

DNV OFFSHORE CONTAINERS DESIGNING AND MANUFACTURING

DNV MANUFACTURING VARIES AS PER CLIENT'S NEED & STANDARD REQUIREMENTS:

- DNV 2.7-1 Standard
- DNV 2.7-2 Standard
- DNV 2.2.2 Standard
- DNV 2.7-3 Standard

NIXAMS INTERNATIONAL LIMITED

Email: info@nixams.com
Website: www.nixams.com

Through the Years, Safety Awareness have Increased in the Oil and Gas Industry.

Client's requirements have been Limited by Classes: DNV, ABS, BV, Lloyd's Register, BS EN ISO 10855-1 and Other International Standards.

With these Classes in the Industry, the Working Environment has become Safer and More Effective

DNV Standard, in the Past 6 Years, have become the Highest Requested Standard in Onshore and Offshore Facilities.

International Companies like Total, Exxon Mobil, Shell, and Others are using European Drilling Companies because all European Equipment are of DNV Standard.

In the Past and Still To Date; Companies have been Importing all their Offshore Equipment and CCUs from Europe for them to meet up with the market needs and that cost them a lot of Money.

Fortunately, NIXAMS happens to be the first Company in Nigeria to Succeed during the Past Years to Manufacture Locally, DNV Standard CCUs and have Successfully Executed Many Projects for Reputable Clients.

NIXAMS International Limited is your One-Stop Source for all your DNV Requirements.

It includes:

- Design and Engineering Verification
- Traceability in Materials Procurement
- Materials Inspection
- Fabrication
- Dimensional Check by DNV Inspector
- Welding by DNV Certified Welders
- NDT and Load Test as Per DNV Standard
- Blasting and Painting
- Final DNV Sign-Off and Final Certificate

DESIGN & ENGINEERING VERIFICATION

Design and Engineering Verification is the First Step of Any DNV CCU Production Process.

