locker rooms. In shelters, biological men who identify as females will sleep mere feet away from women. Many women in these shelters have already suffered rape, sex trafficking, and domestic violence. They seek these shelters for safety. Consider the trauma and severe anxiety these women will endure if they resist, complain, or say they do not want to sleep near a transgender person and are told to leave the shelter.
- The **EQUALITY ACT** will remove **athletic opportunities** from women and destroy the progress they have made by allowing male athletes who identify as females to compete in women's sports.
- The **EQUALITY ACT** will ultimately have to do away with **women's sports**, as it would allow biological men to compete in women's sports. Many young girls who have trained for a sport all their lives cannot compete with males and will miss college scholarship opportunities.
- The **EQUALITY ACT** will make situations **unsafe for women**. They would be in significant danger of injury, as men, on average, are physically bigger and stronger. This happened in the 2024 Paris Olympics.
- The **EQUALITY ACT** will remove women's **gender-segregated spaces**. This means women will no longer have privacy in publicly accessible restrooms or other areas.
- The **EQUALITY ACT** will force individuals to refer to a male student as a woman or a gender outside his **biological gender** under the threat of punishment. Teachers cannot address students in a way consistent with their beliefs.

3. Parents

- The **EQUALITY ACT** will erode parental rights. For example, a couple in Ohio declined **hormone treatment** for their child. The Children's Hospital of Cincinnati involved child protective services, and the parents were ultimately stripped of their parental rights.
- The **EQUALITY ACT** will jeopardize the **rights of parents** to rear their children in alignment with their biblical/Christian beliefs. Rising numbers of public schools across the nation are socially transitioning students at school without telling their parents. They maintain secret files about gender-confused students.

4. Education

- The **EQUALITY ACT** will force **public education**, especially in areas like sex education, to include teaching children about their lifestyle. Many parents are concerned about this teaching and want their children to opt out of these lessons.

5. Gender Confusion

- The **EQUALITY ACT** will upend our bedrock understanding of **male and female** in our law and culture as God designed it.
- The **EQUALITY ACT** will give civil rights protections to 73 or more **gender orientations and expressions**. This will cause great gender confusion among our children.

- The **EQUALITY ACT** will prohibit employers, preschools, and even religious schools and organizations from making choices based on **basic biology**, bodily privacy, and their beliefs about the nature of marriage.

6. Churches and Religious Organizations

- The **EQUALITY ACT** wants religious schools, **churches, and houses of worship** to be considered public accommodations if they provide any goods, services, or programs in their communities, such as shelters, wedding venues, etc. Churches could be forced to hire LGBTQ individuals.
- The **EQUALITY ACT** will force any organization receiving **federal financial assistance** to abide by this law.
- The **EQUALITY ACT** will forbid **churches and religious nonprofits** from requiring employees to express their religious beliefs about marriage, sexual morality, and the distinction between the sexes.
- The **EQUALITY ACT** will threaten religious **foster care and adoption agencies** with closure if the agency operates according to their religious belief that the best place for a child is in a home with a married mother and father. For example, in New York, a Christian adoption ministry was sued because of their deeply held religious belief to place children in loving homes of married couples (one male and one female).
- The **EQUALITY ACT** will have to expand the definition of **public accommodations** to include private religious schools and churches. Employers will not be allowed to rely on their religious beliefs about sexual morality when selecting their workforce.
- The **EQUALITY ACT** will stop **churches** from firing individuals who violate their moral or biblical values. Churches will probably have to accept these lifestyles and their dress on church staff.
- The **EQUALITY ACT** can lead to churches and pastors affirming LGBTQ marriages. To them, it will mean that God has **affirmed their marriages**.

7. Christian Businesses

- The **EQUALITY ACT** will threaten the First Amendment rights of **Christian businesses** that may not want to use their businesses to display art that violates their moral beliefs. They will be forced to create websites, wedding photos, and wedding flowers and permit the use of wedding chapels.
- The **EQUALITY ACT** will require **all businesses** of any size to provide any good, service, or program. Wedding vendors with Christian beliefs can be sued if they refuse to violate their beliefs.

8. Perverse Lifestyles

- The **EQUALITY ACT** protects and legalizes **all levels of perversion**, sin, and immorality: gays, lesbians, bisexuals, transgender people, queer people, drag queens, cross-dressers, intersexuals, asexuals, pansexuals, etc. Google: *Celebrating Gender Diversity Around the World, Outright International*
- The **EQUALITY ACT** will open the door to **all sexual expressions** being taught to our children in schools. LGBTQ school curriculums, textbooks, and library books will be used permanently.
- The **EQUALITY ACT** makes the homosexual lifestyle **equivalent to race** and the civil rights of black people and other minorities. People's choices of sexual preference and behavior become protected.

9. Abortions

- The **EQUALITY ACT** will effectively create a legislative right to an **abortion on demand**. Healthcare providers would be considered a public accommodation, so they would be prohibited from discriminating based on sex.

10. Employment

- The **EQUALITY ACT** will mandate the **employment of persons** who identify as homosexuals or transgender people in what some may believe are inappropriate occupations, such as TSA representatives who conduct bodily searches at airports.
- The **EQUALITY ACT** will lead to **costly lawsuits** against family-owned businesses that will not comply, which could threaten the jobs of those employees and their families.
- The **EQUALITY ACT** will force employers to provide **health care insurance** coverage for transgender hormone treatment and sex reassignment surgery for transgender people.
- The **EQUALITY ACT** will jeopardize long-standing federal **rights of conscience laws** that protect those who oppose various lifestyles. Doctors or surgeons who oppose removing teen girls' breasts because they desire to be boys will be punished if they do not comply.

Conclusion

- The **EQUALITY ACT** does not protect equality. Instead, it **promotes inequality**. The government will impose unfairness by requiring acceptance of a particular ideology or lifestyle about sexual ethics. Any disagreement would be deemed discrimination or harassment.
- The **EQUALITY ACT** will harm many individuals and communities if it becomes law. It will expand abortion, erode religious liberty, and mandate an anti-life, anti-family, anti-faith, anti-Bible, anti-God, and **anti-Christ agenda** throughout federal law. It will be a disaster for all Americans. If Democrats keep the White House and the Senate and take back the House, this law will be passed.

CHAPTER 9: Democrats – The Party of Hate and Division

Critical Race Theory (CRT) is a set of ideas stating that racial bias is inherent in many parts of Western society, especially in its legal and social institutions, based on these institutions being primarily designed for and implemented by white people.

Many perceive the rejection of CRT as a rejection of black history. They are not the same. CRT is a theory or ideology, while the other is history. No one is denying the right of black history to be taught. The problem is that the CRT ideology is being woven through the teaching of black history to create division between the races.

