

HCBS ACCESS GUIDE

HCBS ACCESS GUIDE

Home and Community Based Services (HCBS) Waivers are KanCare (Kansas Medicaid) programs to provide services to a person in their community instead of an institution, such as a nursing home or state hospital. In Kansas, the Kansas Department for Aging and Disability Services (KDADS) oversees HCBS programs.

Kansas has seven (7) HCBS Waivers to meet the needs of people with different diagnoses and needs:

- Autism
- Frail Elderly
- Intellectual and Developmental Disabilities 1
- Physical Disability
- Serious Emotional Disturbance 1
- Technology Assisted
- Brain Injury

If you or a loved one needs assistance to be able to remain in your community, an HCBS Waiver may be able to help.

The services you may receive will vary depending on the waiver you qualify for and your individual needs. This guide will walk you through how to apply for and keep HCBS Waiver services.

For individuals who need accommodation to access this information, contact KDADS by phone at 785- 296-4986 or by email at HCBS-KS@kdads.ks.gov

4 STEPS TO STARTING AND MAINTAINING HCBS SERVICES

APPLYING FOR SERVICES:

Finding out if you are eligible for services is a two-part process that includes functional eligibility and financial eligibility. Functional eligibility looks at your needs and diagnosis to see if you're eligible for an HCBS Waiver. Financial eligibility looks at your eligibility for KanCare to pay for your services.

How you apply for functional eligibility depends on your diagnosis and needs. To get started use the table below to find where you should apply, this is your entry point. You'll work with them to apply for services. If you aren't sure which you need, contact any entry point in your area and they'll help you get to the right place. You can also contact your local Center for Independent Living (CIL) for assistance in contacting the entry point, see page 19 for contact information.

What to expect during functional eligibility:

Functional eligibility will look different, depending on the waiver for which you're applying to use. Usually, you will fill out an application and sign releases so the entry point can get records about your diagnosis/ functional abilities. Someone from the entry point will meet with you to get an idea of what you need and tell you about available services. They will also explain your rights and tell you what you need to do next.

These are some things you may be asked for during functional eligibility:

- Information about your diagnosis (medical records),
- Individual Education Plan (IEP) if you are or were recently in school,
- Treatment plans,
- Legal guardianship information,
- Anything else that tells about your diagnosis and needs.

Waiting List: Some HCBS Waivers have a waiting list so you may not be able to start services right away, even if you are functionally eligible. Currently there is a waiting list for the I/DD and PD Waivers. If there is a waiting list for the Waiver you are eligible for, you will be put on the waiting list after functional eligibility is determined.

If you are waiting for the I/DD Waiver, your local CDDO will contact you at least once a year to see if you still want or need services

If you are applying for the Autism Waiver, a child who meets the criteria for the HCBS Autism Program will be placed on the Proposed Recipient List (PRL), the child will receive a letter from the Autism Program Manager informing them they have been placed on the Proposed Recipient List and their numerical position on the list. When a position on the program becomes available the Program Manager will contact the family to offer them the potential position.

If you are on a waiting list for service, you will be notified by KDADS when you are able to start services. You'll start step 2 after you get that notice.

If you ARE NOT functionally eligible: You may be referred to other resources that may be able to help, including your local Center for Independent Living (CIL), see page 19 for contact information for your local CIL. You will also be told about your rights and what to do if you disagree with the decision.

INSTITUTIONAL TRANSITIONS

An Institutional Transition moves residents of qualified institutional settings into the community. This process identifies individuals who have expressed their desire to return to the community and provides them with community supports to aid them in maintaining residence in the least restrictive setting of their choice.

Institutional Transitions are available if you are eligible for the Frail Elderly (FE), Physical Disability (PD), Brain Injury (BI), or Intellectual/ Developmental Disability (IDD) waiver. Individuals completing an Institutional Transition to a waiver with a current waiting list can bypass the waiver waitlist.

Learn more about institutional transitions on the [KDADS Institutional Transition](#) webpage.

To apply for an institutional transition and have Medicaid with an assigned Managed Care Organization (MCO), contact your assigned MCO. If you do not have Medicaid, please complete a Medicaid application online at www.applyforkancare.ks.gov or by calling 1-800-792-4884. Once you have your MCO assignment, based on your choice, visit with your assigned Care Coordinator to initiate the Institutional Transition process.