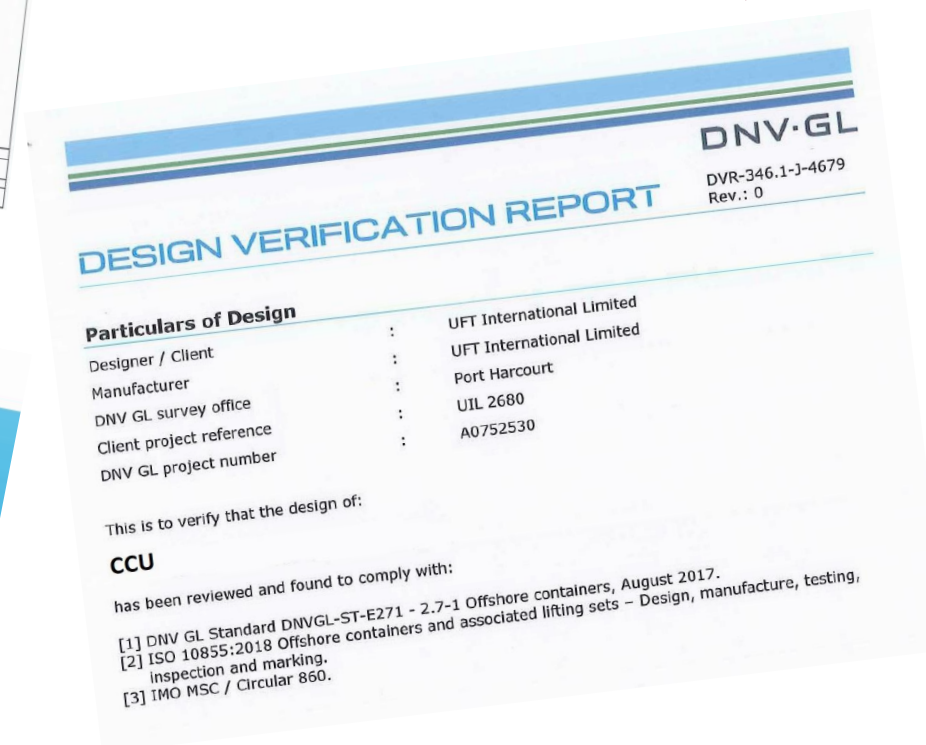

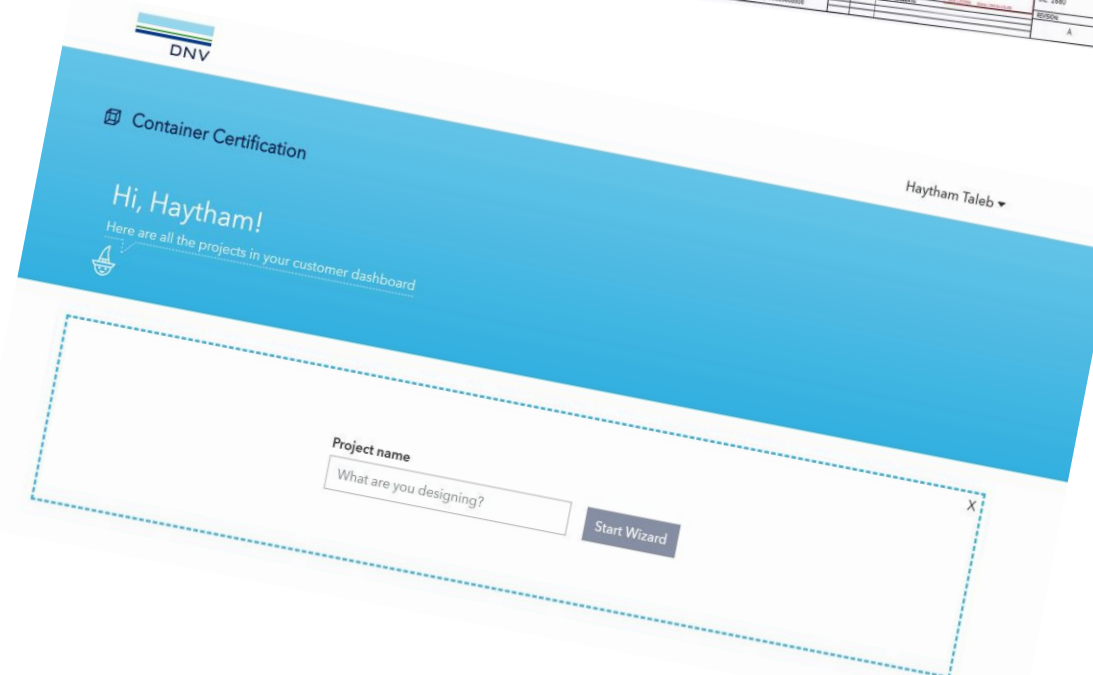

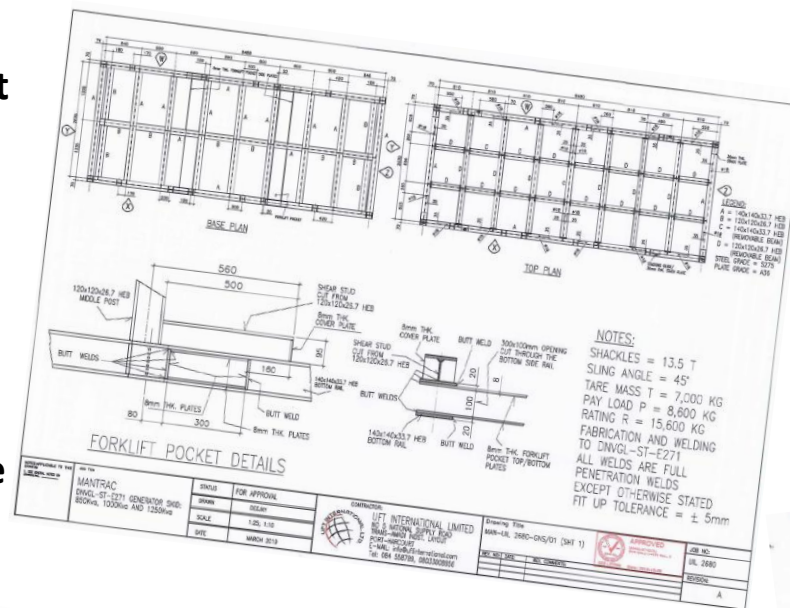

That will be Uploaded Online on DNV Platform to get Approval by DNV UK.

Hence DVR Document to Proceed with the Production Process.

For TYPE Approval; 20 Units of the CCU can be Produced from the DVR Issued.

Summary:

- Drawings
- Design Calculation
- Online Uploading
- Review and Approval
- DVR

TRACEABILITY IN MATERIALS PROCUREMENT

Materials Procurement is the First Step of Any Fabrication Process and Like Wise for DNV Standards.

During Designing, Grade of Steel is Taken into Consideration and that will Also Reflect on the DVR Issued.

Materials Procures must be As Per Approved DVR and will Be Inspected by DNV Surveyor Before Commencement of Fabrication Process.

Not Procuring the Right Material will Lead to a Failed CCU and that will Fail During the Test Process.

Incase the Materials Does Not Have a Corresponding MTC as Per Approved Design; Then Lab Tests will Be Done on the Materials Under the Supervision of DNV Surveyor.

FABRICATION, FIT-UP CHECK, & WELDING

Fabrication is Being Done by Certified Personnel and Under the Supervision of Trained Supervisors.