Socialists designed CRT ideology to create division that leads to subversion of American culture. As the Socialist Party of America, liberal Democrats promote this contentious CRT ideology to cause rifts between the races. CRT's foundational premise is that the world is divided into the oppressed and the oppressors. It says **all** blacks have been oppressed, and **all** whites are oppressors. CRT also states that Christianity is the religion of the white man and should be banned. It also states that capitalism should be abandoned because it oppresses black people to work for the white man's privilege and superiority. They are even saying that mathematics is racist, designed for whites to oppress blacks. In essence, liberal Democrats don't think that blacks can think and do math.

This ideology creates a victim mentality in the hearts and minds of many African American children who are taught that they are oppressed and cannot do for themselves. It also causes hatred toward anyone who is white. As a result, black children are attacking white teachers in schools across the country. They are even forcing white teachers out of schools.

CHAPTER 10:

Democrats – The Party of Rioting and Destruction

Critical Race Theory (CRT) teaches that black people have the right to riot, loot, and burn because they have been oppressed and deprived and should not be arrested or prosecuted.

This ideology led to the riots of May 2020 after the death of George Floyd. This corrupt and warped thought process of criminal justice is the reason why criminals are no longer being detained or prosecuted after they are arrested. Criminals are now emboldened and left on the streets to commit more crimes. Now, crime is increasing all over America.

CRT encourages lawless behavior and no respect for authority. Today, black kids enter stores and take whatever merchandise they want, and nothing is done about it. Businesses are losing thousands, perhaps millions of dollars in inventory. In most cases, the police will not come. Store policies in many states now say that criminals should not be stopped. Employees are now being fired for trying to stop criminals.

During the George Floyd riots of 2020, liberal Democratic mayors and governors stood back and did nothing to stop over 500 riots nationwide. Billions of dollars were lost in burnt buildings, looting property, inventory, and automobiles burned up or stolen. Grocery stores and other businesses that black citizens depended on were destroyed. These riots negatively impacted black businesses and the community at large. Poor black people had to travel 10-20 miles to the next grocery store.

The Democratic Party leaders financially assisted Black Lives Matter (BLM). Donations made in light of Floyd's death went to a Democratic organization called ActBlue, which funds Democratic candidates' political campaigns. Not one dime went to the Floyd family or any families of crime victimization by police. They used the faces of three black lesbian women as leaders of BLM, but white liberals headed the organization. The black women who served as the face of the BLM movement received houses and other financial considerations, but our people received nothing. YouTube: *BLM Co-Founder Labeled a 'Fraud' After Buying Luxury Homes*.

The white liberal Democrat plan has always been to use black faces out front, pay them, and keep people voting for them so the white liberals get what they want while black people get nothing.

CHAPTER 11:

Democrats Use Black Preachers, Black Politicians, and Black Activists

How Margaret Sanger Used the Black Preacher

As mentioned earlier in this book, Margaret Sanger founded the American Birth Control League, which was later renamed Planned Parenthood. Her one agenda was to control the birth rate among blacks. White liberals feared that, with four million blacks freed from slavery, something had to be done to stop their birth rate, or they would soon outnumber and out-vote whites. Sanger preached that blacks were genetically inferior and had no right to live.

White liberals had three options: kill most or all the blacks, leave them out there to just fend for themselves, or stop their birth rate. They chose the third option, which is called eugenics. It is no accident that abortion has become so deeply entrenched in the black community.

Sanger recruited influential people in the black community to promote abortions. Her number one weapon was the black pastor. Preachers influenced the community. Black people had faith in their pastors and believed what they said. So, Sanger and her team encouraged preachers to tell their people that abortion would benefit them if they were poor and unable to provide for themselves. This was a lie because, before birth control, some black families had 10-20 kids while in poverty. One lady in my church had 19 children when I was coming up. This was during a time when black people were very poor, but they believed in God giving their children life.

More than likely, pastors encouraged abortion because of some financial benefit, political clout, or maybe even intimidation they received. Black pastors are doing the same thing today. They even receive talking points from these abortion organizations to tell them what to say to their congregations. Any church pastor who teaches that abortion is right does not possess the heart of God, and its members need to leave that church immediately. That pastor has no respect or reverence for life.

House Negroes and Field Negroes

White liberals understand that the key to the black community is to find the influencers, compensate them, make them promises, and use them to help pass their agenda. This is much like the old slave system of the house negroes and the field negroes. The old slave master used the house negroes and gave them all the comfort and benefits to keep the field negroes under control and ensure they stayed on the plantation. The house negro would not let the field negro mess up his comfortable conditions: a nice bed in the house, no requirement to stay in the scorching sun and heat all day, and the best food inside the Massa's house. As a result, the house negro often turned against his people to keep his benefits.

Democrats use this same system today. They call on black preachers, black politicians, and black civil rights activists and give them benefits to help control the black community. There lies the problem. Once black leaders are compromised, they usually sell out their own people.

When white liberals feel threatened, they use black elected officials to go on TV to make statements or give interviews decrying racism to protect them and keep our people in fear and anger. Their role is to stir up the people to fear the white Republican boogeyman. They know blacks are quick to believe and trust in their own. Even today, in our city, I see a white liberal DA who is not doing his job. He is not punishing crimes, and he is not protecting the public. However, the community is beginning to make him accountable by their public outcry. When going before the public, he immediately seeks his black supporters to stand with him before the media. Then, instead of them looking out for the best interests of the black community, they instead protect their white benefactors.

Black elected officials are betraying their own people now. I have seen local elected officials come together to represent their own interests instead of the interests of their constituents. I once attended a county hearing about a pro-life issue. One county commissioner told us pro-life supporters that they, as a board, had already made up their minds about the issue. This meant that the people's voices did not even matter. This is communism, where we are no longer a government by and for the people but a government by and for the government.

Jim Clyburn of South Carolina

The Congressional Black Caucus will go on TV and give interviews to support their white liberal counterparts. When Joe Biden struggled to win the Democratic primary in 2020, US Democratic representative Jim Clyburn of South Carolina went on TV and said, *"We know Joe, but most importantly, Joe knows us!"* At that moment, Joe Biden became the Democratic presidential nominee.

Black Civil Rights Activists

Black civil rights activists also greatly influence the black community, such as Jesse Jackson, Al Sharpton, and many other TV pundits and news analysts who speak to them.

Many African Americans do not always understand the political issues of the day. They need a black face to turn to for the best way to go or vote. So, liberal mainstream media will secure black voices to say for them what they cannot say themselves to black people. They will bring on black activists to stir up the black community to act or get them to the polls to vote. They use fear and anger against the Republicans, conservatives, or Trump. This keeps the black community angry, emotional, and against the Republicans. They will call black conservatives Uncle Toms to keep the black community from being influenced by them.