Eligibility

To be eligible for an Institutional Transition to an HCBS waiver, you must meet the following criteria:

1. Must be a current resident in a qualified institutional setting;
 - Qualified Institutional Settings include:
 - Nursing Facility
 - Skilled Nursing Facility which provides skilled nursing services or skilled rehabilitative services
 - State Hospitals (Kansas Neurological Institute, Larned, Osawatomie, and Parsons)
 - Institution for Mental Disease (IMD)
 - Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF-IID)
 - Psychiatric Residential Treatment Facilities (PRTF)
 - Brain Injury Rehabilitation Facilities (BIRF)
 - Hospitals Must have been in a qualified institutional setting for a minimum of sixty (60) consecutive days for waivers that currently have a waiting list
2. Indicate an interest in moving back into the community through the Nursing Facility Survey or verbal communication to family/hospital/Managed Care Organization (MCO)/ADRC/ Assessing Entity/State of Kansas
3. Meet the HCBS waiver eligibility criteria for the FE, PD, BI, or I/DD waivers
4. Be financially eligible for Medicaid.

APPLYING FOR KANCARE

After functional eligibility is determined, you will want to apply for KanCare to help pay for your services. To qualify for KanCare, you will have to meet the KanCare financial eligibility requirements, including income and asset limitations. When you are approved for an HCBS Waiver, KanCare looks only at the income and assets of the person who will receive services, even for children. When you receive KanCare as an HCBS Waiver participant, you will be able to receive all of your medically necessary services through KanCare, not just HCBS Waiver services.

To apply for KanCare go to the website at www.applyforkancare.ks.gov. When you are accessing an HCBS Waiver, you'll complete the application for Elderly and Disabled and select the HCBS check box.

THEN, MAIL OR FAX YOUR APPLICATION TO:

KanCare Clearinghouse
PO Box 3599

Fax: 1-844-264-6285

For assistance with your application, call
1-800-792-4884

If you already have KanCare: Your information will be updated by entry point or state staff to show that you are eligible for or receiving an HCBS Waiver.

Helping pay for your care: You may have to help pay for a part of your services if you (the person who receives services) have income of more than \$2829 per month.

Private pay: If you aren't eligible for KanCare but are functionally eligible, you can pay for services privately. Your entry point for functional eligibility can give you contact information for providers in your area and you can make arrangements with the provider.

Other insurance: If you are interested in seeing if your private (non-KanCare) insurance will help pay for services, you can explore this with the service provider you will use. Your entry point for functional eligibility can give you contact information for providers in your area.

STARTING SERVICES

Each HCBS Waiver has different services to help you meet your needs. You can learn more about the services available in the [Summary of HCBS Services Provided in Kansas](#) document.

Services can help with things such as meal preparation, assistance bathing and dressing, daily living activities, medication reminders, community activities, help you find and keep a job, and more. Your services will depend on what Waiver you use and your needs. HCBS services do not pay for living expenses, or room and board.

When you're approved to start HCBS Waiver services, you'll work with your KanCare Managed Care Organization (MCO) to see what services you will receive. The MCOs in Kansas are Healthy Blue, Sunflower,

and United Healthcare. Your MCO will assign a care coordinator to you, who will meet with you to talk about your needs, service options, and how much help can expect to get.

Self-Direction: Self-direction is based on the belief that people receiving services should be able to make decisions about their services if they want to, including who provides them. Kansas laws K.S.A. 39-7, 100 and K.S.A. 65-6201 can tell you more about self-direction and its history in Kansas.

There are some services that you can self-direct. When you choose to direct your care, you are responsible for finding, selecting, hiring, training and monitoring your own staff. You can learn more about self-direction on KDADS' [Self Direction](#) webpage.

CHOOSING YOUR PROVIDER AND STARTING SERVICES

You and your MCO will work together to determine your services and choose service provider(s). This service provider will find your care staff and ensure you get your services. You will work with your MCO, provider, and other people that are important to you to create your Person Centered Service Plan. This will include talking about your goals, what you can do for yourself and what you want someone to help with.

You will be asked to provide a lot of information about yourself and your needs when you're planning your services. This is so your provider and MCO can make sure you're getting what you need and want from your services.

STEP 4. MAINTAINING SERVICES

ONCE YOU HAVE STARTED SERVICES, THERE ARE A FEW THINGS YOU WILL HAVE TO DO TO KEEP THEM:

- ☐ Use your waiver services at least monthly
- ☐ Participate in assessments (annual or semi annual or quarterly) as required by the Waiver to see if your needs have changed
- ☐ Participate in updating your Person Centered Service Plan at least annually
- ☐ Renew your KanCare application annually
- ☐ Notify the clearinghouse and your service provider if you move or your information changes
- ☐ If you are on the waiting list, notify your entry point if you move or your information changes
- ☐ Contact your access entity if you need to make changes to any of your information

Your provider and MCO will help you and let you know when you need to do these things, but it's important that you help as well.