Fit-Up Check and Dimensional Check is Conducted by DVN Surveyor Before the Commencement of the Welding.

Welders are to be DNV Certified and that is Done by Tests Supervised by DNV.

Welding is Done Per a DNV Approved WPS.

DIMENSIONAL CONTROL MANUFACTURING INSPECTION REPORT

PROJECT NAME: Skid for 800,1000 and 1250 KVA Generators
DRAWING NO.: MAN-UIL 2680-GNS/01 (Sht1-Sht7)
UNIT SERIAL No.: MAN-UIL 2680-GNS/07

Report No: DMI-MAN 2680-GNS/07
REPORT NO.: DMI-MAN 2680-GNS/07
CLIENT: MANTRAC NIGERIA LIMITED

DIMENSIONAL CHECK
THE GENERATOR SKID HAS BEEN DIMENSIONALLY CHECKED AS FOLLOWS:

1. SKID BASE
2. STRUCTURAL BEAMS FITTING DIMENSIONS
3. HEIGHT OF SKID
4. OVERALL DIMENSIONS OF SKID STRUCTURE
5. PADEYES DIMENSIONS AND FIT UP

WELDING PARAMETERS

Layers	Process	Brand Name	Filler Metal	Class	Diameter	Current Polarity	Current Range	Voltage Range	SOT mm/min	HEAT INPUT KJ/mm

WELDER QUALIFICATION TEST CERTIFICATE

Welder's Name: CHRISTIAN OSHALI
UIL-WOR-006
Test Location: UFT International Limited Base - Port Harcourt
Date of Test: 03.01.2019
PCR No.: UFT-PQR-001
WPS No.: UFT-WPS-234-01

Test Details:
Specification / Code: AWS D1.1 2015 Edition
Welding Process / Type: SMAW / Manual
Position / Progression: 6G / Uphill

Base Metal / Filler Metal:
Pipe Diameter: 6" S.A. XX
Pipe Material: A308 GR. B
Base Metal: E7018-2.4 and 3.2mm Lincoln
Filler Specification No.: AWS 5.1

Test Type: Visual Inspection
Date: 03.01.2019
Result: Acceptance

Report No.: VIB-UIL 2618-006
Remarks: Satisfactory

We Certify that the statement in this record is correct and that this test coupon was Prepared, Welded and Tested in accordance with the requirements of relevant section AWS D1.1 Structural Welding Code - Steel 2015 Edition.

PROJECTS EXECUTED

Client: UFT Engineering Limited

Project: DNV 2.7-1 20Ft Basket

Scope of Work:

- Design, Engineering, and DNV Approval
- Supply of Material
- Fabrication, Welding, NDT and Load Test, and Painting.
- Acquire DNV Final Certificate and Decal

Fabrication: NIXAMS Base

1st DNV 2.7-1 Unit to be Fabricated in Nigeria

PROJECTS EXECUTED

Client: Schlumberger Nigeria Limited

Schlumberger

Project: DNV Generators Skid

Scope of Work:

- Design, Engineering, and DNV Approval
- Supply of Material
- Fabrication, Welding, NDT and Load Test, and Painting.
- Acquire DNV Final Certificate and Decal

Fabrication: NIXAMS Base – Port Harcourt

Client: BAKER HUGHES, A GE Company

Project: DNV 2.7-3 Sub-Sea Annulus Basket

Scope of Work:

- Design, Engineering, and DNV Approval
- Supply of Material
- Fabrication, Welding, NDT and Load Test, and Painting.
- Acquire DNV Final Certificate and Decal

Fabrication: NIXAMS Base

PROJECTS EXECUTED

Client: SEADRILL

Project: DNV 2.7-3 Reel Basket

Scope of Work:

- Design, Engineering, and DNV Approval
- Supply of Material
- Fabrication, Welding, NDT and Load Test, and Painting.
- Acquire DNV Final Certificate and Decal

Fabrication: NIXAMS Base

PROJECTS EXECUTED

Client: HALLIBURTON

HALLIBURTON

Project: DNV 2.7-1 SPS Skid

Scope of Work:

- Design, Engineering, and DNV Approval
- Supply of Material
- Fabrication, Welding, NDT and Load Test, and Painting.
- Acquire DNV Final Certificate and Decal

Fabrication: NIXAMS Base

PROJECTS EXECUTED

Client: FRIGATE UPSTREAM

Project: DNV 2.7-1 Mud Tanks – 2 Nos.

Scope of Work:

- Design, Engineering, and DNV Approval
- Supply of Material
- Fabrication, Welding, NDT and Load Test, and Painting.
- Acquire DNV Final Certificate and Decal

Fabrication: NIXAMS Base

PROJECTS EXECUTED

Client: Schlumberger Nigeria Limited