Notice that when Al Sharpton, Ben Crump, or other known activists get involved in a conflict, they rant and rave about racism. Usually, they hold a big protest or march on the streets about the issue for a few days with a few TV ops. Black people get stirred up and hit the streets to protest, march, and sometimes burn, loot, and riot.

Then, after a few days, the conflict ends. We no longer hear anything else about the issue. The community never knows what happened, and nothing ever changes to benefit the black community.

This is one potential scenario. Suppose a corporation is being protested about a racial issue. The daily negative media coverage is bombarding the TV. They need the problem to go away because it affects business, board members, and stockholders. They are getting antsy and nervous. So corporate leaders call in protest leaders and ask what must be done to make the issue disappear. The protest leader may receive money, a position in the company, jobs for a few blacks, or benefits for the protestors. Once this happens, the story goes away, and we never hear anything about it again. No benefit ever comes to the community that was impacted by the event.

These activists use their people to get what they want. This is why they need large numbers. The more blacks are seen protesting, the more it seems like the entire black community is protesting when this is not always the case. The black community must hold its leadership accountable. Activists distract us with the white man. Yet, they are not watching out for their own.

When Tyre Nichols was beaten and killed by five black police officers here in Memphis on January 10, 2023, the news showed footage from the incident, but there was not one riot, march, or protest. Why? The police involved in Tyre's death were not white. We only care about black lives when white cops kill a black person. The black community goes up in arms when one white officer kills a black man. Yet blacks can kill their own whenever they want, and nothing will be done. We will allow 100 black-on-black killings in one weekend.

During the George Floyd riots and protests in Memphis back in 2020, a Memphis police officer noticed something very strange. He saw whites in the march holding clipboards in their hands and telling young adult black marchers where to position themselves in the parade. If this was a black protest, why are whites leading the march? White liberals rule the Democratic Party but use black people to promote their agenda.

They also use black entertainers to go on TV to scare our people. For instance, Taraji P. Henson, at the 2024 BET Awards, ranted about Project 2025 and said it would force black people to be drafted first into the army. She also made many other exaggerations and false statements. The lies about Project 2025 put the black community in fear. This is precisely where the Democrats wanted them. They needed something to stir up their core base to vote. Taraji got paid, while the black community gets played.

Black people are often easily influenced because we only hear what others tell us. We need to learn how to do our own research.

CHAPTER 12:

Democrats – The Party Replacing Black People

Liberal Democratic Cities Do Not Protect Their People

Chicago residents confronted liberal black Democratic Mayor Brandon Johnson with their concerns about migrants pouring into their communities, taking their resources, and committing crimes.

Liberal elected officials are replacing Americans, especially black Americans. They put the migrants in black communities, not in white communities.

This is why Trump's "AMERICA FIRST" policy is now so important to these black communities.

Liberal Democrats do not care about the people. They only care about power and black votes. This is why black urban cities in America are so messed up.

Where is the systemic racism when mostly black liberal Democrats control the system? As I mentioned earlier, in many cities, the last Republican mayor was elected 30-50 or more years ago. Republicans are perceived as the racist party, and they have not led these cities in decades. Most of these cities have black mayors, majority black city council members or commissioners, black police chiefs, and black school superintendents.

Yet, our cities still suffer from dilapidated, vacant, boarded-up buildings, failing schools, high crime, dangerous transit bus systems, loss of businesses and jobs, blighted housing, increased drug problems and homelessness, and migrant takeover. Why? Liberal policies dominate in these urban cities.

Therefore, systemic racism cannot be the problem when black or white liberal Democrats run the system. These Chicago citizens voted for and trusted a black liberal mayor. However, he betrayed them, and now they are raging mad.

[**YouTube: BRUTAL – Citizen After Citizen Blasts Chicago Mayor Brandon Johnson to His Face Over Migrant Policies**](#)

Illegal Immigration and Black People

African American males think the immigration problem in their cities is that the Democrats are swapping out black people for brown people.

1. African American males feel that illegal aliens have been placed in their communities to take their low-industry, low-skilled jobs, historically held by African American males. They believe they are there to displace them, so they do not have economic power and can be pushed back.
2. They are seeing gang leaders recruit young teens into gangs because they want to take over the community.
3. They believe there is a plot to stop any black businesses or home ownership, and that is the purpose of the migrant influx. They have deliberately planted illegal aliens in black minority communities to sow discord.
4. They believe the left is deliberately setting up a scenario for a race war between black and brown, not black and white.
5. Male, military-aged men have been entering America illegally over the last year. Many have been incarcerated. Many are gang members and army-ready illegal immigrants.

For the first time, many of these black men are now moving from the Democrat side to the right because they are economically being pushed down the ladder while immigrants are being placed on a pedestal.

The average median income of black people nationwide is \$35,700 a year. This is about \$3100 a month before taxes. Add in a 15% tax, and their take-home pay is about \$2600 a month. Rent costs \$1500 a month, and they also have to factor in transportation and food costs.

Illegal immigrants, on the other hand, get \$2200 a month and free rent equal to \$1500 a month, for a total of \$3700 a month. They also get \$1400 a month on a debit card to pay for food, clothing, and any other expenses they have.

Blacks are left with maybe \$400 after their expenses. Yet, migrants who just got here, who are not working or paying taxes, are being rewarded for crossing the border illegally and living an upper-middle-class life. Migrants also get free college tuition and healthcare. Black people are being pushed back while illegal immigrants are prospering.

Now, blacks who have not even achieved financial freedom after decades are seeing illegal immigrants achieve financial freedom, even though they are not working or working hard.

FedEx has been laying off natural-born citizens to hire illegal immigrants. In Chicago, the school board is considered a sanctuary city, where many illegals get preferential hiring treatment over natural legal citizens. They automatically get two board seats without running for the school board over natural citizens.

Chicago opened up closed schools to house illegal aliens. They could have opened them up for black homeless workers, but illegals are getting free housing.

In New York City, 135 of its 700 hotels now house illegal aliens. New York City is the most expensive city to rent a hotel room. The government is subsidizing these hotels, and they have now been converted into apartments for illegal aliens. They are experiencing an American dream that African Americans will never realize in their lifetimes. So, we are seeing a shift from the left to the right. Many African Americans are still paying off student loans, while illegal aliens get to attend college for free.

The history and data show that mass immigration of illegal aliens has been occurring since the 1900s and has adversely impacted black Americans. The Democrats are anti-black America, and they have destroyed the black American family. There are only 25% of two-parent households. This means 75% of black families are single-headed households. White liberal women pushed free sex, feminism, and sexual liberation that destroyed households, the American family, and black families. All the Democratic policies have destroyed America and the family.

John Adams said that for a nation to be free and prosperous, the citizens must be moral and of good moral character.

The family is the most important institution in society. Yet, black men cannot marry black women because they do not have the income or wealth because of the mass immigration of illegal aliens.

<https://www.youtube.com/watch?v=xzSTzve1aSE>

CHAPTER 13:

Democrats – The Party of Government Healthcare for All

Medicare for All – Socialized Healthcare

Kamala Harris advocates for a government Medicare, a single-payer system, or free government health care for all. This model, often called socialized medicine, entails the government taking charge of our health care. While it may seem like a promising solution, it has many disadvantages.

If we get ill and suffer a major disease, we do not just want health care, but quality health care with the most coverage. Our best chance of finding that is right here in America. Our healthcare system is not perfect, but it offers an opportunity for choice, freedom, and quality, with skilled doctors and cutting-edge medical treatments and care.

People experience long delays in countries with a socialist government or economic system. No other country rivals the United States in allowing us to control our own healthcare. Again, our healthcare system has many issues that need to be addressed, but it still provides advantages that other nations' government-controlled healthcare systems do not offer.

Government-run healthcare takes medical decisions away from patients and their doctors and places them in the hands of government bureaucrats (officials). They decide, for example, how many MRI machines will be available or under what conditions we can get back surgery, a bypass, or even if we qualify for cancer treatment. The United Kingdom operates this way on a single-payer system. They can severely restrict access to treatments like hip and knee replacement, cataract surgery, and even prescription drugs to deal with common conditions like arthritis and diabetes. With government healthcare, people may have to live with the pain because it may take years for doctors to get around to us, if at all.

If we suffer a medical emergency in a place like London, for example, we may have to wait 12 hours in the emergency room before we receive care. Hospital corridors are jammed with beds carrying the frail and elderly. Hospitals have had to postpone non-urgent surgeries until the end of the month.

A second big problem with the single-payer system is its cost. Taxpayers will be required to pay enormous tax increases to fund it, which will impact not just the rich but also working Americans and the poor.

Finally, government-run healthcare systems could stifle the search for new cures. History shows that medical breakthroughs rarely emerge from countries where the government controls healthcare. They predominantly come from the United States, where the government does not dictate our healthcare.

Single-payer, free medical healthcare may sound great, but it does more harm than good.

Maybe those without a job or those who cannot work can be placed on government healthcare, but not at the expense of abolishing private healthcare for those who can afford it through their jobs or businesses.

What Will Government Healthcare Look Like?

- With **private healthcare** through our jobs, we can make our own healthcare decisions as patients and with our doctors.
- There is no better way to **control all of society** than through its healthcare. If the wrong people enter government healthcare with evil motivations against the government, they can control who receives care and who does not.

- Government-run agencies can be **unorganized, inefficient, and insensitive** to the needs of the many people they must care for.
- In Britain, 10% of hospitals do not meet **hygiene standards**. Around 20% of hospitals do not correctly sterilize equipment used with patients.
- Hospitals do not adequately **isolate patients** with infectious diseases. Why? Too many people are now **waiting in hospitals** under government healthcare. There is a lack of staff, and the available staff are overworked. They cannot keep up with everyone's needs in the hospitals. They are now stressed out and leave things undone.
- Surgeries can be done with **unsanitary surgical tools**. In some places, tools have been left in patients' bodies because some doctors have to rush to the next patient.
- Many patients who needed **heart bypass surgeries** did not receive the best care.
- **Patients have died** because there were delays in the doctors realizing that patients' health was deteriorating. Doctors also did not know some patients had other conditions that complicated the surgery. There were also delays in getting doctors to see patients.
- Some patients in Britain had to pull their own teeth to end their pain after being **refused treatment**. One woman could not secure a dentist to treat her in one case. The dentist and his team did not want to deal with government patients because of all the paperwork that comes with it. The government would fine dentists and doctors for mistakes.
- This means the **staff are often stressed** out and have to work overtime, or they have to hire more staff just to complete the paperwork.
- Under our present private care, doctors can charge an insurance company maybe \$1,000 for a quality test we need. They will not be able to do this under government healthcare. For the government to save money, doctors must give **lower-quality tests**.
- People are often placed on **waiting lists** in places like Canada to get a needed CT scan because there are only a few machines in the area.
- Some people have to leave their area and go to another town, state, or country to get the scan done sooner. Most had to **pay out-of-pocket** for these tests, as they were outside their network area.
- Patients are told that the government healthcare in their area will reimburse them for the amount they spend to secure tests, but they are **never refunded**. Governments will do whatever they can to save money, even at the expense of people's health. This is what diminishes the quality of healthcare.
- In Canada and other nations with government healthcare, people wait an average of 18-19 weeks to receive **necessary surgeries**. Depending on the treatment or procedure they need, it could take longer.
- **Children wait months** to more than a year for elective surgeries, such as tonsil removal or the placement of tubes in their ears to prevent ear infections.
- Because of the countless requirements for government-run healthcare, many **quality doctors** will leave the medical profession to go to other countries or enter another business. Consider what would happen to you if the doctor you trust with your health was no longer there.
- **Hospital stays** will be shorter to make room for needed beds. People with conditions that require longer hospital stays will be forced to go home much sooner.

- Women in labor have been **refused admittance** into hospitals. They are told to go elsewhere because there are not enough workers available to provide the necessary care.
- There is now a **shortage of nurses** in America.
- Regarding **older citizens**, many government-managed hospitals do not care. Many elderly citizens will be left uncared for because many others need care. It will cause hospitals to make rationing decisions. They will say, *"They have lived their lives. We need to give more attention to younger people with more time to live."*
- In the days of Nazi Germany, a socialist nation, since the **elderly were too old** to contribute to society, they were often left to die. This is happening in hospitals today. People will not go the extra mile today because it will take too much time.
- There will be **shortages** of some cancer drugs that we have right now. With the many people in the health care system, consider who will get medication and who will not.
- Finally, many people who need **surgeries or medications** often die waiting for medical care. This is the biggest problem with government healthcare.

In conclusion, I wish every American citizen had healthcare. I do not know how the government can provide healthcare for those who do not have it. However, it should not be at the expense of those working hard to secure their private healthcare through employment. The present healthcare proposal of a single-payer system, where the government will be responsible for everyone's healthcare, will deny many people the freedom, quality, and choice to secure their private insurance.

CHAPTER 14: **Democrats – The Party of High Prices**

Inflation Is Out of Control

- Gasoline prices have increased 51%.
- Electricity prices have increased 32%.
- Airfare costs have increased 23%.
- Grocery prices have increased 22%.
- Rent prices have increased 22%.
- Car insurance prices have increased 54%.
- Food prices have increased 66%.
- Egg prices have increased 47%.

How Biden and Harris Raised Our Food Prices

We all have been negatively affected by high food prices at the grocery store over the last four years. According to the Federal Reserve Bank's analysis of the Bureau of Labor Statistics, food prices are up 20%. Food prices have spiked because on day one, when Biden and Harris walked in, he issued executive orders directed at crippling the American energy industry. Why? That is what the far-left climate control people wanted. They oppose our nation's fossil fuel energy industry.

Biden immediately limited America from drilling for our energy on federal land. He closed down the Keystone pipeline, which helped make America energy independent of the need for foreign oil, which Trump had done. Biden also limited the oil refinery by slapping one regulation after another on it. This means the fuel companies must pay much more for oil and gas to get the food into the marketplace (grocery stores). Now, they must pass that cost down to us as consumers.

Truck drivers who bring food into grocery stores must pay 30% - 40% more than they paid under Trump. Trump's business skills and savvy greatly benefited America when he was in office. He understood these issues, whereas Biden and Harris do not. Those prices or increases were applied to our food prices.

Also, COVID-19 depleted our workforce in restaurants, fast-food restaurants, and grocery stores. With fewer workers, grocery stores must pay higher salaries to attract workers. Of course, they pass on that cost by raising food prices.

Now, fuel companies are raising the prices of goods transported to stores. They have to pay more money for workers to stock the shelves, and food prices have gone through the roof.

COVID-19 also prompted people to seek other work opportunities to bring in money. While we went through lockdowns and shutdowns for months without work, people at home were online making money or seeking other income-generating opportunities.

Biden and Harris claim inflation and high prices are decreasing, but we feel otherwise when we visit the grocery stores. The inflation rate and high prices are coming down because consumers are spending less because they do not have much money. So, as long as these policies are in place, our grocery store, restaurant, and fast-food prices will not decrease. This is how the Biden and Harris administration has hurt us all. Trump stated that the first thing he will do when he enters office again in 2025 is to drill for energy to restore our energy independence. Harris will not be able to do this because of her loyalty to the far-left climate control people who control her. This means these prices will never change if Harris wins. It's about policies.

Reference: No Spin News, Bill O'Reilly, The First Network Ch. 347 on August 16, 2024

Kamala Harris Proposed Price Control (Price Fixing)

Kamala Harris recently proposed price fixing or controlling prices as a part of her economic plan. She claims that many food businesses and grocery stores are supposedly price-gouging the American people. Once again, one indication of a socialist is that they blame businesses. The essence of Marxism is to stop the rich from making a profit. Harris' policy is socialism. Companies would be penalized if they broke the rules. It sounds like a good idea, but it will negatively affect businesses, the economy, and the nation.

Price fixing will reduce the availability of goods and take them off the shelves. This means we will see fewer goods at the grocery stores. Businesses aren't price-gouging. They are dealing with the same inflationary costs as consumers. Therefore, to survive and stay in business, they must increase the prices of their goods.

America has always boasted a capitalistic, free-market economy, which means the market, not the government, determines the prices. If one business' prices are too high, or its products are not quality, then its competition and consumer spending habits will determine its prices. This is why capitalism is better. It represents freedom, and the people choose the prices.

However, when prices cannot rise and fall naturally due to supply and demand, all types of bad things can happen. If producers cannot raise prices when their own costs increase due to inflation, for example, they are often better off not making anything at all rather than losing sales. Price controls will ultimately lead to shortages.

In nations like Venezuela, they place price controls on toilet paper and milk, which leads to scarcity. People stand in line just to get a roll of toilet paper. A price control or price fixing policy will destroy the American economy.

CHAPTER 15: Democrats – The Party of Higher Taxes

President Biden said he would raise the current corporate tax rate from 21% to 28% if reelected. Kamala Harris is promoting this policy and talking about raising the rate even more.

As consumers, we rely on these corporations and companies to provide our products and services. However, the proposed tax increase could significantly increase our expenses and what we must pay, adding to the financial burden we already bear with today's inflationary prices. Once businesses are taxed, they will pass these costs down to us as consumers, adding that cost to what we are already paying.

Liberal, progressive, radical left-wing Democrats/socialists want the federal government to tax corporations and wealthy individuals as much as possible so they can give that increased tax money to people who are not as affluent and, thus, hopefully, buy their votes.

For example, when Democrats give people welfare, they will usually vote for Democrats and elected officials who provide them with welfare money. Who do you think most migrants will support once they can vote? The person or political party that lets them into the country and gives them free housing, food, education, and medical attention will usually get their vote. They buy votes.

Progressives are using Joe Biden and Kamala Harris to carry out their agenda in America. He is obligated to that wing of the Democratic Party. If Biden does not stay in office, then the progressive movement will fall apart in America. This is good for our nation because people making a profit is the lifeblood of a capitalist society. When businesses cannot profit, they cannot do business. One of two things will then happen. Businesses will either close down or take their companies to other countries whose tax policies favor them making a profit. This means all those working in these corporations will lose good-paying jobs. This is the potential impact of a Biden presidency.

CHAPTER 16: Democrats – The Party of Free Abortions

Free Abortions in a Mobile Clinic at the Democratic National Convention (DNC)

If you can vote for the Democratic Party after hearing this, something is wrong in your heart with God. How can you still vote for a party that wants to blatantly and openly murder innocent babies? The Bible calls it the shedding of innocent blood (*Psalms 106:38*). Democrats don't even hide it anymore. They had a mobile clinic at their Convention this week for people on the streets to walk in and get free abortions. Why? A sacrificial system is taking place behind the scenes. If this does not bother you, you have no sensitivity to the Spirit of God, and your conscience has been seared, meaning you have lost all feeling (*1 Timothy 4:2*).

Tiphani Montgomery explains this wicked system in the following video. Satan requires sacrifices to accomplish things for those who seek him for power, money, prestige, promotion, etc. The highest level of sacrifice Satan requires is blood because blood represents someone's life. The Bible says that the life of the flesh is the blood. Satan says, *"Give me the blood of the life of a child. Make that a sacrifice unto me or my idol god Molech, and I will give you what you desire."* People are more than likely paying for those aborted fetuses to use them for their sacrifice. This is why they are working so hard to keep abortion legal. Money is involved, and some human life has died for Satan. Remember, he comes to kill, steal, and destroy (*John 10:10*).

Today's abortion is nothing but child sacrifices being made to the god Molech (*Leviticus 18:21*). Open your eyes, people of God. If a party or candidate can support abortion (which Kamala Harris has already stated she supports), how can we, as Christians, agree with or promote this evil that slaps God in the face for children that He created? God gives conception (*Ruth 4:13*). God places children in the womb and intends for them to have life. He is the God of life. (Please see the news story about it below).

CHAPTER 17:

Democrats – The Party of Marxism and Socialism

As stated earlier in this book, today's Democratic Party is not the party of the Civil Rights Movement. Socialists/Communists have infiltrated today's party.

Norman Thomas, 1948 Socialist Party Candidate for President, said: ***“The American people will never knowingly adopt SOCIALISM. But under the name LIBERALISM, they will adopt every fragment of the socialist program until one day America will be a socialist nation without even knowing what happened.”***

This quote proves that the liberal party (Democrats) is America's socialist party.

During the George Floyd riots, Black Lives Matter (BLM) leader Patrisse Cullors acknowledged that she and her fellow leaders were trained Marxists. This means their chaotic rioting strategies came straight from Marxist beliefs, as taught by the founder of Marxism, Karl Marx, a German philosopher who wrote *The Communist Manifesto*.

This ideology has seeped into all aspects of American culture and its institutions. Socialism means the government controls the means of production (meaning businesses). Communism is the next step up. It is government control of all property. This means the government will own our homes and all property. Under socialism, we no longer work for ourselves but for the government. Government welfare supports everyone.

This system is anti-God. Marx stated that he wanted to abolish religion and remove God. This is why the Democratic Party has removed God from its platform.

Socialism seeks to use a revolution to overthrow the existing free government, especially a capitalistic government. It hates business and aims to bring it under control. It opposes profit-making and wealth to place it in the hands of the people through government distribution. Socialism is the redistribution of wealth. In socialism or communism, people do not own anything. Everything belongs to the government. People never reach their maximum potential or purpose because they have no incentive if they cannot work for themselves. There are no class distinctions. Everyone is equal and gets the same reward, regardless of what they produce.

We work for the government. The government gives free everything to those who do not work, including, but not limited to, free college, housing, childcare, medical, food, phones, etc. The government says, *“We will take care of you,”* and that creates dependence, which is what they want.

Under socialist or communist regimes, anyone who opposes the government could be killed. Over 100 million people died under socialist and communist regimes in the 20th century.

This is where the Democratic Party is going in America. The government controls every area of our lives.

America Is About...

- Freedom to be and become
- Being self-sufficient and self-reliant through Christ.
- Work and working hard for yourself (having self-worth and dignity)
- Trusting in God and not government
- Being independent – no one takes care of us
- Not living for handouts or being in a welfare state
- Capitalism, where people are free to pursue their own happiness

This is what Republicans teach. This is also what God's Word teaches (*2 Thessalonians 3:10-12*).

CHAPTER 18: **Democrats – The Party That Will Erase Women**

Title IX Will Erase Women

Biden's change in Title IX states that transgender people are protected from discrimination in education and athletics. They will have equal rights as women for whom Title IX was initially written. It means transgender (men who have transitioned to being a woman) will have full rights as any other woman in athletics.

Transgender (men to women) can now receive scholarships that should have gone to a biological woman. It means transgender (men to women) will have full access to women's restrooms and dormitories. Pronouns in how these individuals describe themselves must be accepted; if not, they can be charged with harassment and penalized or arrested. You must now call these biologically born men by the pronouns she or her. If not, you can be penalized or possibly arrested.

If passed by the Senate, this law will also have far-reaching implications for religious liberty. It will stop churches or Christians in the marketplace from standing on or speaking what they believe is right or according to their Christian values.

It means women will no longer be able to have a fair chance in sports competitions because their body structures are different from men. The record in the men's 100-yard dash is 9.58. The record for women is 10:49. Men are biologically faster than women. However, stop and think for a moment about the reverse. Notice you do not see transgender women or men entering men's sports. If transgender people are equal, why aren't we seeing these trans women to men going into men's sports? Because they know there is a difference.

To permit transgender people who are biologically men to participate in women's sports will be unfair to women and will destroy women's college athletics forever. Women will begin to drop out of sports altogether and not desire to compete again. That means there may no longer be women's sports again. Colleges and universities that receive funding from the government will have to comply to continue to receive that funding. Think about young girls who spend years practicing and preparing to play a sport, even professionally, and will miss these opportunities.

The LGBTQ activists are not just attempting to get protection for transgender people in sports; the ultimate goal is to change society and make it an acceptable and everyday lifestyle. They want to rip up the foundation of God that created the distinction between male and female. It means people will be allowed to flow from one sex to another. They call it gender fluidity, where you can flow from one sex to another. That means there will no longer be gender boundaries between males and females, where each has its own space. It opens the door now for people to have sex with anybody they want to in any way they want to. This will destroy the very foundations of our society as God created it.

Ladies, the devil wants to erase you. The anti-Christ will be gay. The Bible says when speaking of the anti-Christ in Daniel 11:37 that he will have *"no desire or regard for women."* This is right in line with the 1987 Homosexual Manifesto, where gay men wrote and told women, *"You go and leave your men to us since you are unhappy with them."*

The Bible says in Psalm 11:3, *"If the foundations be destroyed, what shall the righteous do?"* These ungodly laws will make it very difficult for the godly to have their rights, freedoms, and liberties. They won't be able to say anything for fear of penalty or arrest. Yet, we are called by God to continue to speak the truth in love. Persecution may come, but we are still called to stand and say what is right. God even says that if we are persecuted for righteousness's sake, we will be blessed (*Matthew 5:10*). May we stand in this hour and be counted worthy before God on the day of judgment.

CHAPTER 19:

Democrats – The Party That Wants to Make America a Socialist Nation

How to Create a Socialist Nation Out of a Free Society

Saul Alinsky, author of *Rules for Radicals: A Pragmatic Primer for Realistic Radicals*, developed an eight-step model to transform nations into socialist/communist nations. The following changes are currently occurring in American society through the Democratic Party.

- 1. HEALTHCARE** – To control the people, control the healthcare. The first thing Hitler did in his Nazi socialist party was to get control of the healthcare of all of the people. The government controls what doctors can or cannot do at some point. Right now, the American government, through Obamacare can control medical resources and possibly determine the rationing of medications, surgeries, and other medical needs. Obamacare placed the nation's healthcare under government control. Most people never knew what was in Obamacare. That was the purpose of the insurance mandate. This is why they forced everyone to secure insurance and penalized them; they had to place everyone under government control. Obamacare had restrictions about what doctors could and could not do for patients. Private healthcare, however, gives the person more control of their healthcare. That is why Obamacare has changed. They wanted to tear down the existing system and establish single-payer, government-managed healthcare instead.
- 2. POVERTY**- Increase the poverty level as high as possible because poor people are easier to control, and they cannot fight back if the government is providing for them.
- 3. DEBT**- Increase the national debt to an unsustainable level. This way, you can increase taxes, produce more poverty, and overburden the system. That is why Democrats want to give welfare to all illegal immigrants. The more you put on the welfare rolls, the quicker the system breaks down.
- 4. GUN CONTROL**- Remove the people's ability to defend themselves from the government. That way, you can create a police state. This is why Democrats are constantly pushing for gun control all the time. They are continually trying to go after the guns. This was why our founding fathers added the Second Amendment to the Constitution to keep America free. When Russia (the old Soviet Union) became a Communist nation, they first went after the people's guns and had them registered and ultimately turned in. Only Democrats push for gun control.
- 5. WELFARE**- Take control of every aspect of their lives: food, shelter, income, daycare, etc. This is why Democrats promote welfare and other entitlements to the poor. They want to control them, keep them on the plantation, and keep them dependent on Democrats. Every woman receiving welfare is under government control right now. They don't want women to be independent and empowered to live by their own resources and efforts. You cannot control people who are free and independent.
- 6. EDUCATION**- Take control of what people listen to and what their children learn so the next generation will be prepared to accept socialism or a new world order. Our present educational system teaches our children socialism, Islam, anti-Christian rhetoric, and sex education. They oppose parents having school choice because they cannot control them. Republicans support school choice so that if a black single mother's child attends a failing, low-performing public school, she can take those state dollars used for that child's education and pay for a private school or charter school education. Poor single mothers cannot pay for private school education, so Republicans want black mothers to use those state dollars to give their children the best education possible. However, Democrats or Socialists believe in control, while Republicans believe in choice and freedom. There lies the difference.

7. **RELIGION** - Remove belief in God from the government and schools so they will not know freedom. Christianity lets people know that God wants them to be free. This is why they are working to shut down religion, especially Christianity, because the government is intended to be God.

Christianity is about God's rule over our lives, which is why they are working hard to remove prayer and religion from society as much as they can.

8. **CLASS WARFARE**- Keep the people divided into wealthy and poor, black and white (this is the real purpose of Black Lives Matter), Christians and Muslims, Democrats and Republicans, gay and straight. This will cause more discontent, and taking control of a nation will be easier. A divided nation is easier to control. You will be able to tax the wealthy with the support of the poor.

Richard Cloward and Frances Fox Piven

American socialists and political activists Richard Cloward and Frances Fox Piven outlined an eight-point plan and political strategy in 1966 to utilize militant, anti-poverty groups to facilitate a political crisis. They overloaded the welfare system by increasing welfare claims. This would force the creation of a guaranteed minimum income system and redistribution of income through the federal government. This is why Democrats allow unrestricted open borders and give away free stuff to everyone. They want to destroy America's wealth and prosperity.

The Useful Idiots

One phrase is used quite often by communists and socialists to describe those who are not pure communists who are susceptible to communist propaganda and can be manipulated. Rather than kick them to the side, communists and socialists instead find ways to use them to help carry out their agenda. Russian leader Vladimir Lenin coined the phrase "*useful idiots*" to refer to these usually highly intelligent people who attribute a given cause to its positive effects but turn a blind eye to its derogatory ones.

The problem is that many African Americans, through the Democratic Socialist Party, have become useful idiots. We are not communists. We don't know what it is. However, we as a people are being used to facilitate an overthrow of our American Judeo-Christian values.

Black preachers, black politicians, black activists, black entertainers, black elected officials, black voters, and even black gang members, rioters, vandals, and looters are all pawns or useful idiots being used to usher in a socialist agenda in the United States.

Kamala Harris is a Socialist

Many African Americans do not understand that today's Democratic Party is not the Democratic Party of the Civil Rights era in the 1960s and 1970s. The party has been infiltrated by socialists/communists. The Democratic Party is the Socialist Party of America. Norman Thomas, United States presidential candidate from the Socialist Party (1940-1948), once made this statement:

"The American people will never knowingly adopt socialism. But under the name liberalism, they will adopt every fragment of the socialist program until one day, America will be a socialist nation without even knowing what happened."

This means the party of liberalism is the party of socialism, the Democratic Party.

Socialism is the government's takeover of all production in a nation. Communism goes one step further than socialism in that the government owns all means of production and property (business and personal). It refers to government control of all our lives. It completely opposes our American way of life: capitalism, the Constitution, and Christianity.

Karl Marx is best known for popularizing the concept of socialism. The term Marxism is used to describe socialism/communism.

Marx did not like the wealthy becoming rich by using the poor workers to benefit him and make a profit. So, he organized the poor to engage in class warfare against the rich. They were to fight against the owners of the corporations to stop him from profiting. The government would control and distribute all monies equally among all the workers. It is called wealth redistribution.

Many nations started with socialism; ultimately, communism emerged. All property is held by the state (government). Wealth is redistributed so everyone receives an equal share of the benefits. We do not work for ourselves, only for the government. All class distinctions are eliminated. There is no class system – no upper, middle, or lower classes. Everyone is in one class, with one ruling class at the top. We have no chance to pursue our levels of happiness. We own no private property – no land, home, or business.

The government owns all factories and means of production and controls all businesses. Freedom of religion is abolished (this freedom is allowed in some socialist nations). Under communism, there is no incentive to work because all the profits go to the government. It takes away any wealth from the people. Communist leaders are unopposed. Therefore, they take the liberty to kill all who oppose them. Fidel Castro of Cuba, Adolf Hitler's Nazi Germany, Vladimir Lenin, and Joseph Stalin of Russia killed millions of opposers to their socialist and communist governments.

Socialism is About Atheism

Marx was an atheist whose philosophies were ungodly. He stated, *"His first requisite for the happiness of the people is the abolition of religion."* He said, *"Religion is the impotence of the human mind."* *"My object in life is to dethrone God and destroy capitalism."* *"Communism begins at the outset with atheism."* *"We communists are atheists."* *"Religion is the opium of the people (it's like a drug)."*

God Must Be Removed

For socialism/communism to work, why does God or religion need to be removed? For the government to rule and control the people, they cannot have faith in the Christian God of the Bible. Socialism is about government or man's rule. Christianity is about God ruling the lives of His people. This is why Christianity must be removed from society. This is why Christianity is being attacked today and will cause great persecution of Christians. The Bible tells us we are cursed when we trust in man (*Jeremiah 17:5*).

Kamala Harris's policies are all socialist. Her most recent one calls for government control of pricing. She wants to penalize businesses for price gouging. This means the government determines the price of groceries and ultimately creates bread lines, as seen in other socialist nations such as Venezuela. Just like Karl Marx, Democrats blame businesses, corporations, or those who make a profit. Government-controlled pricing will put many corporations out of business.

This will lead to food shortages, open the door to black markets, and cause uncertainty. In our capitalistic society, we allow our free market to determine the price.

Kamala's policies want to give people everything for free. The more the government can provide, the more it can control people's lives. Everyone who receives welfare is under government control, keeping them dependent. At some point, the government can take it away from you.

Government dependency will stop people from working for themselves. What looks like a blessing is a means of controlling people's lives. People are entitled to not work. During the COVID lockdowns, people did not work. They received government entitlements, and most of the nation's workforce has not returned to work.

Now, the businesses we depend on cannot serve us effectively because they do not have enough help. More companies are shutting down because the government is still funding people.

Kamala and the Democrats want to give migrants free food, free iPhones, free housing, and free childcare from the government, as they are doing in Chicago right now. They want to pay off college debt, offer free medical care, and enable those who don't make a certain amount of money to receive a guaranteed income. This will overburden our financial system and cause even more inflation. It will cost billions to do all this. Socialism writes people's checks using other people's money.

Kamala even wants free down payments on homes for first-time home buyers up to \$25,000. This will increase the cost of prices on homes. Socialism believes in giving more to people who have less, even if they are able-bodied and do not work.

Kamala will convert the American economy into socialism.

CHAPTER 20:

Christianity is Incompatible with the Democratic Party

Because it has chosen narcissism as its foundation for faith, the Democratic Party has cast out whatever Christian elements it may have once had.

On Friday, former President Donald Trump spoke at the National Religious Broadcasters International Christian Media Convention, in which he said, *“How any Christian can vote for a Democrat, Christian or person of faith, how you can vote for a Democrat is crazy.”*

Given the values and beliefs held dearest by the Democratic Party, it is hard not to agree. Radicals have gradually pushed it further left, which has also been shifting the goalposts of society in a more secular direction ever since the Progressive Era of the late 19th century.

The Democratic Party has fully embraced feminism and its natural descendent, the LGBT movement. Both have propagated the idea that men and women are indistinguishable. This justifies the party’s attempts to mix and match the roles of the two sexes in society. They are opposed to the Christian idea that man and woman were made distinct from yet complementary to one another.

By destroying marriage and the distinctions of the sexes, the party helped craft sexual activity into a vital expression of choice and liberation. These are the party values over the Christian practices of restraint and modesty. It has removed the incentives to abstain from sex and promoted perverse sexual behavior. In doing so, it has helped to normalize sexual depravity.

The idol of abortion also affirms the desire of the Democratic Party to exempt society from taking responsibility for its actions. By dehumanizing children as “parasites” and framing abortion as a right, the party encourages people to blame others for their decisions to have sex. This is despite Christians asserting that all life is sacred and formed by God upon conception.

Intersectionality has had a similar effect. The party has adopted a caste system based on what someone is or claims to be rather than who someone is or what they have done. This places those deemed “victims” over those deemed “oppressors,” while Christians view all humans as made with equal value by God.

All of this derives from one source: pride. The Democratic Party lives and breathes on its prioritization of the self. Everything it peddles is based on the idea that man is in control of his own destiny and should be allowed to pursue whatever makes him happy. Anything standing in the way of that is evil. One could say that the Christian, who instead values humility, is a threat to his existence.

It is no coincidence, then, that there is a surging reverence for Satan from within the party. The devil represents its radical idealism according to the great thinkers of leftism, such as Mikhail Bakunin, who called him “the eternal rebel, the first freethinker, and the emancipator of worlds.” The past year alone has seen Democratic officials honor the Satanic Temple and erect statues in Lucifer’s honor in state capitals.

It is clear the Democratic Party has placed its faith in itself over faith in God. It sees Christians as the enemies of all it holds dear. There is no reason to believe anyone can be both a faithful Christian and a devoted Democrat because no one can simultaneously seek to praise the self and God.

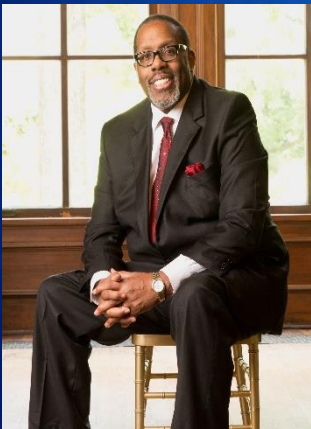

From the article “Christianity is Incompatible with the Democratic Party” by Parker Miller,
Washington Examiner; Published February 26, 2024,

www.washingtonexaminer.com/opinion/beltway-confidential/2885507/christianity-incompatible-with-democratic-party/

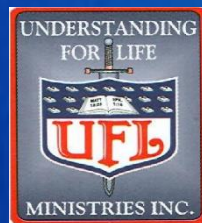

THE DEMOCRATIC PARTY'S AGENDA FOR BLACK AMERICA

Today's Democratic Party differs from the 1960s Civil Rights Party, which our parents, grandparents, and great-grandparents voted for. Today's party has been infiltrated by socialists, communists, LGBTQ activists, atheists, Muslims, Palestinians, Black Lives Matter, abortionists, radical feminists, and other anti-Christ radical activist groups and organizations.

The Democratic Party's Agenda for Black America by Apostle Alton R. Williams reveals why the black community trusts this party but has little to show for it. Learn which party supports civil rights. Find out how the Democratic Party destroys the black family, incarcerates black men, murders innocent children through abortion, and ultimately replaces us with illegal aliens. Finally, discover how we can move forward by educating ourselves on the issues and voting according to biblical values that always lead to prosperity, success, and blessings for ourselves and future generations.

About the Author: Apostle Alton R. Williams is the senior pastor of World Overcomers Outreach Ministries Church (WOOMC) in Memphis, Tennessee, with a membership of over 17,000. Apostle Williams has authored hundreds of books and ministry manuals and led WOOMC in local, national, and international outreach efforts as evidence of his apostolic call to train churches and pastors. As one of God's new apostolic reformation end-time leaders, his mandate is three-fold: to proclaim and help restore America's Christian heritage, to empower believers to find their purpose, and to impact today's culture for the kingdom of God. He is married to Sherrilyn Williams. Together, they have five children: Altronise, Sheronda, Alton Jr., Allison (Andy Carver), Joy, and one grandson, Amari Justice Carver.
